Representative McNutt moved the adoption of the following report of the special committee appointed to investigate the distribution of hard core pornography into the House of Representatives Chamber on Friday, February 10, 1978:

REPORT OF SPECIAL COMMITTEE

Rep. Dolly McNutt, Chairman
Rep. Harold DeMarcus
Rep. Dwight Wells

The Special Committee appointed to investigate the distribution of hard core pornography into the House of Representatives; Chamber on Friday, February 10, 1978, has completed its task and reports the following findings:

The Committee asked for voluntary testimony. All witnesses who appeared were interrogated as to their knowledge of the incident. The result of the testimony revealed that Mrs. Carol Maddox, Ft. Thomas, Kentucky, had caused the material to be distributed.

It is the Committee's finding and conclusion that Mrs. Carol Maddox was and is totally and solely responsible for the entire incident.

It is the sense of the Committee that the action taken by Mrs. Maddox was offensive, repugnant and constituted an insult, both individually and collectively, to the Members of the Kentucky General Assembly House of Representatives. There was no issue before the Assembly which required the perusal or consideration of pornography in making an informed decision. Therefore the imposition of the incredibly vulgar, degrading, obscene material can only be construed as an affront to the dignity, decency and honor of the Commonwealth of Kentucky and its elected representatives who comprise membership of the Kentucky General Assembly

House of Representatives. We therefore recommend amending Rule 71 to read as follows:

Rule 72 Restrictions. No article, booklet, pamphlet or any other printed material shall be placed upon the desk of any member unless said article, booklet, pamphlet or other printed matter contains the signature of the author, or the party interested in the distribution thereof is clearly identified. All such articles, booklets, pamphlets or any other printed material shall *conform to accepted public taste and shall contain no matter appealing to prurient interest or without redeeming social value. Such documents shall* be delivered to the message room and shall upon direction of the Clerk after inspection, be placed in the members' bin. The Sergeant-at-Arms shall be charged with the duty of *inspecting such material and* seeing that no individual other than employees of the House under the direction of the Clerk or House members shall cause materials of any nature to be distributed in the House Chamber. *Questions as to the propriety of such materials shall be referred to the Committee on Committees for resolution.* Any material found so distributed by unauthorized individuals shall be collected from the members' desks and treated as litter.

The Committee requests concurrence and adoption of this Report by the Members of the House of Representatives.

(1) Whenever it is determined that a taxpayer, who holds a license to mine coal in Kentucky under KRS 351.175, is a "delinquent taxpayer" as defined in subsection (2) of this section, the Department of Revenue shall, after giving notice as provided in subsection (3) of this section, submit the name of such taxpayer to the Department of Mines and Minerals for revocation of the license issued under KRS 351.175.

(2) Either of the following situations is sufficient to cause a taxpayer to be classified as a "delinquent taxpayer" for purposes of this section:

(a) When a taxpayer holding a license under KRS 351.175 has an overdue state tax liability arising directly or indirectly from the mining, transportation or processing of coal, for which all protest and appeal rights granted by law have expired and has been contacted by the department concerning the overdue tax liability. This does not include a taxpayer who is making current timely installment payments on such overdue tax liability under agreement with the department.

(b) When a taxpayer holding a license under KRS 351.175 has not filed a required tax return as of thirty (30) days after the due date or after the extended due date, and has been contacted by the department concerning the delinquent return. This applies only to tax returns required as the result of the taxpayer's involvement inthe mining, transportation or processing of coal.

(c) When an owner, partner or corporate officer of a proprietorship, partnership or corporation holding a license under KRS 351.175, held a similar position in a business whose license was revoked as a "delinqunet taxpayer", and the tax liability remains unpaid.

(3) At least twenty (20) days in advance of submitting a taxpayer's name to the Department of Mines and Minerals a provided in subsection (1) above, the department shall notify the taxpayer by certified mail that such action is to be taken. The otice shall state the reason for such action and shall set out the amount of any tax liability incuding any applicable penalties and interest and any other area of noncompliance which must be satisfied in order to prevent the submission of his name to the Department of Mines and Minerals as a "delinquent taxpayer".

Section 39. KRS 361.175 is amended to read as follows:

(1) Within forty-five (45) days after January 1, 1953, and of each year thereafter, the owner, operator, or lessee of each mine shall procure from the department a license to operate such a mine, and such license shall not be transferable. Any owner, operator, or lessee who assumes control of a mine, opens a new mine or reopens an abandoned mine during any calendar year shall procure such license before mining operations are begun.

(2) The license shall be in such printed form as the commissioner may prescribe and when issued shall be kept posted at a conspicuous place near the main entrance of the mine.

(3) Requests for such license shall be made to the department and such requests shall be accompanied by a U.S. postal money order or cashier's check drawn in favor of the state treasurer in a reasonable amount established by regulations promulgated by the commissioner of a minimum of one hundred dollars ($100) and a maximum of one thousand dollars ($1,000). When the annual report of the operator and the annual mine map, as required by KRS 351.170 and 352.450, together with a certification from the commissioner of labor that the applicant, except an applicant for a mine license who employs fewer than ten (10) employes, for license has presented positive proof of compliance with the provisions of KRS chapter 342, are properly submitted to the department, the license shall be issued. The commissioner or his accredited agents shall have the authority to extend the time for filing of the map not to exceed an additional forty-five (45) days. Upon receipt of withdrawal of the certification of the commissioner of labor, *or upon receipt of notice from the commissioner of revenue that the licensee is a "delinquent taxpayer", as defined in KRS Chapter 131,* the department shall forthwith revoke any license hereunder issued. Revocation of said license shall be an administrative function of the department. Appeal of said administrative function shall lie in the Fayette Circuit Court.

(4) Any owner, operator or lessee operating a mine and who fails to obtain his license as required by this section shall be guilty of a misdemeanor, and shall be subject to a fine of not less than one hundred dollars ($100) nor more than three hundred dollars ($300) at the discretion of the court. Each day the mine is operated without a license constitutes a separate offense. Jurisdiction for such offenses shall lie in the circuit court of the county in which the offense occurred.

(5) The mine inspector shall have the authority to stop production at the mine of any operator who fails to procure a license or fails to furnish a certification of compensation coverage as required under this section.

(6) The application for a license shall be accompanied by a transportation plan which shall set forth the portions of the state primary road system, if any, over which the applicant proposes to transport minerals extracted in the mining operation. The transportation plan shall specify the legal weight limits for each portion of any such highway or bridge over which the applicant proposes to transport minerals. The transportation plan shall include any proposal by the applicant to obtain a special permit pursuant to the provisions of KRS 189.271 to exceed the weight limits on any highway or bridge. The transportation plan shall contain a certification by a duly authorized official of the department of transportation attesting the accuracy of the transportation plan in regard to the locations and identities of highways and bridges on the state primary road system and the accuracy of the specifications of weight limits on such highways and bridges.

(7) A license which has been revoked under the "delinquent taxpayer" provision shall not be re-issued until a written tax clearance has been received from the commissioner of revenue."

The transferee shall give written notice of the effective date of the

transfer, together with a copy of the instrument of transfer to the Department and to the Department of Revenue.

Each voter shall sign his name in the same manner as he signed the current registration form described in KRS 116.153 or subsection (2) of KRS 116.045, as the case may be. If the signature is difficult to read, the voter shall, on the same line legibly write or print his name in the same fashion as he signed it. One or more persons shall verify by affidavit the signatures and addresses of the signers of the petition. *The county board of elections shall make the determination of whether the petition contains enough signatures of qualified voters to suspend the effect of the order or resolution, and immediately thereafter shall notify the school board that the petition has been received and that the order or resolution levying such tax will be placed on the ballot for voter approval at the next general election. The board of elections shall certify to the school board within thirty (30) days of receipt of the petition that the petition is properly presented and in compliance with the provisions of this Act. If the board of elections finds the petition to be invalid, it shall state in writing the deficiency of said petition. Written notification that the petition has been declared invalid and the deficiencies thereof shall be sent by registered mail to the person to whom a receipt was given by the board of elections, and shall be published at least one time in a newspaper of general circulation within the county containing the school district levying the tax, or if there be no such newspaper, shall be posted at the courthouse door. If good cause is shown, the board of elections shall permit the petitioners to correct the deficiencies either by securing additional valid signatures or by circulating a new petition, such petition to be submitted to the board within thirty (30) days from the date of the written notification of the deficiencies.* [The board or boards of registration in the county shall provide necessary and appropriate aid to the school board or boards so that the latter may make the determination of whether the petition contains enough signatures of qualified voters to suspend the effect of the order or resolution.]

(2) Thereupon, if it has been determined that the petition contains enough valid signatures to suspend the effect of the order or resolution, the county board of elections shall submit to the voters of the school district in which a valid recall petition has been filed pursuant to subsection (1) of this section at the next regular November election the question as to whether the tax shall be levied. The question shall be so framed that the voter may by his vote answer, "for" or "against." If a majority of the votes cast in a district or combined taxing district upon the question oppose its passage, the order or resolution shall not go into effect in that district or combined taxing district. If a majority of the votes cast in a district or combined taxing district upon the question favor its passage, the order or resolution shall go into effect in that district. In the event that the election is to be held in more than one (1) school district within a county the votes shall be counted separately.

(3) If any statute in existence on the effective date of this Act is found to be in conflict with any provision of this Act, the provisions of this Act shall prevail.

The classroom units allotted under this subsection shall not exceed the units provided in the biennial budget without approval of the governor.

(11) In allotting classroom units *for superintendent, one unit shall be allotted each school district* [under subsections (1) through (10) the superintendent of public instruction, under Kentucky administrative regulations of the state board of education, may allot units on the basis of an area larger than a district for educational services which cannot be adequately and economically provided on a district basis].

Section 4. KRS 157.390 is amended to read as follows:

(1)(a) The superintendent of public instruction, under Kentucky administrative regulations of the state board *for elementary and secondary* [of] education, shall classify teachers in rank as follows:

Rank II. Those holding regular certificates and who have a master's degree *in a subject field approved by the state board for elementary and secondary education* or [its] equivalent *preparation.*

Rank III. Those holding regular certificates and who have an approved four-year college degree or the equivalent.

Rank IV. Those holding certificates and who have ninety-six (96) to one hundred twenty-eight (128) semester hours of approved college training or the equivalent; provided, however, that persons holding emergency certificates shall not be classified higher than this rank for calculation of the amount to be included in the foundation program.

Rank V. Those holding certificates and who have sixty-four (64) to ninety-five (95) semester hours of approved college training or the equivalent.

(b) In determining ranks, the superintendent of public instruction, under Kentucky administrative regulations of the state board *for elementary and secondary* [of] education, shall classify teachers who hold valid certificates in the respective ranks according to approved college semester hours of credit. The superintendent of public instruction, in defining preparation for certain types of vocational teachers as equivalent to college training, shall give consideration to apprenticeship training and industrial experience.

(2)(a) The amount to be included in each school year in the foundation program of a district for teachers' salaries shall be determined by multiplying the number of teachers in each rank, not to exceed the number of classroom units allowed, by the amount set forth in the biennial budget schedule for each rank and experience for a term of one hundred eighty-five (185) days. Provided, the amount to be included for units allotted under KRS 157.360(5), (7), (8), [and] (9) *and (11)* shall be increased proportionately if the personnel for such units are employed for longer than the regular school term and such employment is approved by the superintendent of public instruction under Kentucky administrative regulations of the *appropriate* state board [of education]. Where the actual number of teachers employed by the district varies from the number allowed under the provisions of KRS 157.310 to 157.440, the number to be included in each rank shall be in the same ratio that the number of teachers actually in each rank is to the total number of teachers employed.

(b) The state board *for elementary and secondary* [of] education with the recommendation of the superintendent of public instruction, may designate local school districts as experimental districts for the utilization *as classroom units* [of] para-professionals and teacher aides *under KRS 157.360(2)* [including the utilization of para-professionals and teacher aides for exceptional children]. In experimental districts, foundation program fund calculations shall include, with respect to one or more schools in the district, an amount for para-professionals and teacher aides. This amount may be equal to *a maximum of* fifty percent (50%) of the amount included for a teacher in Rank III with no experience *but may not exceed the salary paid the para-professional or teacher aid,* multiplied by the number of approved para-professionals and teacher aides employed in the designated school or schools.

(c) Such amounts may be included only for those who are not in sole and principal charge of a class. No district may receive foundation program funds for such number of para-professionals and teacher aides referred to in paragraph (b) of this subsection as exceeds one-half (1/2) the number of certificated teachers in the designated school or schools.

(d) In the calculation of classroom units for the purpose of allocation of teachers' salaries only, the state board *for elementary and secondary* [of] education may use a ratio greater than twenty-seven (27) to one (1) for such calculations regarding the experimental districts designated pursuant to paragraph (b) of this subsection.

(3) The amount to be included in the foundation program for other current expenses shall be determined by multiplying the number of classroom units by the amounts set forth in the biennial budget.

(4) The amount to be included in the foundation program for capital outlay shall be determined by multiplying the number of classroom units by the amounts set forth in the biennial budget.

(5) The amount to be included in the foundation program of each district for transportation shall be determined by multiplying the aggregate attendance of transported children by the allowable cost per pupil per day for that district determined in accordance with the provisions of KRS 157.370.

(6) The total *amount of money distributable to* [cost of the foundation program for] each district *from the public school foundation program fund* shall be the sum of the allotments in subsections (2), (3), (4) and (5) of this section.

Section 5. KRS 157.420 is amended to read as follows:

Public school foundation program funds made available to the credit of each district during any year, shall be received, held and expended by the district board, subject to the provisions of law and Kentucky administrative regulations of the state board *for elementary and secondary* [of] education. The following restrictions shall govern the expenditure of funds from the public school foundation program fund:

(1) The teachers' salaries allotment for each district from the public school foundation program fund and from local sources shall be used only for teachers holding properly authorized certificates. The average salary paid any rank of teachers shall be at least equivalent to the amount set forth in the biennial budget schedule for each rank and experience for a term of one hundred eighty-five (185) days *and* [.] no teacher shall be paid less than ninety-three percent (93%) of the public school foundation program fund allotment for that rank for full-time service during the regular school year *or the allotment under KRS 157.390(2) shall be reduced by an amount equal to the amount by which the district failed to meet the salary requirements.* [This paragraph shall not apply to noncertificated personnel in experimental districts designated pursuant to paragraph (b) of subsection (2) of KRS 157.390.]

(2) The state board *for elementary and secondary* [of] education shall not approve any working budget or salary schedule *summary* for local boards of education for any school year in which the total amount *for one hundred eighty-five (185) days on the salary schedule summary* [budgeted] for *foundation program instructional* [teachers'] salaries is not equal to *(a) the* [an] amount *for one hundred eighty-five (185) days on* [required to maintain] the district's salary schedule *summary for foundation program instructional salaries* [of] the preceding year plus *(b)* the additional amount for *instructional* [teachers'] salaries *to be received by the district under the biennial budget schedule for a one hundred eighty-five (185) day school term by assuming the same classroom units and rank and experience of teachers in the current year as in the preceding year* [received by the district].

(3) The capital outlay allotment for each district from the public school foundation program fund and from local sources shall be kept in a separate fund and may be used by the district only for capital outlay projects approved by the superintendent of public instruction in accordance with requirements of law, and based on a survey made in accordance with Kentucky administrative regulations of the state board *for elementary and secondary* [of] education. These funds shall be used for the following capital outlay purposes:

(a) For direct payment of construction costs;

(b) For debt service on voted and funding bonds;

(c) For payment or lease-rental agreements under which the board eventually will acquire ownership of a school plant;

(d) For the retirement of any deficit resulting from over-expenditure for capital construction, if such deficit resulted from an emergency declared by the state board *for elementary and secondary* [of] education under KRS 160.550;

(e) As a reserve fund for the above-named purposes, to be carried forward in ensuing budgets; provided, however, if any district has a special levy for capital outlay or debt service that is equal to the capital outlay allotment or a proportionate fraction thereof, and spends the proceeds of that levy for the above-named purposes, the superintendent of public instruction under Kentucky administrative regulations of the state board *for elementary and secondary* [of] education, may authorize the district to use all or a proportionate fraction of its capital outlay allotment for current expenses.

(4) If a survey shows that a school district has no capital outlay needs as shown in paragraphs (a), (b), (c), and (d) of subsection (3) of this section, upon approval of the superintendent of public instruction, these funds may be used for school plant maintenance, repair, insurance on buildings, replacement of equipment and purchase of school buses.

Section 6. KRS 157.430 is amended to read as follows:

If, when the apportionments are being determined under the provisions of KRS 157.310 to 157.440, funds appropriated by the general assembly to the public school foundation program fund [plus that portion of the funds required from local tax effort] are insufficient to provide the amount of money required under *subsection (6) of KRS 157.390* [subsections (1), (2), (3), and (4) of KRS 157.400], the superintendent of public instruction shall make a percentage reduction in the allotments to reduce the total of these allotments to funds available.

Section 7. KRS 157.440 is amended to read as follows:

(1) *A* [In addition to the local tax effort required by KRS 157.380 and 157A.100, for participation in the equalization account of the public school foundation program fund, such districts or any other] district may exceed the maximum provided by subsection (2) of KRS 160.470 provided that, upon request of the board of education of the district, the county board of elections shall submit to the qualified voters of the district, in the manner of submitting and voting as prescribed in paragraph (b) of subsection (1) of KRS 160.477, the question whether a rate which would produce revenues in excess of the maximum provided by subsection (2) of KRS 160.470 shall be levied. If a majority of those voting on the question favor the increased rate, the tax levying authority shall, when the next tax rate for the district is fixed, levy a rate not to exceed the rate authorized by the voters.

(2) For the 1966 tax year and for all subsequent years for levies which were approved prior to December 8, 1965, no district board of education shall levy a tax at a rate under the provisions of this section which exceeds the compensating tax rate as defined in KRS 132.010, except as provided in subsection (3) of this section and except that a rate which has been approved by the voters under this section but which was not levied by the district board of education in 1965 may be levied after it has been reduced to the compensating tax rate as defined in KRS 132.010, and except that in any school district where the rate levied in 1965 was less than the maximum rate which had been approved by the voters, the compensating tax rate shall be computed and may be levied as though the maximum approved rate had been levied in 1965 and the amount of revenue which would have been produced from such maximum levy had been derived therefrom.

(3) Notwithstanding the limitations contained in subsection (2) of this section no tax rate shall be set lower than that necessary to provide such funds as are required to meet principal and interest payments on outstanding bonded indebtedness and payments of rentals in connection with any outstanding school revenue bonds issued under the provisions of KRS chapter 162.

(4) The superintendent of public instruction shall certify the compensating tax rate to the levying authorities.

SECTION 8. A NEW SECTION OF KRS CHAPTER 157 IS CREATED TO READ AS FOLLOWS:

HB 705, AN ACT relating to school taxes.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 160.597 is amended to read as follows:

Any school tax authorized by KRS 160.593 to 160.597, 160.601 to 160.633, and 160.635 to 160.648 may be recalled as follows:

(1) The order or resolution levying any of the school taxes designated heretofore in this section shall go into effect not less than thirty (30) days nor more than ninety (90) days after its passage. If during the thirty (30) days immediately following the passage of the order or resolution a petition signed by a number of registered and qualified voters equal to fifteen per cent (15%), *except in counties containing a city of the first class, equal to five percent (5%)* of the votes cast in the school district or combined taxing district levying the tax for the office receiving the greatest total vote at the last preceding presidential election is presented to the *county board of elections requesting that the order or resolution of such tax be placed on the ballot for voter approval* [school board protesting against passage of the order or resolution], the order or resolution shall be suspended from going into effect for that district until after the election provided for in subsection (2) of this section. *The person presenting the petition shall be given a receipt indicating the date of presentation.* Each sheet of the petition shall contain the names and addresses of voters in but one (1) voting precinct and each sheet shall state the name, number, or designation of the precinct and, where applicable, the name, number or designation of the district or ward wherein the precinct is situated. Each voter shall sign his name in the same manner as he signed the current registration form described in KRS 116.153 or subsection (2) of KRS 116.045, as the case may be. If the signature is difficult to read, the voter shall, on the same line legibly write or print his name in the same fashion as he signed it. One or more persons shall verify by affidavit the signatures and addresses of the signers of the petition. *The county board of elections shall make the determination of whether the petition contains enough signatures of qualified voters to suspend the effect of the order or resolution, and immediately thereafter shall notify the school board that the petition has been received and that the order or resolution levying such tax will be placed on the ballot for voter approval at the next general election. The board of elections shall certify to the school board within thirty (30) days of receipt of the petition that the petition is properly presented and in compliance with the provisions of this Act. If the board of elections finds the petition to be invalid, it shall state in writing the deficiency of said petition. Written notification that the petition has been declared invalid and the deficiencies thereof shall be sent by registered mail to the person to whom a receipt was given by the board of elections, and shall be published at least one time in a newspaper of general circulation within the county containing the school district levying the tax, or if there be no such newspaper, shall be posted at the courthouse door. If good cause is shown, the board of elections shall permit the petitioners to correct the deficiencies either by securing additional valid signatures or by circulating a new petition, such petition to be submitted to the board within thirty (30) days from the date of the written notification of the deficiencies.* [The board or boards of registration in the county shall provide necessary and appropriate aid to the school board or boards so that the latter may make the determination of whether the petition contains enough signatures of qualified voters to suspend the effect of the order or resolution.]

(2) Thereupon, if it has been determined that the petition contains enough valid signatures to suspend the effect of the order or resolution, the county board of elections shall submit to the voters of the school district in which a valid recall petition has been filed pursuant to subsection (1) of this section at the next regular November election the question as to whether the tax shall be levied. The question shall be so framed that the voter may by his vote answer, "for" or "against." If a majority of the votes cast in a district or combined taxing district upon the question oppose its passage, the order or resolution shall not go into effect in that district or combined taxing district. If a majority of the votes cast in a district or combined taxing district upon the question favor its passage, the order or resolution shall go into effect in that district. In the event that the election is to be held in more than one (1) school district within a county the votes shall be counted separately.

(3) If any statute in existence on the effective date of this Act is found to be in conflict with any provision of this Act, the provisions of this Act shall prevail.

SB 350, AN ACT relating to elections.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 117.185 is amended to read as follows:

(1) Not less than *four (4)* [five (5)] days before the day of any election, the county board of elections shall call together the officers of election of each precinct and instruct them in the use of the voting machines. No election officer, upon being notified to appear for instruction, shall fail without just cause so to do. If any officer does so fail to appear, the board may appoint and instruct some other qualified person, from the same list from which the defaulting officer was appointed, to act in place of the defaulting officer.

(2) Compensation may be paid by the county to the election officers for attending the instruction session.

The Committee on Cities reported **HB 702** with Committee Substitute attached thereto, with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

HB 702, AN ACT relating to sale of property for delinquent taxes in cities of the second class.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 92.760 is amended to read as follows:

(1) If any real property sold for taxes of a city of the second class is not redeemed within the prescribed time, a fee simple title thereto shall vest absolutely in the purchaser, whether the city or a private person, subject [only] to state and county taxes *and all liens of record.* The treasurer shall then convey the property by executing a deed to the purchaser, except that no conveyance shall be made to any purchaser other than the city until he has paid, with interest, penalties and costs, all taxes assessed against the property after the assessment of the tax for which it was sold. The purchaser shall then be entitled to possession, and the occupant of the property shall be deemed a tenant at will of the purchaser and subject to removal as such, and shall be liable to the purchaser for the reasonable rental of the property. The deed shall describe the property

by lot and block number as shown on the city maps, if the property is so numbered, and may contain the description of the property contained in the title deeds therefor. The deed shall be attested by the city clerk under the seal of the city, and acknowledged by the treasurer as other deeds are acknowledged. The deed will pass all of the title [, legal or equitable] of the delinquent owner, *subject, however, to* [free of] all liens *of record including* [except for] state and county taxes, and shall be prima facie evidence of the regularity of the sale and of all prior proceedings, and of title in the person to whom the deed is executed, but neither the city nor the treasurer shall be deemed a warrantor of the title. In cases where the property of persons under disability is sold, no conveyance shall be executed to the purchaser until the time for redemption has expired, but the purchaser shall be entitled to possession at the end of two (2) years from the sale as in other cases. If the property is redeemed the purchaser shall not be entitled to interest during the time he was in possession of the property or receiving the income therefrom. Any land sold and conveyed to the city for taxes may be held and used by the city for any proper municipal purpose or may be sold or rented out at such time and in such manner as the general council directs by ordinance, and the proceeds thereof covered into the city treasury.

(2) If any real property of a person not under disability is sold for taxes of a city of the third class and purchased by any person other than the city, and is not redeemed within the time allowed for redemption under subsection (2) of KRS 92.730, the purchaser shall be entitled to a deed for the property, and the collector who made the sale or his successor in office shall execute and acknowledge before the county clerk a deed of conveyance to the purchaser, embodying a copy of the certificate of sale in the deed. The deed will pass to the purchaser all the title, legal or equitable, of the original owner.

(3) If any real property sold for taxes of a city of the fourth class is not redeemed within the time allowed for that purpose, the fee simple title thereto shall vest absolutely in the purchaser, whether the city or a private person. The collector or treasurer shall then convey to the purchaser the property described in his certificate of purchase, by a deed made in the name of the city and of the owner. For executing the deed, the collector or treasurer shall have a fee of one dollar and fifty cents ($1.50), to be paid by the grantee named in the deed.

The Committee Substitute to **HB 702** is as follows:

HB 702, AN ACT relating to the sale of property for delinquent taxes in cities of the second class.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 92.600 is amended to read as follows:

(1) Every fiduciary appointed under the laws of this state or by a deed or will recorded in this state who has the management of any real property in a city of the second and fourth class, and every agent of a nonresident of this state owning property in a city of the second or fourth class who collects the rent or income thereof, shall, out of the net income of such property, pay all city taxes assessed thereon before applying the income to the wants of or paying it over to his beneficiary or employer, any instructions of the latter to the contrary notwithstanding. In cities of the second class, the agent or fiduciary shall pay the taxes when due, and in cities of the fourth class he shall pay them before October 1 of the year after the year for which the taxes were assessed. In default of such payment the agent or fiduciary shall be liable for such taxes to the amount of the income that he might have so applied, which liability may be enforced in any court of competent jurisdiction, and it shall not be an answer to any such action that the city has a lien upon the property as a security for its taxes.

(2) Any fiduciary who fails to pay the taxes assessed by a city of the second class against the property of his beneficiary as required in subsection (1) of this section, or who fails to redeem any property of his beneficiary that has been sold for taxes [, after receiving notice from the treasurer as provided in KRS 92.670,] shall be liable on his official bond for all interest, penalties or other damage or loss due to such failure.

Section 2. KRS 92.660 is amended to read as follows:

(1) As soon as any taxes of a city of the second class become delinquent, either in whole or in part, the treasurer may distrain sufficient personal property owned by the delinquent taxpayer at that time or at the time of the assessment, or held for him by a fiduciary or agent, notwithstanding any lien upon it, and sell enough thereof to satisfy all taxes, penalties and interest due to the city for taxes on the property sold or on other personal property or real estate, and to pay two dollars ($2.00) for the cost of the advertisement and sale. The sale shall be for cash, and the levy, advertisement, sale and delivery to the purchaser shall be made in the same manner as in the case of goods levied on by sheriffs under executions on replevin bonds. The statutes governing powers and duties of sheriffs in levying on and selling property under executions on replevin bonds shall be applicable to the treasurer and shall regulate his powers and actions as to the order and manner of levying on property and its advertisement and sale. No warrant shall be required for such

distraint, but the tax bill shall give all necessary power for the distraint, sale and all subsequent proceedings thereunder. No distraint or sale of personal property shall be necessary to validate any sale of real estate for taxes as provided in *Sections 7 or 9 of this Act* [KRS 92.670], and no such sale of real estate shall be void because of any failure of the treasurer to distrain or sell personal property.

(2) Whenever the treasurer in any city of the second class believes on reasonable grounds that any personal property that has been assessed for taxation by the city is about to be removed from the city and that the city will thereby lose the taxes on it, he shall immediately distrain and sell, in the manner set forth in subsection (1) of this section, enough of the personal property to satisfy the taxes.

(3) In collecting city taxes, the collector of any city of the third class may distrain the personal property owned by or in the rightful possession of the person from whom the tax is due, notwithstanding the existence of any lien upon it.

(4) On receipt of the tax bills with penalty and interest attached, the collector or treasurer of any city of the fourth class may distrain sufficient personal property of the delinquent, if it is found in the city, to satisfy all taxes, penalties and interest due.

Section 3. KRS 92.670 is amended to read as follows:

On the second Monday in December of each year, or as soon thereafter as practicable, the treasurer of each city of the second class shall *offer for sale the tax claims of the city against* [sell a sufficient amount of real property, whether encumbered or not, of] each delinquent taxpayer to satisfy all unpaid taxes of the delinquent with interest and penalties thereon, and to pay two dollars ($2.00) for the cost of advertisement and sale. The sale shall be made to the highest and best bidder for cash at public auction, at or about noon, at the main entrance of the city building. [One or more parcels of real property may be sold for all of the taxes owed by the delinquent, whether for taxes on the property sold or for taxes on other real or personal property. When a parcel of real property is offered for sale, the treasurer shall inquire whether any one will buy an interest therein less than the whole thereof, and pay the taxes, interest, penalty and costs thereon, and he shall sell only so much thereof or such an interest therein as will produce the amount required to be realized. If no one will take less than the whole of the property and pay the taxes, interest, penalties and costs, the treasurer shall sell the whole of the property. If no one bids an amount equal to the taxes, interest, penalties and costs, the treasurer shall purchase the property for that amount. If one or more persons own a life estate or other particular estate in the property sold with remainder over to others, the treasurer shall first offer the particular estate for sale, and if no one will bid enough therefor to pay the taxes, interest, penalties and costs, he shall then sell the whole property. Except as otherwise provided in this section, the sale shall be made in the same manner that real property is sold by sheriffs under execution, but no levy or appraisal shall be necessary.] If any person purchases *a tax claim* [property] at the sale, and then fails to pay for it, the treasurer shall immediately resell the *tax claim* [property. Real property sold for delinquent taxes may be resold, in like manner, for taxes for succeeding years]. If, for any reason, *tax claims are* [real property is] not sold at the time fixed in this section, it may be advertised and sold at any time thereafter in the manner provided in this section.

(2) Before making any sale, the treasurer shall cause notice thereof to be published pursuant to KRS chapter 424, showing the time, place and terms of the sale, the names of the delinquent taxpayers, the numbers of the tax bills, the total amount of taxes, interest, penalties and costs due on each bill, and a brief description of the property *covered by the tax bill* [to be sold], by lot and block numbers as shown on the city maps or by other descriptions sufficiently accurate to identify each parcel. *The treasurer shall, not less than twelve (12) days before the sale, mail to the delinquent taxpayer's place of residence or business, if such can be ascertained, a notice of the time and place of sale. Failure to send such notice shall have no effect on the validity of the sale* [Within thirty (30) days after the sale the treasurer shall cause to be delivered to each delinquent whose real property has been sold, or to his guardian or committee, or to his agent if the delinquent is a nonresident, a written notice of the sale, the time within which the property can be redeemed and the amount required to redeem it. If notice is not served within thirty (30) days, it may be served as soon thereafter as practicable, but if the notice is not given six (6) months before the expiration of the period of redemption that period shall be extended until six (6) months after the service of the notice. Failure to give notice shall not defer the purchaser's right to possession as provided in subsection (1) of KRS 92.760. The notice may be executed by any police officer of the city or by any other person authorized by law to serve a notice. Any purchaser of property sold for taxes may cause the notice to be given with the same effect as if given by the treasurer. In either case the notice, with the officer's written return thereon showing the time and manner of service, shall be returned to the treasurer's office and recorded in a book provided for that purpose and preserved in that office. No deed shall be executed to a purchaser when notice has not been given as required].

(3) All money received by the treasurer for *the sale of tax claims* [property sold for taxes], including money collected for costs, shall be promptly accounted for and paid over by the treasurer in the same manner as taxes collected without sale.

(4) If there is more than one (1) willing purchaser at the sale, the one (1) having made the most recent purchase of a tax claim against the same delinquent or the same property shall have preference; if there is no such person the sale shall be made to the person being the first in the judgment of the treasurer, to offer to pay cash in the full amount of the tax claim. When a sale is made the tax bill shall be known as a certificate of delinquency and the treasurer shall inscribe thereon the date of sale, the sale price, and the name and address of the purchaser, in the place and manner prescribed by the city, and the purchaser shall be entitled to a certified copy of the certificate of delinquency.

(5) If no responsible bid in the amount of the tax claim is received, the treasurer shall purchase it for the city. In such case the tax bill shall also be known as a certificate of delinquency, and the treasurer shall inscribe thereon the same information required when one other than the city is the purchaser.

SECTION 4. A NEW SECTION OF KRS 92.670 TO 92.680 IS CREATED TO READ AS FOLLOWS:

(1) Certificates of delinquency shall bear interest from the date of issuance until collected at the rate of twelve percent (12%) per annum.

(2) Certificates of delinquency shall be prima facie evidence that:

(a) The property represented by the certificate was subject to taxes levied thereon, and was assessed as required by law.

(b) The tax bill was valid and correct in all respects.

(c) The taxes were not paid at any time before the issuance of the certificate.

SECTION 5. A NEW SECTION OF KRS 92.670 TO 92.680 IS CREATED TO READ AS FOLLOWS:

An uncollectible tax bill or a certificate of delinquency shall embrace the entire tax claim, including the lien provided in KRS 92.650 and shall continue to be a personal obligation of the delinquent taxpayer. Any property while owned by him shall be subject to foreclosure or execution in satisfaction of a judgment pursuant to an action in rem or an action in personam, or both, to enforce the obligation, brought in circuit court, but no action may be brought to enforce a certificate of delinquency until three (3) years after the issuance thereof, and the action must be instituted within five (5) years after the expiration of that three (3) year period. During the three (3) year period the statute of limitations shall be suspended in all respects and shall be continued in all respects for five (5) years thereafter. If the owner of a certificate of delinquency proceeds to enforce satisfaction of the certificate, he may include all other certificates held by him against the same delinquent taxpayer, but insofar as the proceedings may undertake to effect a lien foreclosure they shall be governed by the time applicable to the particular property subject to the lien, if that property is no longer owned by the delinquent.

SECTION 6. A NEW SECTION OF KRS 92.670 TO 92.680 IS CREATED TO READ AS FOLLOWS:

The delinquent taxpayer or any person owning or having a legal or equitable interest in real property covered by a certificate of delinquency may at any time pay the total amount of the certificate to any purchaser thereof, and any person whatsoever may likewise pay a certificate of delinquency when the city was the purchaser. When a certificate is paid to an owner other than the city the certified copy of the certificate shall be surrendered to the person making payment, and if he is the person primarily liable on the certificate he may, by exhibiting it to the treasurer have the certificate released of record. When a certificate of delinquency has been fully paid to the city, the treasurer shall note the name and address of the person making the payment, the amount paid by him, and such other information as the city may require. Payment in such instance by one (1) other than the person primarily liable on the certificate will amount to an assignment thereof. Anyone other than the person primarily liable who pays a certificate or purchases it from an owner other than the city may, by paying a fee of fifty cents (50¢), have the treasurer record the payment or purchase and such recordation shall constitute an assignment thereof. Failure to obtain such an assignment shall render the claim of such payor or purchaser to any real estate represented thereby inferior to rights of other bona fide purchasers, payors or creditors. Any owner of a certificate of delinquency once having paid the assignment fee may have a change of his address noted of record by the treasurer without paying an additional charge, otherwise he shall pay a fee of fifty cents (50¢) to the treasurer for entering such change on the certificate.

SECTION 7. A NEW SECTION OF KRS 92.670 TO 92.680 IS CREATED TO READ AS FOLLOWS:

(1) A private person or a city who is the owner of a certificate of delinquency may, after the expiration of the three (3) year period provided in Section 5 of this Act:

(a) Institute an action in circuit court against the delinquent taxpayer to collect the amount of the certificate, and any other such certificates subsequently issued to the same owner against the same delinquent, and shall have all the remedies available for the enforcement of a debt; or

(b) Institute an action in circuit court to enforce the lien provided in KRS 92.650, represented by the certificate that is more than three (3) years of age, and those certificates subsequently held by the same owner against the same delinquent or property; or

(c) Institute one (1) action including both types of actions mentioned in paragraphs (a) and (b) of this subsection, and such joinder of actions shall not be defeated in the event the delinquent taxpayer has disposed of any property covered by the lien, but the purchaser of the property shall be made a defendant if the judgment is to affect his interest in the property, and as between them the delinquent taxpayer shall be responsible.

(2) When property is sold pursuant to a judgment of foreclosure in an action under this section, notice of the sale shall be given as provided in KRS Chapter 424.

(3) Where property is sold pursuant to a judgment of foreclosure, it shall not be appraised as in other foreclosure proceedings and there shall be no right of redemption except as provided in subsection (4) of this section. If there is no purchaser at a foreclosure sale, the master commissioner shall make a deed to the person or persons shown by record to be the owner of the certificate or certificates of delinquency, and they shall have a pro rata interest therein in accordance with the amount of their respective certificates.

(4) No deed shall be executed and delivered to the purchaser at a foreclosure sale until thirty (30) days have expired. The property may be redeemed by any defendant to a foreclosure action under this section at any time before the deed is delivered to the purchaser, by paying to the plaintiff in the action the judgment amount plus subsequent costs and interest at the rate of eight percent (8%) per annum.

Section 8. KRS 92.760 is amended to read as follows:

(1) If any real property sold for taxes of a city of the second class is not redeemed within the prescribed time *as provided in subsection (4) of Section 7 of this Act*, a fee simple title thereto shall vest absolutely in the purchaser, whether the city or a private person, subject only to state and county taxes. The treasurer shall then convey the property by executing a deed to the purchaser, except that no conveyance shall be made to any purchaser other than the city until he has paid, with interest, penalties and costs, all taxes assessed against the property after the assessment of the tax for which it was sold. The purchaser shall then be entitled to possession, and the occupant of the property shall be deemed a tenant at will of the purchaser and subject to removal as such, and shall be liable to the purchaser for the reasonable rental of the property. The deed shall describe the property by lot and block number as shown on the city maps, if the property is so numbered, and may contain the description of the property contained in the title deeds therefor. The deed shall be attested by the city clerk under the seal of the city, and acknowledged by the treasurer as other deeds are acknowledged. The deed will pass all of the title, legal or equitable of the delinquent owner, free of all liens except for state and county taxes, and shall be prima facie evidence of the regularity of the sale and of all prior proceedings, and of title in the person to whom the deed is executed, but neither the city nor the treasurer shall be deemed a warrantor of the title. [In cases where the property of persons under disability is sold, no conveyance shall be executed to the purchaser until the time for redemption has expired, but the purchaser shall be entitled to possession at the end of two (2) years from the sale as in other cases. If the property is redeemed the purchaser shall not be entitled to interest during the time he was in possession of the property or receiving the income therefrom.] Any land sold and conveyed to the city for taxes may be held and used by the city for any proper municipal purpose or may be sold or rented out at such time and in such manner as the general council directs by ordinance, and the proceeds thereof covered into the city treasury.

(2) If any real property of a person not under disability is sold for taxes of a city of the third class and purchased by any person other than the city, and is not redeemed within the time allowed for redemption under subsection (2) of KRS 92.730, the purchaser shall be entitled to a deed for the property, and the collector who made the sale or his successor in office shall execute and acknowledge before the county clerk a deed of conveyance to the purchaser, embodying a copy of the certificate of sale in the deed. The deed will pass to the purchaser all the title, legal or equitable, of the original owner.

(3) If any real property sold for taxes of a city of the fourth class is not redeemed within the time allowed for that purpose, the fee simple title thereto shall vest absolutely in the purchaser, whether the city or a private person. The collector or treasurer shall then convey to the purchaser the property described in his certificate of purchase, by a deed made in the name of the city and of the owner. For executing the deed, the collector or treasurer shall have a fee of one dollar and fifty cents ($1.50), to be paid by the grantee named in the deed.

Section 9. KRS 92.770 is amended to read as follows:

(1) Taxes of a city of the second class that remain unpaid in whole or in part after they become due, with the interest and penalty thereon, shall be deemed a debt from the owner of the property on which the taxes were assessed to the city, arising as by contract. In addition to powers given to cities of the second class to collect taxes by sale of *tax claims as provided in Section 3 of this Act* [the delinquents' property,] such cities may enforce the collection of any taxes due them, and enforce their lien on the property of delinquents, by any remedy given by law for the recovery of debt, and may institute an action *in circuit court* for the collection of taxes at any time after the taxes become delinquent. In any such action the city may file a copy

of the tax bill, attested by the treasurer under the seal of the city, and the tax bill shall be prima facie evidence of the regularity of the assessment and levy and of every other fact necessary to entitle the city to judgment for the taxes, with interest, penalties and costs, and to have a sale of the property for payment of that amount, even though the defendant is a nonresident or person under disability.

(2) Before making any sale, the treasurer shall cause notice thereof to be published pursuant to KRS Chapter 424, showing the time, place and terms of the sale, the names of the delinquent taxpayers, the numbers of the tax bills, the total amount of taxes, interest, penalties and costs due on each bill, and a brief description of the property to be sold, by lot and block numbers as shown on the city maps or by other descriptions sufficiently accurate to identify each parcel. No deed shall be executed to a purchaser when notice has not been given as required. All money received by the treasurer for property sold for taxes, including money collected for costs, shall be promptly accounted for and paid over by the treasurer in the same manner as taxes collected without sale.

(3) When any property has been sold for taxes, the purchaser may at any time thereafter institute an action in equity against the owners of the property and recover judgment for the amount of the purchase money, with interest, penalty and costs, and have the property sold for the payment of that amount. The plaintiff in that action may file a copy of his certificate of purchase, attested by the treasurer under the seal of the city, and the certificate shall be prima facie evidence of the regularity of the assessment, levy and sale, and of every other fact necessary to entitle him to the relief sought, even though the defendant is a nonresident or person under disability.

(4) A fee simple title to property purchased at a foreclosure sale resulting from a judgment in any action under this section shall vest absolutely in the purchaser, subject however, to state and county taxes and all liens of record.

(5) [(6)] Each board shall conduct meetings open to the general public for the purpose of soliciting recommendations for capital projects within the county and shall cause notice of the date, place, time and purpose of such meetings to be published once each week for three (3) consecutive weeks in the newspaper of largest general circulation in the county. SECTION 3. A NEW SECTION OF KRS CHAPTER 42 IS CREATED TO READ AS FOLLOWS:

(1) The department for local government shall examine each capital project selected by boards under KRS 42.330, and when it finds that a proposed project conforms to the requirements of KRS 42.330 to 42.340; that the estimated costs of the project are reasonable; that the costs, or the part thereof proposed to be paid from the fund, are within the unencumbered balance available for expenditure within the applicable coal producing county; and, that the proposed beneficiary agency will be reasonably able to finance the operation of and maintain the capital project during its estimated useful life, the commissioner of the department for local government will transmit the project proposal of the secretary of the executive department for finance and administration with a recommendation for approval. If the department for local government determines that a capital project proposal does not conform to the requirements of KRS 42.330 to 42.340; or, that the estimated costs of the project are excessive or unreasonable in light of the public benefit to be derived from the project; or, the unencumbered balance in the fund available for expenditure in the coal producing county is insufficient to pay the costs, or the part thereof proposed to be paid out of the fund, of the project; or, that the proposed beneficiary agency will not be reasonable able to finance the operation and maintenance of the project; the project proposal shall be disapproved by the department for local government and returned to the board selecting the project, with detailed written reasons for disapproval. When a project has been returned to the board by the department for local government pursuant to this section, the board may, by a vote of an absolute majority of its members, submit the project for approval to the state advisory committee established under KRS 42.310. If approved by the sate advisory committee, it shall be transmitted to the secretary of the executive department for finance and administration with a recommendation for approval.

(2) When the secretary of the executive department for finance and administration has approved a capital project, the executive department for finance and administration shall cause detailed cost estimates, site surveys, appraisals, architectural designs, and plans and specifications to be prepared, award and enter into contracts, and do all other things necessary and proper for the construction or acquisition of the capital project; provided, however, that the department may, in its discretion, adopt and rely upon detailed cost estimates, site surveys, appraisals, architectural designs and plans and specifications for capital projects prepared for and submitted by the beneficiary agency of the proposed project.

(3) Except when a direct grant for a capital project is made to a beneficiary agency as authorized under subsection (4) of this section, the executive department for finance and administration shall award and administer, or shall delegate to beneficiary agencies, and control, the award and administration of all contracts for the construction or acquisition of all capital projects wholly financed out of the fund, in accordance with the provisions of KRS Chapters 45 and 56. All contracts awarded under this section for the construction, reconstruction or renovation of a building or other improvement to real estate shall be deemed to be contracts for public works within the meaning of KRS Chapters 317, 376 and other applicable laws.

(4) The secretary of the executive department for finance and administration shall make direct grants in aid of money out of the fund to any beneficiary agency for the construction or acquisition of any approved capital project, the estimated cost of which does not exceed the greater amount of fifty thousand dollars ($50,000), and the secretary may, after consultation with the commissioner of the department for local government, make grants in aid to beneficiary agencies in amounts greater than fifty thousand dollars ($50,000), provided, however, that no such grant may exceed one-third (1/3) of the total cost of the proposed capital project. When a direct grant in aid has been made to a beneficiary agency, all contracts awarded for the purchase of materials, supplies, equipment or services, except professional and technical services, required for the construction or acquisition of the project shall be awarded to the lowest and best bidder in the discretion of the beneficiary agency after public advertisement as required by KRS Chapter 424 or other applicable law. All beneficiary agencies receiving a direct grant in aid under this subsection shall keep and maintain complete and accurate records of accounts of all expenditures of the grant monies which shall be

subject to audit by the Commonwealth for a period of five (5) years after completion of the capital project. Any grant monies not required after all of the costs of the capital project have been paid by the beneficiary agency shall be promptly returned to the Commonwealth for reallocation for expenditure for other capital projects in the coal producing county to which such funds had been originally allocated.

(5) No capital project shall be constructed under KRS 42.330 to 42.340 except upon land to which (a) the Commonwealth, a political subdivision of the Commonwealth or the beneficiary agency of the capital project has a good and marketable title, free of encumbrances, or (b) the beneficiary agency or the project has the right to the uninterrupted and peaceful enjoyment, use, occupancy and possession for a period longer than the estimated useful life of the capital project; provided nothing herein shall prohibit the construction or renovation of public buildings on land with an existing encumbrance to secure payment of funds obtained for the acquisition or improvement of said land. Each beneficiary agency shall execute and deliver to the Commonwealth its written assurances, which shall be binding on such agencies' successors and assigns, guaranteeing that during its estimated useful life, the capital project shall be operated and maintained for public purposes and pledging that no mortgage or other encumbrances shall be placed against any capital project wholly financed out of the fund, except industrial development projects, for the breach of which assurances the Commonwealth shall have right of entry to the capital project and the beneficiary agency, or its successors and assigns, shall forthwith convey the title to the capital project to the Commonwealth. Similar assurances shall be executed and delivered to the Commonwealth by the beneficiary agencies of capital projects financed in part out of the fund and in part from other sources, except that when such additional funding is derived from the issuance and sale of revenue bonds or under other statutorily authorized financing methods, to secure the repayment of which funds a statutory mortgage lien is granted in favor of any person or group of persons, the capital project may be encumbered to the extent authorized or required by the law under which such financing method was undertaken; nor shall anything in this section prohibit the encumberance of any real property located within an industrial park or constituting an industrial site, developed or improved as a capital project under KRS 42.330 and this section, by any person, firm, company, partnership, or corporation to which such property has been conveyed to obtain financing for the construction upon such property of industrial and commercial buildings.

SECTION 4. A NEW SECTION OF KRS CHAPTER 42 IS CREATED TO READ AS FOLLOWS:

(1) Monies in the coal severance economic aid fund shall be apportioned for expenditure for capital projects in coal producing counties as follows:

(a) There shall first be allocated for expenditure within each coal producing county the total amount of severance tax revenue actually collected from mining operations within said county during the preceding fiscal year or the sum of ten thousand dollars ($10,000), whichever shall be less;

(b) Ninety percent (90%) of the balance, after deducting the total amount allotted in paragraph (a) of this section, shall be apportioned for expenditure within each county on the basis of the ratio of the severance tax collected in each county to the total amount of severance tax collected statewide;

(c) The balance of the fund, after allocations provided in paragraphs (a) and (b) of this subsection shall be apportioned for expenditure within each coal producing county in which the average per capita income is less than an amount equal to eighty-five percent (85%) of the state per capita income as of June 30, 1978, for allocations for fiscal year 1978-79, and as of June 30, 1979, for allocations for fiscal year 1979-80, and as of June 30 of each fiscal year thereafter, for the next succeeding fiscal year, according to the then current edition of "Kentucky Deskbook of Economic Statistics," Kentucky department of commerce as provided by the United States department of commerce, bureau of economic analysis, on the basis of the ratio of population in each such coal producing county to the total aggregate population of all coal producing counties.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 304.33-430 is amended to read as follows:

The order of distribution of claims from the insurer's estate shall be as stated in this section. The first $50.00 of the amount allowed on each claim in the classes under subsections (2) to *(5)* [(6)], inclusive, of this section, shall be deducted from the claim and included in the class under subsection *(7)* [(8)] of this section. Claims may not be cumulated by assignment to avoid application of the $50.00 deductible provision. Subject to the $50.00 deductible provision, every claim in each class shall be paid in full or adequate funds retained for the payment before the members of the next class receive any payment. No subclasses shall be established within any class.

(1) Administration costs. The costs and expenses of administration, including but not limited to the following: the actual and necessary costs of preserving or recovering the assets of the insurer; compensation for all services rendered in the liquidation; any necessary filing fees; the fees and mileage payable to witnesses; and reasonable attorney's fees.

(2) Wages. (a) Debts due to employes for services performed, not to exceed $1,000 to each employe which have been earned within one (1) year before the filing of the petition for liquidation. Officers shall not be entitled to the benefit of this priority.

(b) Such priority shall be in lieu of any other similar priority authorized by law as to wages or compensation of employes.

(3) Loss *and unearned premium* claims. *Claims by policyholders, beneficiaries, and insureds arising from and within the coverage of and not in excess of the applicable limits of insurance policies and insurance contracts issued by the company, and liability claims against insureds which claims are within the coverage of and not in excess of the applicable limits of insurance policies and insurance contracts issued by the company, and claims of the Kentucky Insurance Guaranty Association and any similar organization in another state* [All claims under policies for losses incurred including third-party claims, and all claims against the insurer for liability, for bodily injury, for injury to or destruction of tangible property which are not under policies, except the first $200 of losses otherwise payable to any claimant under this subsection. Claims, including those of any governmental body, for a penalty or forfeiture, shall be allowed in this class only to the extent of the pecuniary loss sustained from the act, transaction or proceeding out of which the penalty or forfeiture arose, with reasonable and actual costs occasioned thereby. The remainder of such claims shall be postponed to the class of claims under subsection *(7)* [(8)] of this section.

(5) [(6)] Judgments. Claims based solely on judgments. (7) [(8)] Miscellaneous subordinated claims. The remaining claims or portions of claims not already paid, with interest as in subsection *(6)* [(7)] of this section:

SCR 52, A CONCURRENT RESOLUTION requesting the United States Congress to enact legislation prohibiting the U.S. Army Corps of Engineers from applying the benefit/cost ratio to flood control projects in the Commonwealth of Kentucky.

WHEREAS, during the past 5 years there have been 85 floods in Kentucky causing actual damages amounting to $181,848,000 according to the U.S. Army Corps of Engineers; and

WHEREAS, it is estimated that the floods of April 4-7, 1977 caused property damages well over $100,000,000 to 15 southeastern Kentucky counties and took the lives of 10 persons; and

WHEREAS, it is estimated that the floods of April 4-7, 1977 injured 2,255 persons, caused property losses to 9,715 families, and destroyed or severely damaged 4,507 homes and businesses; and

WHEREAS, the large number of floods, the actual damages caused by the floods, and the sociological damages to persons requiring rehabilitation or relocation evidence the necessity for immediate design and construction of flood control measures to prevent or reduce future damages from floods in the Commonwealth; and

WHEREAS, the benefit/cost ratio can be arbitrarily applied so that costs exceed benefits and deny construction of flood control measures for counties of the Commonwealth subject to flooding;

NOW, THEREFORE,

Be it resolved by the Senate of the General Assembly of the Commonwealth of Kentucky, the House of Representatives concurring therein:

Section 1. That the United States Congress is hereby requested to enact legislation prohibiting the U.S. Army Corps of Engineers, when determining the necessity for flood control measures, from applying the benefit/cost ratio to flood control projects in the Commonwealth of Kentucky.

SB 284, AN ACT relating to judicial retirement and making an appropriation therefor.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 21.345 is amended to read as follows:

(1) For the purposes of KRS 21.350 to 21.510, "retirement" means a voluntary resignation or a failure of re-election, but does not include a removal for cause.

(2) The word "service" as used in KRS 21.370 to 21.480 means service *as a justice of the Supreme Court,* as a judge [or commissioner] of the Court of Appeals *created by Section 111 of the Constitution of Kentucky,* [or] as a regular circuit judge, or as a *regular judge of the district court* [director of the administrative office of the courts], including service in one (1) and then another of those capacities. *It also includes service as a judge or commissioner of the former Court of Appeals, or as director of the administrative office of the courts, prior to January 1, 1976, and service continuing beyond that date, in any capacity in or for the Court of Justice, by any person who held the office of commissioner of the former Court of Appeals, or director of the administrative office of the courts, on December 31, 1975. The word "service" embraces only service performed while a member of the retirement system established by KRS 21.350 to 21.510, except that, service in any of the positions hereinabove mentioned, before the judicial retirement system was made applicable to that category of position, shall be included.*

(3) For the purposes of KRS 21.345 to *21.510* [21.520], a "year" of service means a total of twelve (12) months of service, which need not be in the same calendar year. Service in any calendar month shall be deemed to constitute a month of service.

(4) The provisions of this section shall not apply to any director of the administrative office of the courts appointed after January 1, 1976, nor shall they apply to any commissioner of the Court of Appeals not appointed prior to January 1, 1976. The administrative director of the courts and commissioners of the Court of Appeals appointed prior to January 1, 1976, shall continue to be members of the system so long as they continue to render service in any capacity in or for the Court of Justice.

Section 2. KRS 21.350 is amended to read as follows:

(1) Except as provided in subsection (2) of this section, membership in the retirement system established by KRS 21.350 to 21.510 shall consist of, and be confined to, justices of the Supreme Court, judges of the Court of Appeals created by Section 111 of the Constitution of Kentucky, circuit judges, and judges of the district court, who have made an election to participate in accordance with KRS 21.360.

(2) Any person who was a member on December 31, 1975, by virtue of holding on that date the office of commissioner of the former Court of Appeals or director of the administrative office of the courts, shall continue in membership so long as he continues to render service in any capacity in or for the Court of Justice.

(3) The limitation of membership made by this section does not affect rights to benefits based on service rendered before the 1978 amendment to this section took effect. [There hereby is created a retirement system for judges and commissioners of the Court of Appeals. Each judge and commissioner in office on July 1, 1960, except as provided in KRS 21.500, and each judge and commissioner thereafter taking office, may acquire membership in the system in accordance with the provisions of KRS 21.360.]

Section 3. KRS 21.360 is amended to read as follows:

(1) Each judge *of the district court* [and commissioner] in office on July 1, *1978* [1960], may within thirty (30) days after that date, and any judge or *justice of any court entitled to be a member* [commissioner] thereafter taking office may within thirty (30) days after taking office, elect to make monthly contributions to the retirement system in an amount equal to *five percent (5%)* [three percent (3%)] of his monthly official salary. The election shall be effective to establish membership in the system as of July 1, *1978* [1960], or as of the date the judge or *justice* [commissioner] took office, as the case may be. The election shall be addressed to and filed with the secretary of the executive department for finance and administration, and shall constitute an authorization by the member, to the secretary, to thereafter cause to be deducted from the member's official salary, each month, an amount equal to *five percent (5%)* [three percent (3%)] of the monthly salary, as a voluntary contribution by the member towards the funding of the retirement system. Such election, upon being made, shall operate to create an inviolable contract between such member and the Commonwealth, guaranteeing to and vesting in the member the rights and benefits provided for under the terms and conditions of KRS 21.350 to 21.510.

(2) Membership, and benefit rights, for judges and justices (other than judges of the district court), and for the commissioners and administrative director, who took office prior to July 1, 1978, shall be dependent upon valid elections having been made under this section (and KRS 21.355 and 21.365) prior to the 1978 amendment to this section. The terms of such elections, including the contribution rate, shall continue to govern for the duration of the member's service.

Section 4. KRS 21.375 is amended to read as follows:

If at the time a person becomes a member of the judicial retirement system he has service credit in the Kentucky employes retirement system, county employes retirement system, state police retirement system, or teachers retirement system, [but not enough to have obtained vesting in the system in which he has that credit,] the period of service for which he earned that credit shall be counted toward the eight (8) years of service required for vesting in the judicial retirement system, but shall not be counted as service for the purpose of computation of benefits.

Section 5. KRS 21.400 is amended to read as follows:

(1) A member who retires on or after his normal retirement date shall receive a service retirement allowance, payable monthly during his lifetime, in an amount per month equal to *four and fifteen one hundredths percent (4.15%)* [five percent (5%)] of his final compensation multiplied by the number of years of his service, [including service before becoming a member of the system,] but in no event to exceed one hundred percent (100%) of final compensation, *except that for any service performed while a member prior to July 1, 1978, any service prior to July 1, 1962 creditable under KRS 21.345, and any service performed in continued membership (or allowable under KRS 21.410 or 21.420) after June 30, 1978, by a person who was a member on that date, the monthly percentage figure shall be five percent (5%), and except that allowances heretofore granted, and rights related thereto, shall not be affected by the 1978 amendment to this section.* For this purpose, "final compensation" means the average monthly compensation of the member for the sixty (60) months of service immediately preceding his retirement, including, in the case of a circuit judge, compensation received as special commissioner of the *former* Court of Appeals. *If, at the time of retirement or death of a member his total period of service in one or more positions covered by the system has not amounted to sixty (60) months, his "final compensation" shall be computed as if he had served in the first position he occupied under the system for such period of time as to bring his total service (in all positions) to sixty (60) months. If that category of position was not in existence for that period, it shall be treated as though it had been in existence for that period and as if the compensation paid for the presumed period of existence was at the rate provided for the category when it in fact first was created.*

(2) A member who retires before his normal retirement date shall be vested with the right to receive, when he reaches his normal retirement age, a service retirement allowance computed and payable in accordance with the provisions of subsection (1) of this section, on the basis of the number of years of his actual service.

(3) In lieu of the right provided for in subsection (2) of this section, a member who retires before his normal retirement age may elect, at any time before reaching his normal retirement age, to be paid commencing as of the time of the election a monthly service retirement allowance equal in amount to the monthly allowance that would have become payable under subsection (2) of this section when he reached his normal retirement age, reduced actuarially in accordance with his actual age at the time the election is made.

Section 6. KRS 21.415 is amended to read as follows:

Retirement benefits for a justice of the Supreme Court, judge of the Court of Appeals, [or] circuit judge, *or district judge* retired for disability under section 121 of the Constitution of Kentucky shall be in accordance with KRS 21.410. The judicial retirement board, in the case of such a retirement, shall exercise no function with respect to determining the existence or continuance of disability.

Section 7. The Kentucky employes retirement system shall transfer from its funds, to the judicial retirement system, as of July 1, 1978, an amount equal to the members' and employer's contributions made to the Kentucky employes retirement system for the period from January 1, 1978 to June 30, 1978, for judges of the district court, less such amount as is attributable to any judges of the district court who do not elect, by July 30, 1978, to participate in the judicial retirement system.

Section 8. Out of the amount appropriated to the judiciary for the fiscal years 1978-79 and 1979-80 there shall be allotted to the judicial retirement system, in addition to the allotments designated by the budget document, such sums as were intended for the employer's contribution to the Kentucky employes retirement system for judges of the district court. In the event any judges of the district court do not elect, by July 30, 1978, to participate in the judicial retirement system, the amount of employer's contribution attributable to them shall be deducted from the sums above referred to.

Section 9. For funding purposes, there is appropriated to the judicial retirement system, out of the general expenditure fund in the state treasury, for the fiscal years 1977-78, 1978-79 and 1979-80, the following respective amounts:

Section 10. KRS 21.355, Membership; and 21.365, Circuit judges and director of administrative office of the courts entitled to participate, are repealed.

Section 11. This Act shall become effective on July 1, 1978.

"*(3) When any judge of the district court in office on July 1, 1978 elects membership in the Judicial Retirement System in accordance with this section, his membership in the Kentucky Employes Retirement System will terminate as of July 1, 1978 and any credit in that system he earned for service as a judge of the district court shall be nullified; provided that the effect of such service to validate any other service credit in that system shall not be nullified.*"

The monies so pledged and thereafter received by the trust account shall be subject to the lien of such pledge without any further act, and the lien of such pledge shall be valid and binding against all parties in accordance with the terms of the trust agreement.

Section 21. SB 337, AN ACT relating to health care professional liability at the University of Louisville.

WHEREAS, there currently exists a crisis in the health sciences center of the University of Louisville in the area of the cost and availability of health care malpractice liability insurance; and

WHEREAS, this crisis has made it extremely difficult for said health sciences center to attract and retain qualified professional personnel to provide quality health care and to teach, train and educate students enrolled in its educational institution in the skills of rendering medical care; and

WHEREAS, by reason of the foregoing the ability of the aforesaid health sciences center to perform its public functions and to render the public service for which it was created in serious jeopardy; and

WHEREAS, the University of Louisville University Hospital is scheduled for completion in 1980 and an interim arrangement exists between the university and the Louisville and Jefferson County Board of Health to provide teaching hospital facilities at Louisville General Hospital including Louisville Memorial Hospital and affiliated clinics; and

WHEREAS, the General Assembly recognizes that the quality of education offered by the health sciences center of said university and the quality of the health care rendered to patients by said health sciences center and hospital staff members of the teaching hospital and its affiliated clinics of the University of Louisville are all matters that affect the health of the people of the state of Kentucky, and that the authorization of the creation of the basic coverage compensation fund by said university for its benefit with funds derived by it from sources other than general tax revenues of the state, and the creation of an excess coverage fund and the funding of the same by an appropriation by the General Assembly out of general surplus tax revenues to pay judgments hereunder upon exhaustion of the basic coverage compensation fund is for public purpose and within the province of the Commonwealth; and

WHEREAS, unless legislative action is taken to alleviate this crisis, the quality of education offered and furnished by the aforesaid health sciences center and the quality of health care furnished at the hospital that is staffed by the faculty of the health sciences center of the University of Louisville will be substantially reduced, all of which will have a materially adverse effect on the public health of the people of this state;

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 164.891 is amended to read as follows:

(1) "Basic coverage compensation fund" means the fund which may be established by the University of Louisville for the purpose of paying claims or judgments for personal injury or death to patients resulting from any tort or breach of duty based on health care services rendered or which should have been rendered by the university or its agents. This fund shall also include all *contributions,* annual contributions made to the fund by the university together with *such income as may be received from time to time from the investment of the funds in said fund by the secretary* [any loans that may be made to it out of the state treasury from time to time].

(2) "*Secretary* [Commissioner]" means the *secretary* [commissioner] of the executive department for finance and administration.

(3) "Agents" means members of the board of trustees of the university, *the board of directors of its hospital,* its faculty, hospital staff nurses, nurses aides, volunteer workers, employes and students, including residents and interns, and all other persons involved in furnishing health care within the scope of their duties or courses of study in connection with the University of Louiville. Employed physicians and dentists are agents of the university and within the scope of their duties when rendering professional services in emergencies and other special circumstances so long as such services do not constitute private practice *outside the university hospital upon patients not involved in teaching or research and* for which the physician or dentist derives income. [Physicians employed by the university and at the same time engaged in the private practice of medicine shall maintain at their own expense the security required by KRS 304.40-330 for the purpose of insuring themselves against any claim arising out of their private practice.]

(4) "University" means the University of Louisville.

(5) "Excess Coverage Fund" means the funds that may be made available through appropriations made by the general assembly to pay judgments hereunder upon exhaustion of the basic coverage compensation fund.

Section 2. KRS 164.892 is amended to read as follows:

(1) The board of trustees of the university may, at its election, establish a basic coverage compensation fund for the benefit and protection from liability of itself and its agents. Promptly after the board of trustees of said university has elected to establish a basic coverage compensation fund, the university shall pay to the state treasurer *the sum of three hundred fifty thousand dollars ($350,000) in the manner and within the time specified in subsection (3) of this section* [sums totalling three hundred fifty thousand dollars ($350,000)].

(2) Upon receipt of the initial payment of eighty-seven thousand five hundred dollars ($87,500), the state treasurer shall create a separate account to be designated as the "basic coverage compensation fund, University of Louisville" and there shall be credited to said fund the initial payment of eighty-seven thousand five hundred dollars ($87,500), all income thereafter earned from the investment of said fund *and* [,] all contributions thereafter made by the university *to said fund* [and all sums loaned to said fund from the state treasury pursuant to the provisions of KRS 164.890 to 164.895]. Unexpended and unencumbered balances in

any fund created hereunder shall be carried forward and be available for expenditure in succeeding fiscal years notwithstanding the provisions of KRS 45.230 or any other provision of the Kentucky Revised Statutes. No portion of said fund shall ever lapse to the general fund and income earned from the investment of funds standing to the credit of said account shall accrue and be credited thereto, notwithstanding the provisions of KRS 41.380 or any other provision of the Kentucky Revised Statutes. *Upon termination of said fund for any reason, the balance therein shall revert to the university.*

(3) The *university* [University of Louisville] shall make *an* [the] initial payment of eighty-seven thousand five hundred dollars ($87,500) upon action by its board of trustees as described in KRS 164.895. Annual payments of eighty-seven thousand five hundred dollars ($87,500) shall be made thereafter until the *university has paid a total of three hundred fifty thousand dollars ($350,000) into the "basic coverage compensation fund, University of Louisville"* [total "basic coverage compensation fund, University of Louisville" equals the sum of three hundred fifty thousand dollars ($350,000)], except that when the *universtiy commences the operation of a teaching hospital* [University of Louisville opens its teaching hospital], the difference between the total of all annual payments made into the basic coverage compensation fund and the sum of three hundred fifty thousand dollars ($350,000) shall become due and payable [if the University of Louisville is to have the full benefits of KRS 164.890 to 164.895].

(4) The funds held in any fund created under KRS 164.890 to 164.895 shall be expended solely in payment of claims *and judgments* for liability arising in favor of any patient from treatment performed or furnished, or treatment that should have been performed or furnished by the university or its agents. The liabilities which said fund shall be created to discharge are all liabilities from acts or omissions to act which may have occurred since July 1, 1976 and which may occur in the future and which no entity other than the university and its agents is or will be obligated either by law or contract to pay and discharge.

(5) No settlement shall be made of any claim for personal injury or death to any claimant arising out of the furnishing or failure to furnish medical care by the university and its agents, until and unless the board of trustees of the university, or its duly delegated agent or body has first approved of such settlement. The board of trustees of the university shall also have the right to determine whether or not an appeal shall be taken from any judgment rendered against it or its agents, when such claim is founded upon or arises out of the furnishing or failure to furnish medical care. Provided, however, that if the payment of a *judgment would involve expenditures from appropriations of general funds of the Commonwealth then such payment must also be approved by the secretary, or his delegate* [settlement or a judgment would involve a loan from the Commonwealth under the provisions of subsection (8) of this section or if at the time of any such proposed payment of any settlement or judgment there is in existence an outstanding loan from the Commonwealth, then any payment from said fund must also be approved by the commissioner, or his delegate].

(6) Funds held in *any* [an account] created hereunder may be disbursed by the *secretary* [commissioner] only upon the written certification of the university, or its duly designated agent, of the amount to be disbursed and the name of the person or persons to whom such funds shall be paid.

(7) *In addition to the payments to said fund required to be made in subsection (3) above,* annual contributions to said fund shall be made by the university in an amount which will be not less than one hundred fifty percent (150%) of the average amounts actually paid in each year on medical malpractice claims for the five (5) years next preceding the making of the annual contribution. Provided, however, that if the university and the *secretary* [commissioner] shall at any time in the future mutually determine, *based on sound actuarial principles,* that an annual contribution in a lesser amount will not impair the adequacy of the fund to satisfy existing and potential health care malpractice claims for a period of one (1) year, then an annual contribution in such lesser amount as may be determined may be made.

(8) The university shall be solely responsible for the investigation and servicing of all claims made against it arising out of medical malpractice and all costs, expenses, and fees incurred in the investigation, servicing and defense of all such claims shall be borne and paid by the university.

(9) Claims *and judgments* certified to be paid by the university shall be paid in the order received by the *secretary* [commissioner]. If *the basic coverage compensation fund* [any fund] created *by contribution from the university* [hereunder] shall [not] at any time *fail to* have sufficient funds to pay all such *judgments* [claims], *then they shall be paid out of the excess coverage fund upon certification by the secretary* [claims received after the funds are exhausted shall be paid out of the general fund of the Commonwealth upon certification of the obligation by the commissioner]. *Said excess coverage fund shall be expended only upon exhaustion of the basic coverage compensation fund and any liability insurance from any source whatsoever.* [Any such funds drawn from the general fund shall be repaid with interest at the legal rate by the university at the earliest practicable time as determined by the commissioner.]

Section 3. KRS 164.893 is amended to read as follows:

Any fund created hereunder may be terminated upon written application made to the *secretary* [commissioner] by the university and a finding by the *secretary* [commissioner] that other satisfactory and adequate arrangements have been made by the university to assure that both existing and future health care malpractice claims or judgments against it will be paid and satisfied. Upon the termination of any fund pursuant to this section, the full amount remaining in said fund upon termination less any outstanding indebtednesses shall promptly be repaid to the university.

SB 340, AN ACT relating to the area development fund and capital construction projects within area development districts.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 42 IS CREATED TO READ AS FOLLOWS:

As used in KRS 42.350 to 42.370 the words:

(1) "Beneficiary agency" means an agency eligible to receive the benefit of a capital project to be wholly or partly financed out of the area development fund, including and limited to political subdivisions, special districts and agencies created pursuant to the interlocal cooperation act, or any combination thereof; and, not-for-profit corporations organized for public purposes and performing governmental functions and services;

(2) "Fund" means the area development fund established in the state treasury by KRS 42.350.

The fund may receive state appropriations, gifts, grants and federal funds *and shall be disbursed by the state treasurer upon the warrant of the secretary of the executive department for finance and administration. Any unallotted or unencumbered balances in the fund shall be invested in United States government securities maturing not later than one (1) year from the date of investment and the income from such investments shall be prorated for expenditure for capital projects in area development districts according to the formula provided in Section 5 of this Act.*

(2) Money in the fund shall be used only for capital projects *which contribute to community or industrial development in the Commonwealth, KRS 45.050 notwithstanding* [consisting of general construction, renovation, maintenance, improvements, property acquisition, major items of equipment, and the costs relating to architectural design, construction and supervision of such capital projects, including, but not limited to, reclamation and industrial development projects and loans and grants in aid for capital purposes, KRS 45.040 notwithstanding, excluding, however, consumable and other usable supplies, and shall in no event be used directly or indirectly for the payment or reimbursement of any administrative, salary or other operating expense of any area development district, and appropriations having been made in other acts of the general assembly for road and school purposes in these districts, the fund shall not be used directly or indirectly for the acquisition, construction, reconstruction, renovation or maintenance of any school or school property or any road, street, highway or bridge]. *Capital projects eligible for financing out of the fund include and shall be limited to:*

(a) The construction, reconstruction, renovation and maintenance of buildings and other improvements to real estate;

(b) The acquisition of real property and interests in real property;

(c) The purchase of major items of equipment;

(d) Industrial site development projects, including land reclamation, clearing, grading, draining, landscaping, and the construction of walkways and fences;

(e) The extension and installation of water, gas, sewer, and electrical utilities lines to public facilities and industrial sites;

(f) The provision of solid waste management or disposal systems bringing counties into compliance with state or federal law. All expenses incurred in connection with or incidental to the construction or acquisition of a capital project under this section, including architectural, engineering, legal, and other expenses required for such projects may be paid out of the fund. Money in the fund may be used to retire a mortgage or other indebtedness encumbering an eligible capital project made on and after January 1, 1977 to secure the repayment of monies loaned or advanced to finance the construction or acquisition of such project, and may be used in match or in combination with funds obtained from other sources for an eligible capital project. No money shall be expended out of the fund, directly or indirectly, to pay or reimburse the cost of any feasibility study, master plan for any capital improvement development or redevelopment project, the purchase of consumable supplies; or any administrative, salary, or other operating or capital expense of any area development district, or for the acquisition, construction, reconstruction, renovation or maintenance of any building or property of schools, state institutions of higher learning, or any road, street, bridge or highway.

Upon the approval of any project submitted, the department shall prepare or cause to be prepared all plans, specifications and designs, shall advertise for any bids required by law and shall award any contracts incident thereto as provided by KRS Chapters 45 and 56]. *The area development districts shall submit to the secretary of the executive department for finance and administration through the department for local government the capital projects selected for construction or acquisition within the districts. Each project proposal shall include: a detailed description of the project; a statement of the public benefit to be derived from the project; if available, design plans and specifications for the project; an itemized estimate of the cost of the project; a statement of the sources and amounts of funds available from any other source for the construction or acquisition of the project; and such other information relating to the proposed capital project as the department for local government or the executive department for finance and administration may require.*

[(4) Upon the award of any contract to provide capital improvement and the acquisition or contract of purchase of any real property required by such project, a grant in aid of the projected total cost thereof shall be established to the credit of the appropriate political subdivision, agency or special district or combination thereof, including entities created by or parties to interlocal agreements, and title to any such real property and to the capital project shall be held by the Commonwealth until completion and final acceptance as certified by the commissioner of the executive department for finance and administration, at which time title thereto shall vest by conveyance or otherwise in the designated beneficiary of such grant in aid to be used for public purposes. Should the capital project cease at any time to be used for such public purposes, title shall revert to and vest in the Commonwealth of Kentucky. No encumbrance of any kind shall be placed upon the capital project or real property by the public agency and such restriction shall be recited in any deed or other conveyance made between the parties.

(5) Disbursements from the fund shall be made by the state treasurer upon the warrant of the commissioner of the executive department for finance and administration.]

SECTION 3. A NEW SECTION OF KRS CHAPTER 42 IS CREATED TO READ AS FOLLOWS:

(1) The department for local government shall examine each capital project selected by the area development districts, and when it finds that a proposed project conforms to the requirements of KRS 42.350 to 42.370; that the estimated costs of the project are reasonable; that the costs proposed to be paid from the fund are within the amount available, and that the proposed beneficiary agency will be reasonably able to finance the operation and maintain the capital project during its estimated useful life, the commissioner of the department for local government shall transmit the project proposal to the secretary of the executive department for finance and administration with a recommendation for approval. If the department for local government determines that a capital project proposal does not conform to the requirements of KRS 42.350 to 42.370, that the estimated costs of the project are excessive or unreasonable in light of the public benefit to be derived from the project; or, the unencumbered balance in the fund available for expenditure in the area development district is insufficient to pay the costs of the project, or the part thereof proposed to be paid out of the fund, or the beneficiary agency cannot reasonably finance the operation of or, maintain the capital project during its estimated useful life, the project proposal shall be disapproved by the department for local government.

(2) When the secretary of the executive department for finance and administration has approved a capital project, the executive department for finance and administration shall cause detailed cost estimates, site surveys, appraisals, architectural and engineering designs, and plans and specifications to be prepared, award and enter into contracts, and do all other things necessary and proper for the construction or acquisition of the capital project; provided, however, that the department may, in its discretion, adopt and rely upon detailed cost estimates, site surveys, appraisals, architectural designs and plans and specifications for capital projects prepared for and submitted by the beneficiary agency of the proposed project.

(3) Except when a direct grant for a capital project is made to a beneficiary agency as authorized under subsection (4) of this section, the executive department for finance and administration shall award and administer, or shall delegate to beneficiary agencies, and control, the award and administration of all contracts for the construction or acquisition of all capital projects wholly financed out of the fund, in accordance with the provisions of KRS Chapters 45 and 56. All contracts awarded under this section for the construction, reconstruction or renovation of a building or other improvement to real estate shall be deemed to be contracts for public works within the meaning of KRS Chapters 341, 376 and other applicable laws.

(4) The secretary of the executive department for finance and administration, after consultation with the commissioner of the department for local government, may make direct grants in aid of money out of the fund to any beneficiary agency for the construction or acquisition of any approved capital project, the estimated cost of which does not exceed the greater amount of fifty thousand dollars ($50,000), or one-third (1/3) of the

total estimated cost of the project. When a direct grant in aid has been made to a beneficiary agency, all contracts awarded for the purchase of materials, supplies, equipment or services, except professional and technical services, required for the construction or acquisition of the project shall be awarded to the lowest and best bidder in the discretion of the beneficiary agency after public advertisement as required by KRS Chapter 424 or other applicable law. All beneficiary agencies receiving a direct grant in aid under this subsection shall keep and maintain complete and accurate records of accounts of all expenditures of the grant monies which shall be subject to audit by the Commonwealth for a period of five (5) years after completion of the capital project. Any grant monies not required after all of the costs of the capital project have been paid by the beneficiary agency shall be promptly returned to the Commonwealth for reallocation for expenditure for other capital projects in the area development district to which such funds had been originally allocated.

(5) No capital project shall be constructed under KRS 42.350 to 42.370 except upon land to which (a) the Commonwealth, a political subdivision of the Commonwealth or the beneficiary agency of the capital project has a good and marketable title, free of encumbrances, or (b) the beneficiary agency of the project has the right to the uninterrupted use, occupancy and possession for a period longer than the estimated useful life of the capital project; provided nothing herein shall prohibit the construction or renovation of public buildings on land with an existing encumbrance to secure payment of funds obtained for the acquisition or improvement of said land. Each beneficiary agency shall execute and deliver to the Commonwealth its written assurances, which shall be binding on such agencies' successors and assigns, guaranteeing that during its estimated useful life, the capital project shall be operated and maintained for public purposes and pledging that no mortgage or other encumbrances shall be placed against any capital project wholly financed out of the fund, except industrial development projects, for the breach of which assurances the Commonwealth shall have right of entry to the capital project and the beneficiary agency, or its successors and assigns, shall forthwith convey the title to the capital project to the Commonwealth. Similar assurances shall be executed and delivered to the Commonwealth by the beneficiary agencies of capital projects financed in part out of the fund and in part from other sources, except that when such additional funding is derived from the issuance and sale of revenue bonds or under other statutorily authorized financing methods, to secure the repayment of which funds a statutory mortgage lien is granted in favor of any person or group of persons, the capital project may be encumbered to the extent authorized or required by the law under which such financing method was undertaken; nor shall anything in this section prohibit the encumbrance of any real property located within an industrial park or constituting an industrial site, developed or improved as a capital project under KRS 42.350 and this section, by any person, firm, company, partnership, or corporation to which such property has been conveyed, to obtain financing for the construction upon such property of industrial and commercial buildings. The written assurances provided by beneficiary agencies under this section shall be lodged for recording and recorded in the office of the county clerk of the county in which the proposed project shall be located.

Section 4. KRS 42.360 is amended to read as follows:

The *secretary* [commissioner] of the executive department for finance and administration shall promulgate such rules and regulations governing submission and approval of proposed capital projects, the expenditure of moneys from the fund, *the designation of beneficiary agencies* and the title to capital *projects* [improvements] and real property *involved in capital projects* as shall be appropriate to the implementation of KRS 42.350 *and Section 3 of this Act.*

SECTION 5. A NEW SECTION OF KRS CHAPTER 42 IS CREATED TO READ AS FOLLOWS:

(1) The maximum amount to be expended out of the area development fund for capital projects within each area development district shall be calculated on the basis of the following formula:

(a) Sixty percent (60%) of the fund is allocated for expenditure within each district in the ratio that the population of the component counties bears to the total population of the state.

(b) Twenty percent (20%) of the fund is allocated for expenditure in each district in inverse proportion to the total manufacturing employment conducted in each such district.

(c) Twenty percent (20%) of the fund is allocated for expenditure in each district in inverse proportion to the relative per capita income prevailing in each such district.

(2) Any balance remaining in the fund at the close of any fiscal year shall not lapse, but shall continue into and be available for expenditure during the next succeeding fiscal year.

SECTION 6. A NEW SECTION OF KRS CHAPTER 45 IS CREATED TO READ AS FOLLOWS:

(1) The provisions of any other law notwithstanding, the governor shall include in the biennial budget report and in the draft appropriation act or acts submitted to each regular session of the general assembly pursuant to KRS 45.030 and 45.040, for the biennium period beginning July 1, 1980, and for each biennium thereafter, recommendations for appropriations from the general fund to be made by the general assembly to the area development fund established by KRS Chapter 42.

(2) The amount to be recommended for the appropriation to the area development fund shall be four and four-tenths percent (4.4%) of the severance tax estimate for each fiscal year of the biennium.

SB 288, AN ACT relating to proceedings for incompetency, commitment, care of children and hospitalization of the mentally ill or retarded.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 202A.070 is amended to read as follows:

(1) Proceedings for involuntary hospitalization of an individual for sixty (60) consecutive days may be initiated by filing a petition as described in this chapter in the appropriate circuit court.

(2) Upon receipt of the petition the court shall give notice to the respondent, to his legal guardian, if any, and to his spouse, parent, or nearest known relative or friend concerning the allegations and contents of the petition and proposed hearing *except that when no circuit judge is available in the county, the district judge may do all things necessary to accomplish the purposes of KRS Chapters 202A, 202B, 203 and 210.*

(3) As soon as practicable, after notice of the commencement of the proceedings is given to the respondent, the court shall appoint two (2) physicians to examine the respondent and certify to the court their findings as to whether the respondent is a mentally ill person who presents an immediate danger or an immediate threat of danger to self or others as a result of mental illness and who can reasonably benefit from treatment. Each physician shall also certify as to whether in his opinion hospitalization is the least restrictive alternative mode of treatment presently available. The examination shall be held at a hospital or other medical facility or any other suitable place not likely to have a harmful effect on the patient's health.

(4) The court may, after reviewing the allegations contained in the petition, issue a warrant for the arrest of the person named in the petition. Such person if arrested on such warrant shall be conveyed immediately to any hospital, medical facility or institution approved by the secretary and shall be there examined by two (2) physicians. The physicians shall certify to the court their findings as to whether the respondent is a mentally ill person who presents an immediate danger or an immediate threat of danger to self

or others as a result of mental illness and who can reasonably benefit from treatment. Each physician shall also certify as to whether in his opinion hospitalization is the least restrictive alternative mode of treatment presently available.

(5) If after their examination the physicians certify that the respondent is a mentally ill person who presents an immediate danger or an immediate threat of danger to self or others as a result of mental illness and that he can reasonably benefit from treatment and that hospitalization is the least restrictive alternative mode of treatment presently available, then such person may be retained in the hospital pending a hearing and order of the appropriate court, or may be transported to an appropriate hospital for retention. In no case shall the patient be retained in a hospital longer than twenty-one (21) days from the date of the examination without a hearing and order of the appropriate court.

(6) If the criteria for involuntary hospitalization as set forth in subsections (3) and (4) of this section are not certified, the court may, without taking any further action, terminate the proceedings and dismiss the application. Otherwise, the court shall forthwith fix a date and notice of a hearing and render an order within twenty-one (21) days from the date of the examination of the respondent.

(7) The respondent shall be represented at such hearing by an attorney either retained by the respondent or provided by the Commonwealth. The respondent shall be afforded an opportunity to testify, to present, and cross-examine witnesses against him. The court may in its discretion receive the testimony of any other person. The hearing may be conducted in an informal manner, consistent with orderly procedures, and in a physical setting not likely to have a harmful effect on the mental health of the respondent. The hearing may be held by the court in chambers, at a hospital, or other suitable place.

(8) Respondent's presence at the hearing may be waived by the respondent or respondent may be excused from the hearing upon a finding that respondent's presence would seriously disrupt the proceedings or that the respondent's presence at the hearing would be harmful to respondent.

(9) If upon completion of the hearing the court finds that the respondent is (a) a mentally ill person, (b) because of this illness presents an immediate danger or an immediate threat of danger to self or others, (c) that the least restrictive alternative mode of treatment requires hospitalization, and (d) that treatment which can reasonably benefit the respondent is available in the hospital, then the court shall order the individual hospitalized in a hospital selected by the department for a period not to exceed sixty (60) consecutive days.

(10) The hospitalization under this section shall be for a period of time not to exceed sixty (60) consecutive days from the date of the court order. Release shall be by writ of habeas corpus pursuant to the provisions of this section except that a staff physician may release the patient subject to the provisions of this chapter.

(11) When a formal application has been made for a further involuntary hospitalization under the provisions of this chapter, the patient shall not be retained in the hospital longer than ten (10) days from the date of application without a hearing and order of the appropriate court pursuant to the applicable provisions of this chapter, unless the patient agrees to remain voluntarily.

(12) Whereas an emergency now exists, this bill shall become effective upon the signature of the Governor.

(2) "Use allowance" means compensation equal to four percentum (4%) annually of the total original capital costs and the cost of capitalized renovation of the court facility.

(3) "Capital costs" means the costs borne by the unit of government, excluding grants, for acquisition of property and for construction and capitalized renovation including interest accruing during construction or renovation, but no other interest of each court facility. The city shall be responsible for providing space for the operations listed in subsection (2) of this section.

(4) *If all necessary facilities for the holding of circuit or district court, for the clerk's operations, or for the operation of the court or its ancillary functions, are not available in county or city facilities,* every agency of state government, special district, and independent agency of local government, other than a city, may, upon the request of the administrative office of the courts, provide such space as necessary in facilities owned, leased, or controlled by such organization for the operations of circuit or district court, or both. The agency may provide space for the operations listed in subsection (2) of this section.

(5) If *all necessary* [suitable] facilities for the holding of circuit or district court, for the clerk's operations, or for the operation of the court or its ancillary functions, are not available in public facilities, private facilities may be rented, leased, purchased, or otherwise acquired, by the *executive department for finance and administration* [administrative office of the courts] pursuant to permission granted by the Chief Justice for such acquisition and in compliance with the provisions of KRS Chapters 45 and 46.

Compensation shall be calculated on an annualized basis, may be in the form of rental per square footage, and shall be paid quarterly. Should the availability of space provided to the court of justice be limited by the governmental unit to a part-time basis, the compensation shall be apportioned according to the number of days or partial days per week in which it is made available, one (1) day or partial day per week being considered as one-fifth (1/5) of the time.

SB 263, AN ACT relating to zoning.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 100.211 is amended to read as follows:

(1) A proposal for amendment to any zoning regulation may originate with the planning commission of the unit, with any fiscal court or legislative body which is a member of the unit, or with the owner of the property in question. Regardless of the origin of the proposed amendment, it shall be referred to the planning commission before adoption. The planning commission shall then hold at least one (1) public hearing after notice as required by KRS chapter 424 and make recommendations to the various legislative bodies or fiscal courts involved, and it shall take a majority of the entire legislative body or fiscal court to override the recommendation of the planning commission.

(2) All procedures for public notice and publication as well as for adoption shall be the same as for the original enactment of a zoning regulation, *except that, in counties containing a city of the first class, any notice by newspaper shall be published thirty (30) days prior to the public hearing, and shall include the street address of the property in question, or if one is not available, a geographic description sufficient to locate and identify the property, and the names of the two (2) streets on either side of the property which intersect the street on which the property is located. If the property is located at the intersection of two (2) streets, the notice shall designate the intersection by name of both streets rather than name the two (2) streets on either side of the property.*

SECTION 2. A NEW SECTION OF KRS CHAPTER 100 IS CREATED TO READ AS FOLLOWS:

When in any planning unit containing any portion of a county containing a city of the first class a hearing is scheduled on a proposal to amend any zoning map plat, plan, text or regulation, the following notice shall be given in addition to any other notice required by statute by local regulation or ordinance to be given:

(1) Notice of the hearing shall be posted conspicuously on the property the classification of which is proposed to be changed for thirty (30) consecutive days immediately prior to the hearing. Posting shall be as follows:

(a) The sign shall state "zoning change" and the proposed classification change in letters three (3) inches in height. The time, place and date of hearing shall be in letters at least one (1) inch in height.

(b) The sign shall be constructed of durable material and shall state the telephone number of the appropriate zoning commission.

(2) Notice of the hearing shall be given at least thirty (30) days in advance of the hearing by registered mail or by certified mail, return receipt requested to the owners of all property adjoining at any point the property the classification of which is proposed to be changed, to all owners of property directly across the street from said property, and to all owners of property which adjoins at any point the adjoining property or the property directly across the street. It shall be the duty of the person or persons proposing the amendment to furnish to the planning commission the names and addresses of the owners of all property as described in this subsection. In the event such property is in condominium or cooperative forms of ownership, then the person notified by mail shall be the president or chairman of the owner group which administers property commonly owned by the condominium or cooperative owners.

(3) If the hearing has been scheduled for a time during normal working hours, and if, within fifteen (15) days of the scheduled date of the hearing the planning commission shall receive a petition from two hundred (200) property owners living within the planning unit requesting that the hearing be rescheduled for a time after normal working hours, then the planning commission shall reschedule the hearing for a time after normal working hours on a date no earlier than the date of the original hearing. The planning commission shall then publish notice of the new hearing time and date according to the provisions of KRS 100.211, except that notice shall occur at least seven (7) days prior to the public hearing. The sign required by subsection (1) of this section shall be changed to reflect the new hearing time and date at least seven (7) days prior to the public hearing. The persons who receive mail notice according to the provisions of subsection (2) of this section shall again be notified by certified or registered mail, return receipt requested, of the new hearing time and date at least seven (7) days prior to the hearing. The hearing time shall not be changed more than once by the procedures of this section except in the event of intervening emergency which requires the cancellation of a hearing.

(4) Notice by mail shall include a list of the names and addresses of each person so notified, and a description of the procedure by which those notified can petition for a change in the hearing time.

Section 3. KRS 100.253 is amended to read as follows:

(1) The lawful use of a building or premises, existing at the time of the adoption of any zoning regulations affecting it may be continued, although such use does not conform to the provisions of such regulations, except as otherwise provided herein.

(2) The board of adjustments shall not allow the enlargement or extension of a nonconforming use beyond the scope and area of its operation at the time the regulation which makes its use nonconforming was adopted, [.] nor shall the board permit a change from one (1) nonconforming use to another unless the new nonconforming use is in the same or a more restrictive classification, *provided, however, the board of adjustments may grant approval, effective to maintain nonconforming-use status, for enlargements or extensions, made or to be made, of the facilities of a nonconforming use, where the use consists of the presenting of a major public attraction or attractions, such as a sports event or events, which has been presented at the same site over such period of years and has such attributes and public acceptance as to have attained international prestige and to have achieved the status of a public tradition, contributing substantially to the economy of the community and state, of which prestige and status the site is an essential element, and where the enlargement or extension was or is designed to maintain the prestige and status by meeting the increasing demands of participants and patrons.*

The Committee on Labor and Industry reported **HR 128** with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

SB 119, AN ACT relating to product liability.

WHEREAS, in recent years there has been an increasing public awareness of a need for safer products for the consumer with a resulting increase in the size and number of product liability claims, and

WHEREAS, this dramatic increase of product liability claims is causing an increase in the cost to the consumer of purchasing products, and an increase in the cost of manufacturing, wholesaling, retailing, and insuring said products, and

WHEREAS, a portion of said increased costs is caused by the absence of clear legal precedents and guidelines which govern the rights and liabilities of consumers, manufacturers, wholesalers, retailers, and insurers in the litigation of product liability claims, and

WHEREAS, it is in the interest of the public, consumers, manufacturers, wholesalers, retailers, and insurers, for the General Assembly to codify certain existing legal precedents and to establish certain guidelines which shall govern the rights of all participants in product liability litigation;

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 411 IS CREATED TO READ AS FOLLOWS:
This Act shall be known as the "Product Liability Act of Kentucky."

(2) As used in this Act, a "plaintiff" shall mean a person asserting a claim and, if said claim is asserted on behalf of an estate, "plaintiff" shall include plaintiff's decedent.

SECTION 3. A NEW SECTION OF KRS CHAPTER 411 IS CREATED TO READ AS FOLLOWS:

(2) In any product liability action, it shall be presumed, until rebutted by a preponderance of the evidence to the contrary, that the product was not defective if the design, methods of manufacture, and testing conformed to the generally recognized and prevailing standards or the state of the art in existence at the time the design was prepared, and the product was manufactured.

SECTION 4. A NEW SECTION OF KRS CHAPTER 411 IS CREATED TO READ AS FOLLOWS:

(1) In any product liability action, a manufacturer shall be liable only for the personal injury, death or property damage that would have occurred if the product had been used in its original, unaltered and unmodified condition. This section shall apply to alterations or modifications made by any person or entity, except those made in accordance with specifications or instructions furnished by the manufacturer.

(3) In any product liability action, if the plaintiff failed to exercise ordinary care in the circumstances in his use of the product, and such failure was a substantial cause of the occurrence that caused injury or damage to the plaintiff, the defendant shall not be liable whether or not said defendant was at fault or the product was defective.

SECTION 5. A NEW SECTION OF KRS CHAPTER 411 IS CREATED TO READ AS FOLLOWS:

In any product liability action, evidence of any alteration, modification, improvement, repair or change in or discontinuance of the manufacture, construction, design, formula, development of standards, preparation, processing, assembly, testing, listing, certifying, warning, instruction, marketing, advertising, packaging, or labeling of a product, whether made by the defendant or any other person or entity after the date of manufacture, shall be admissible in evidence only after the same has been offered to the court in a hearing out of the presence of the jury and the court has ruled that the evidence is relevant and material.

SECTION 6. A NEW SECTION OF KRS CHAPTER 411 IS CREATED TO READ AS FOLLOWS:

In any product liability action, if the manufacturer is identified and subject to the jurisdiction of the court, a wholesaler, distributor, or retailer who distributes or sells a product, upon his showing by a preponderance of the evidence that said product was sold by him in its original manufactured condition or package, or in the same condition such product was in when received by said wholesaler, distributor or retailer, shall not be liable to the plaintiff for damages arising solely from the distribution or sale of such product, unless such wholesaler, distributor or retailer, breached an express warranty or knew or should have known at the time of distribution or sale of such product that the product was in a defective condition, unreasonably dangerous to the user or consumer.

(f) A statement that the real estate is security for the appearance of the defendant in accordance with the conditions of release imposed by the court.

(4) The sworn schedule shall constitute a material part of the bail bond. An affiant shall be subject to penalty of perjury if in the sworn schedule he makes a false statement which he does not believe to be true.

(5) A certified copy of the bail bond and schedule of real estate accompanied by the necessary recording fee which shall be paid by the affiant or affiants shall be filed immediately by the clerk of the court requiring the bail bond in the office of the county court clerk of the county in which the real estate is situated. (1) Effective, with respect to the offices of governor on December 4, 1979, and the lieutenant governor

on the fifth Tuesday following the regular November election in 1975 and with respect to the other offices named in this section, on the first Monday in January, 1976, the compensation of the following named officers, payable monthly out of the state treasury, shall be the sum per annum designated for the respective offices, as follows: governor $39,500; lieutenant governor, an amount sufficient, when added to any per diem received during sessions of the general assembly while serving in the capacity of president of the senate, to equal $27,900 per annum, plus any compensation received while acting in the place of the governor; attorney general, superintendent of public instruction, commissioner of agriculture, secretary of state, state treasurer, auditor of public accounts, and clerk of the Supreme Court of Kentucky elected in November, 1975, as clerk of the Court of Appeals $27,900.

(2) In order to equate or adjust the compensation of the lieutenant governor, attorney general, superintendent of public instruction, commissioner of agriculture, secretary of state, state treasurer, auditor of public accounts, and clerk of the Supreme Court of Kentucky with the purchasing power of the 1949 dollar, the *executive* department *for finance and administration* [of commerce] of Kentucky shall compute by the second Friday in February of every year, beginning in 1977, the maximum permissible compensation of the officials mentioned in subsection (2) hereof based precisely uypon the consumer price index formula approved in Matthews v. Allen, Kentucky, 360 S.W. 2d 135 (1962). Thus the maximum permissible compensation effective for the entire year of 1977 and subsequent years will be the actual compensaiton to be paid said officials. (3) It is the intention of the legislature that the constitutionally permissible adjustment of salaries of these officials be framed around equating current salaries with the purchasing power of the dollar in 1949 when section 246 of the Kentucky Constitution was amended. Section 246 of the Constitution, as amended, established a monetary level of $12,000 per annum for said officials. The formula merely effects an adjustment of the constitutional monetary level in terms of the current consumer price index.

The transferee shall become the holder of the certificate and shall have all rights pertaining thereto, effective as of the date of transfer of the facility or the date of transfer of the certificate, whichever is earlier. The transferee shall give written notice of the effective date of the transfer, together with a copy of the instrument of transfer to the department and to the department of revenue.

Every such filing shall state the proposed effective date thereof, and shall indicate the character and extent of the coverage contemplated.

(2) When a filing is not accompanied by the information upon which the insurer supports such filing, and the *board* [commissioner] does not have sufficient information to determine whether such filing meets the requirements of this subtitle *it* [he] shall require the insurer to furnish the information upon which it supports the filing and in such event the waiting period shall commence as of the date such information is furnished. The information furnished in support of a filing may include:

(a) The experience or judgment of the insurer or rating organization making the filing,

(b) Its interpretation of any statistical data it relies upon,

(c) The experience of other insurers or rating organizations, or

(d) Any other relevant factors.

(3) A filing and any supporting information shall be open to public inspection after the filing becomes effective, except as provided in subsection (4) of KRS 304.13-050. Specific inland marine rates on risks specifically rated, made by a rating organization, shall be filed with the *board* [commissioner], and shall become effective when filed and shall be deemed approved and in compliance with the requirements of this subtitle until such time as the *board* [commissioner] rejects the filing.

Section 131. KRS 304.13-050 is amended to read as follows:

(1) The *board* [commissioner] shall review filings as soon as reasonably possible after they have been made in order to determine whether they meet the applicable requirements of this subtitle.

(2) Subject to the exception specified in subsection (3) of KRS 304.13-040 with reference to specific inland marine rates made by a rating organization, and subsections (3) and (4) of this section, each filing shall be on file for a waiting period of thirty (30) days before it becomes effective, which period may be extended by the *board* [commissioner] for an additional period not to exceed thirty (30) days if *it* [he] gives written notice within such waiting period to the insurer or rating organization which made the filing that *it* [he] needs such

additional time for the consideration of such filing. Upon written application by such insurer or rating organization, the *board* [commissioner] may authorize a filing which *it* [he] has reviewed to become effective before the expiration of the waiting period or any extension thereof. A filing shall be deemed to meet the requirements of this subtitle unless disapproved by the *board* [commissioner] within the waiting period or any extension thereof.

(3) Any special filing with respect to a surety or guaranty bond required by law or by court or executive order or by order, rule or regulation of a public body, not covered by a previous filing, shall become effective when filed and shall be deemed to meet the requirements of this subtitle until such time as the *board* [commissioner] rejects the filing.

(4) The *board* [commissioner] may, when *it* [he] deems it to be in the public interest, hold a public hearing on any filing before said filing becomes effective to determine whether or not the filing meets the requirements of this subtitle. When the *board* [commissioner] has determined that a hearing shall be held relative to any filing, the filing and any supporting information filed therewith shall be open to public inspection immediately upon the giving of notice as required by this subsection. Before such hearing the rating organization or insurer making such filing shall be given ten (10) days' written notice of the time and place of such hearing, and the public shall be given notice by publication pursuant to KRS chapter 424. The *board* [commissioner] shall promulgate reasonable regulations to prevent the avoidance of normal expirations and renewal dates of policies, or contracts of insurance, that may be affected by such filings. In the event that a hearing is held under the provisions of this subsection the waiting periods specified in subsection (2) of this section shall not begin to run until thirty (30) days after the close of such hearing.

(5) In the review of any filing made pursuant to KRS 304.13-040 either prior to its becoming effective, or upon a subsequent review as provided for in KRS 304.13-080, the burden of establishing that the filing under consideration meets the requirements of this subtitle shall be on the insurer or rating organization which makes such filing.

Section 132. KRS 304.13-060 is amended to read as follows:

Under rules and regulations as *it* [he] adopts the *board* [commissioner] may, by written order, suspend or modify the requirement of filing as to any kind of insurance, subdivision or combination thereof, or as to classes of risks, the rates for which cannot practicably be filed before they are used. Such orders, rules and regulations shall be made known to insurers and rating organizations affected thereby. The *board* [commissioner] may make such examination as *it* [he] deems advisable to ascertain whether any rates affected by such order meet the standards that rates shall not be excessive, inadequate or unfairly discriminatory.

Section 133. KRS 304.13-070 is amended to read as follows:

(1) If within the waiting period or any extension thereof as provided in KRS 304.13-050, the *board* [commissioner] finds that a filing does not meet the requirements of this subtitle, *it* [he] shall give written notice of disapproval of such filing to the insurer or rating organization which made such filing specifying therein in what respects *it* [he] finds such filing fails to meet the requirements of this subtitle and stating that such filing shall not become effective.

(2) If within thirty (30) days after a specific inland marine rate on a risk specially rated by a rating organization or a special surety or guaranty bond required by law has become effective, the *board* [commissioner] finds that such filing does not meet the requirements of this subtitle, *it* [he] shall give written notice of disapproval of the filing to the rating organization or insurer which made the filing specifying therein in what respects *it* [he] finds that the filing fails to meet the requirements of this subtitle and stating when, within a reasonable period thereafter, the filing shall be deemed no longer effective. Such disapproval shall not affect any contract made or issued prior to the expiration of the period set forth in such notice.

Section 134. KRS 304.13-080 is amended to read as follows:

If at any time subsequent to the applicable review period provided for in subsections (1) and (2) of KRS 304.13-070 the *board* [commissioner] finds that a filing does not meet the requirements of this subtitle, *it* [he] shall, after a hearing held upon not less than ten (10) days' written notice, specifying the matters to be considered at the hearing, to every insurer and rating organization which made the filing, issue an order specifying in what respects *it* [he] finds that the filing fails to meet the requirements of this subtitle, and stating when, within a reasonable period thereafter, the filing shall be deemed no longer effective. Copies of the order shall be sent to every such insurer and rating organization. The order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in the order.

Section 135. KRS 304.13-100 is amended to read as follows:

Upon the written application of the insured, stating his reasons therefor, filed with and approved by the *board* [commissioner], a rate in excess of that provided by a filing otherwise applicable may be used on any specific risk.

Section 136. KRS 304.13-110 is amended to read as follows:

Any insurer may satisfy its obligation to make filings required by KRS 304.13-030 by becoming a member of, or a subscriber to, a licensed rating organization which makes such filings, and by authorizing the *board* [commissioner] to accept such filings on its behalf. Nothing contained in this subtitle shall be construed as requiring any insurer to become a member of or a subscriber to any rating organization.

Section 137. KRS 304.13-200 is amended to read as follows:

(1) Every member of or subscriber to a rating organization shall adhere to the filings made on its behalf by such organization except that any such insurer may make written application to the *board* [commissioner] for permission to file a deviation from the class rates, schedules, rating plans or rules respecting any kind of insurance, or class of risk within a kind of insurance, or combination thereof. Such application shall specify the basis for the modification and a copy thereof shall also be sent simultaneously to such rating organization.

(2) The *board* [commissioner] shall set a time and place for a hearing at which the insurer and such rating organization may be heard and shall give them not less than ten (10) days' written notice thereof. If the *board* [commissioner] is advised by the rating organization that it does not desire a hearing *it* [he] may, upon the consent of the applicant, waive such hearing.

(3) In considering the application for permission to file such deviation the *board* [commissioner] shall give consideration to the available statistics and the principles for rate making as provided in KRS 304.13-030. The *board* [commissioner] shall issue an order permitting the deviation for such insurer to be filed if *it* [he] finds it to be justified and it shall thereupon become effective. *It* [He] shall issue an order denying such application if *it* [he] finds that the modification is not justified or that the resulting premiums would be excessive, inadequate or unfairly discriminatory.

(4) Each deviation permitted to be filed shall be effective for a period of not less than one (1) year from the date of such permission unless terminated sooner with the approval of the *board* [commissioner]. All term policies issued pursuant to such deviations may remain in force until their expiring dates.

Section 138. KRS 304.13-210 is amended to read as follows:

(1) Any member of or subscriber to a rating organization may appeal to the *board* [commissioner] from the action or decision of such rating organization in approving or rejecting any proposed change in or addition to the filings of such rating organization.

(2) The *board* [commissioner] shall, after a hearing held upon not less than ten (10) days' written notice to the appellant and to the rating organization, issue an order approving the action or decision of the rating organization or directing it to give further consideration to such proposal; or if the appeal is from the action or decision of the rating organization in rejecting a proposed addition to its filings, *it* [he] may, in the event *it* [he] finds that such action or decision was unreasonable, issue an order directing the rating organization to make an addition to its filings within a reasonable time after the issuance of such order.

Section 139. KRS 304.13-220 is amended to read as follows:

(1) Any person or organization in interest, aggrieved with respect to any filing which is in effect may make written application to the *board* [commissioner] for a hearing thereon, except that the insurer or rating organization that made the filing shall not be authorized to proceed under this section. Such application shall specify the grounds to be relied upon by the applicant.

(2) If the *board* [commissioner] finds that the application is made in good faith, that the applicant would be so aggrieved if his grounds are established, and that such grounds otherwise justify holding such a hearing, *it* [he] shall, within thirty (30) days after receipt of such application, hold a hearing upon not less than ten (10) days' written notice to the applicant and to every insurer and rating organization which made such filing.

(3) If, after such hearing, the *board* [commissioner] finds that the filing does not meet the requirements of this subtitle, *it* [he] shall issue an order specifying in what respects *it* [he] finds that such filing fails to meet the requirements of this subtitle, and stating when, within a reasonable period thereafter, such filing shall be deemed no longer effective. Copies of the order shall be sent to the applicant and to every such insurer and rating organization. The order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in the order.

Section 140. KRS 304.13-230 is amended to read as follows:

(1) Every rating organization and every insurer which makes its own rates shall, with a reasonable time after receiving written request therefor and upon payment of such reasonable charge as it may make, furnish to any insured affected by a rate made by it, or to the authorized representative of such insured, all pertinent information as to such rate.

(2) Every rating organization and every insurer which makes its own rates shall provide within this state reasonable means whereby any person aggrieved by the application of its rating system may be heard, in person or by his authorized representative, on his written request to review the manner in which such rating system has been applied in connection with the insurance afforded him. If the rating organization or insurer fails to grant or reject such request within thirty (30) days after it is made, the applicant may proceed in the same manner as if his application has been rejected. Any part affected by the action of such rating organization or such insurer on such request may, within thirty (30) days after written notice of such action, appeal to the *board* [commissioner], *which* [who], after a hearing held upon not less than ten (10) days' written notice to the appellant and to such rating organization or insurer, may affirm or reverse such action.

Section 141. KRS 304.13-270 is amended to read as follows:

Provided, that if, in any action commenced to recover such unpaid wages or liquidated damages, the employer shows to the satisfaction of the court that the act or omission giving rise to such action was in good faith and that he had reasonable grounds for believing that his act or omission was not a violation of KRS *337.020 to* [337.275 and] 337.385, the court may, in its sound discretion, award no liquidated damages, or award any amount thereof not to exceed the amount specified in this section. Any agreement between such employe and the employer to work for less than the applicable wage rate shall be no defense to such action. Such action may be maintained in any court of competent jurisdiction by any one or more employes for and in behalf of himself or themselves.

(2) At the written request of any employe paid less than the amount to which he is entitled under the provisions of KRS *337.020 to* [337.275 and] 337.285, the commissioner may take an assignment of such wage claim in trust for the assigning employe and may bring any legal action necessary to collect such claim, and the employer shall be required to pay the costs and such reasonable attorney's fees as may be allowed by the court. The commissioner in case of suit shall have power to join various claimants against the same employer in one action.

(1) Any laborer, workman, or mechanic employed on public works may file a complaint of any violation of any provision of KRS 337.505 to 337.550 with the department. The department shall assist him in the collection of claims of wages due him and shall also assist to the fullest extent in the administration and enforcement of KRS 337.505 to 337.550. *The Commissioner shall investigate and enforce the provisions of KRS 337.550 to KRS 337.505 to 337.550 to the fullest and shall bring all actions to collect wages due any laborer, workman, or mechanic and shall take action against any contractor or subcontractor to restrain violations of KRS 337.505 to 337.550. If any contractor or subcontractor is found to be in violation of any provisions of KRS 337.505 to 337.550, then the Commissioner shall inform the Secretary for Finance and Administration of the Commonwealth of Kentucky, and the Secretary for Finance and Administration shall hold such contractor or subcontractor ineligible to bid on public works until such time as that contractor or subcontractor is in substantial compliance as determined by the Commissioner.*

(2) A laborer, workman, or mechanic may by civil action recover any sum due him as the result of the failure of his employer to comply with the terms of KRS 337.505 to 337.550. The commissioner may also bring any legal action necessary to collect claims on behalf of any or all laborers, workmen, or mechanics. No employer shall take any punitive measure or action against an employe because such employe has made a charge, testified, assisted or participated in any manner in an investigation, proceeding or hearing under KRS 337.505 to 337.550. The commissioner shall not be required to pay the filing fee, or other costs, in connection with such action.

(3) To the Wage and Hour and Public Contracts Division of the United States, Department of Labor.

SB 334, AN ACT relating to the financing of industrial buildings.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 103.200 is amended to read as follows:

As used in KRS 103.200 to 103.285, "building" or "industrial building" means any building, structure, machinery, equipment or related improved site, area or edifice suitable for and intended for use as, or in connection with the use of, a factory, mill, shop, processing plant, assembly plant, fabricating plant, coal conversion facility, hospital, facility for the treatment or care of the aged or the infirm, *medical office building contiguous or related to a hospital, terminal, port, agribusiness, or any other facility useful or to be used in support of or as a part of the operation of any of the foregoing, including any office building, warehouse,* [and any] parking or pollution control area or structure or industrial transportation facility (including railroad tracks, and docks, wharves, grain handling and storage and other port facilities directly related thereto, but excluding rolling stock used outside of an industrial building) [deemed necessary to or useful in the establishment, retention or expansion thereof], or any of these things, to be rented or leased to a domestic or foreign corporation by the *Kentucky development finance authority, the* city or *the* county by which it is acquired. A processing plant, within the meaning of this section, shall include any plant established as a manufacturer's distribution center for the packaging or re-distribution of products, any product modification center, and any plant established for the purpose of processing minerals, including the washing, drying, separating, grading, preparing, sorting, and the loading thereof. *As used in this section, agribusiness means that segment of the manufacturing and service industries which processes raw agricultural products, including timber, provides value added functions, or supplies ingredients used for production of basic agricultural crops and products.*

Section 2. KRS 103.210 is amended to read as follows:

(1) In order to promote reconversion to peacetime economy, to relieve conditions of unemployment, to aid in the rehabilitation of returning veterans, to encourage the increase of industry in this state, and to aid in the retention of existing industry through the control of pollution or through conversion of energy facilities to more readily available fuels, any city or county may borrow money and issue negotiable bonds for the purpose of defraying the cost of acquiring any industrial building, either by purchase or construction, but only after an ordinance or resolution has been adopted by the legislative body of the city or the fiscal court of the county, *or the governing body of Kentucky development finance authority,* as the case may be, specifying the proposed undertaking, the amount of bonds to be issued, and the maximum rate of interest the bonds are to bear. *This section shall not be deemed to require, however, that such ordinance or resolution be adopted prior to interim financing of the project, if such interim financing was undertaken by the proposed lessee corporation upon the basis of discussions between the corporation and responsible officials of the issuer which were later formally ratified by the appropriate governing body of the issuer.* The ordinance or resolution shall further provide that the industrial building is to be acquired pursuant to the provisions of KRS 103.200 to 103.280. Each such bond-authorizing ordinance or resolution shall be effective only after publication, in a newspaper authorized to publish official advertisements for the issuer, of the title to said ordinance or resolution, together with a statement signed by the clerk of the issuer setting forth the amount of the issue, the name of the lessee corporation, and the fact that the bonds are to be retired from the proceeds of the lease payments as set forth in KRS 103.200 to 103.285 inclusive. No publication of the complete ordinance or resolution shall be required, but said ordinance or resolution shall be entered upon the records of the issuer and shall be available for public inspection.

(2) Kentucky development finance authority is authorized to issue bonds for the purposes and in the manner provided in this section, but only for the purposes of financing (a) the acquisition or construction of an industrial building which is or will be located within the boundaries of a riverport or organized industrial park as defined by the authority upon the basis of statutory provisions relating to riverports and industrial parks, or (b) pollution control facilities in any area of the Commonwealth in connection with a loan agreement with the small business administration. Issuance of bonds in such areas by the Kentucky development finance authority shall be an alternative to issuance by a city or a county, and when acting in the capacity of an issuer of such bonds the authority shall act through its officers and the members of its governing board in the same manner as a county acting through its county judge/executive, county clerk and fiscal court. Bonds so issued shall be issued in the name of the authority.

Section 3. KRS 103.220 is amended to read as follows:

(1) The bonds may be issued to bear interest at a rate fixed by the *governing body of the issuer* [city legislative body or the fiscal court of the county], payable either annually or semiannually, and shall be executed in such manner and be payable at such times not exceeding *thirty (30)* [twenty-five (25)] years from date thereof and at such place or places as the *governing body of the issuer* [city legislative body or the fiscal court of the county, as the case may be,] determines.

(2) The bonds may provide that they or any of them may be called for redemption prior to maturity under conditions fixed by the *governing body of the issuer* [city legislative body or the fiscal court of the county, as the case may be,] before issuing the bonds.

(3) Any bonds issued and outstanding hereunder may, at any time on or after the earliest redemption date provided therefor at the time of their issuance, be refunded by the issuer, with the consent of the lessee, in such amount as the governing body may deem necessary to refund the principal of the bonds to be refunded, together with any unpaid interest thereon, and to pay the costs of any improvements or additions to the project, and of any premiums, expenses and commissions required to be paid in connection therewith. Any refunding bonds issued under the authority of this section shall be payable from the revenues out of which the bonds to be refunded were payable.

(4) Any bonds issued and outstanding hereunder and the coupons appertaining to such bonds shall prior to the maturity or redemption date thereof be deemed to have been paid to the same extent as if they had actually been paid in cash and retired, if (a) in case any of such bonds are to be redeemed on any date prior to their maturity, the issuer of such bonds shall have given a trustee appointed for the holders of such bonds in connection with their issuance, in form satisfactory to such trustee and in conformity with the requirements of the ordinance or resolution authorizing their issuance, irrevocable instructions to give notice of redemption of such bonds to the holders thereof by publication or by other method which is satisfactory to such trustee, (b) there shall have been deposited with the trustee either money in an amount which shall be sufficient, or direct obligations of or obligations guaranteed by the United States of America, the principal of and the interest on which, when due, will provide money which, together with the money, if any, deposited with the trustee at the same time, shall be sufficient, to pay when due the principal and the interest due and to become due on such bonds on and prior to redemption date or maturity date thereof, as the case may be, and (c) in the event that

such bonds are not to be redeemed within the next succeeding sixty (60) days, the issuer shall have given the trustee in form satisfactory to it irrevocable instructions to give, as soon as practicable, in a manner satisfactory to it, a notice to the holders of such bonds and coupons that the deposit required by (b) above has been made with the trustee, that such bonds and coupons are deemed to have been paid in accordance with the provisions hereof and stating such maturity or redemption date upon which money is to be available for the payment of the principal of and interest on such bonds. Any deposits made under (b) hereof, to the extent not secured by the federal deposit insurance corporation, shall be secured by the pledging of direct obligations of or obligations guaranteed by the United States of America.

(5) It is hereby declared and determined that the issuance of any and all refunding bonds as provided herein will be for a public purpose if the legislative body of the issuer authorizing such bonds so declares in the proceedings authorizing same, it being hereby declared and determined that the ability of any domestic or foreign corporation renting or leasing any facilities financed by the bonds to cause refunding bonds to be issued will be an inducement for such domestic or foreign corporation to establish in Kentucky the facilities provided for in KRS 103.200 and will tend to further the purposes of KRS 103.200 through 103.280.

(6) No bonds shall be issued hereunder in violation of federal statutes or regulations prohibiting arbitrage profits.

(10) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the secretary determines to be, and by regulations prescribes as, necessary in order to fully inform purchasers as to its value for such uses;

(11) If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; Provided That to the extent that compliance with the requirements of this subsection is impracticable, exemptions shall be established by regulations promulgated by the secretary;

(12) If it is a product intended as an ingredient of another food and when used according to the directions of the purveyor will result in the final food product being adulterated or misbranded;

(13) If it is a raw agricultural commodity which is the produce of the soil, bearing or containing a pesticide chemical applied after harvest, unless the shipping container of such commodity bears labeling which declares the presence of such chemical in or on such commodity and the common or usual name and the function of such chemical: provided, however, that no such declaration shall be required while such commodity, having been removed from the shipping container, is being held or displayed for sale at retail out of such container in accordance with the custom of the trade;

(14) If it is a color additive unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to such color additive prescribed under the provisions of the federal act.

Section 4. KRS 217.045 is amended to read as follows:

Any poisonous or deleterious substance added to any food except where such substance is required in the production thereof or cannot be avoided by good production or manufacturing practice, shall be deemed to be unsafe for purposes of the application of KRS 217.025 (1) (b), unless a tolerance for such substance has been prescribed under the federal act *or the federal environmental pesticide control act of 1972* and the quantity of such substance in or on the food is within the tolerance so prescribed or the substance has been exempted from the requirement of a tolerance under the provisions of the federal act *or the federal environmental pesticide control act of 1972.*

SECTION 5. A NEW SECTION OF KRS CHAPTER 217 IS CREATED TO READ AS FOLLOWS:

Fair packaging and labeling provisions:

(1) All labels of foods and cosmetics, as defined by this Act, shall conform with the requirements for the declaration of net quantity of contents of section 4 of the fair packaging and labeling act (15 U.S.C. 1451, et seq.) and the regulations promulgated pursuant thereto. Food and cosmetics exempted from the requirements of section 4 of the fair packaging and labeling act shall also be exempt from this subsection;

(2) The label of any package of food which bears a representation as to the number of servings of such food contained in such package shall bear a statement of the net quantity (in terms of weight, measure, or numerical count) of each such serving;

(3) No person shall distribute or cause to be distributed in commerce any packaged food or cosmetic if any qualifying words or phrases appear in conjunction with the separate statement of the net quantity of contents. Supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure or count that tends to exaggerate the amount of food or cosmetic contained in the package;

(4) Whenever the secretary determines that regulations containing prohibitions or requirements other than those prescribed by this section are necessary to prevent the deception of consumers or to facilitate value comparisons as to any food or cosmetic, the secretary shall promulgate with respect to that food or cosmetic regulations effective to:

(a) Establish and define standards for the characterization of the size of a package enclosing any food or cosmetic which may be used to supplement the label statement of net quantity of contents of packages containing such food or cosmetic, but this paragraph shall not be construed as authorizing any limitation on the size, shape, weight dimensions, or number of packages which may be used to enclose any food or cosmetics;

(b) Regulate the placement upon any package containing any food or cosmetic or upon any label affixed to such food or cosmetic, of any printed matter stating or representing by implication that such food or cosmetic is offered for retail sale at a price lower than the ordinary and customary retail sale price or that a retail sale price advantage is accorded to purchasers thereof by reason of the size of that package or the quantity of its contents;

(c) Require that the label on each package of food or cosmetic bear:

1. The common or usual name of such food or cosmetic, if any; and

2. In case such food or cosmetic consists of two or more ingredients, the common or usual name of each such ingredient listed in order of decreasing predominance, but nothing in this paragraph shall be deemed to require that any trade secret be divulged; or

(d) Prevent the nonfunctional slack-fill of packages containing food or cosmetics;

(e) For the purpose of paragraph (d) of this subsection, a package shall be deemed to be nonfunctionally slack-filled if it is filled of substantially less than its capacity for reasons other than:

1. Protection of the contents of such package; or

2. The requirements of machines used for enclosing the contents in such package; provided, that the secretary may adopt any regulations promulgated to comply with the fair packaging and labeling act.

Section 6. KRS 217.095 is amended to read as follows:

A cosmetic shall be deemed to be misbranded:

(1) If its labeling is false or misleading in any particular *or if its labeling or packaging fails to conform with the requirements of Section 5 of this Act*;

(2) If in package form unless it bears a label containing:

(a) The name and place of business of the manufacturer, packer, or distributor; and

(b) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count, *which statement shall be separately and accurately stated in a uniform location upon the principal display panel of the label*; Provided That reasonable variations shall be permitted, and exemptions as to small packages shall be established by regulations prescribed by the secretary;

(3) If any word, statement, or other information required by or under authority of KRS 217.005 to 217.215 to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;

(4) If its container is so made, formed or filled as to be misleading;

(5) If it is a color additive, unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to such color additive prescribed under the provisions of the federal act. This subsection shall not apply to packages of color additives which, with respect to their use for cosmetics, are marketed and intended for use only in or on hair dyes as defined in KRS 217.085;

(6) A cosmetic which is, in accordance with the practice of the trade, to be processed, labeled or repacked in substantial quantities at an establishment other than the establishment where it was originally processed or packed, is exempted from the affirmative labeling requirements of this Act while it is in transit in commerce from the one establishment to the other, if such transit is made in good faith for such completion purposes only; but it is otherwise subject to all applicable provisions of this Act.

Section 7. KRS 217.125 is amended to read as follows:

The authority to promulgate regulations for the efficient administration and enforcement of KRS 217.005 to 217.215 is hereby vested in the secretary. The secretary may make the regulations promulgated under KRS 217.005 to 217.215 consistent with those promulgated under the federal act *and the fair packaging and labeling act. Regulations promulgated may require permits to operate and include provisions for regulating the issuance, suspension, and reinstatement of permits.*

Section 8. KRS 217.145 is amended to read as follows:

(1) A food additive shall with respect to any particular use or intended use of such additive, be deemed to be unsafe within the meaning of KRS 217.025 (1) (b) and 217.045, unless it and its use or intended use

conform to the terms of an exemption as provided under the federal act, or, a regulation issued under the federal act prescribing the conditions under which such additive may be safely used.

(2) Any poisonous or deleterious pesticide chemical, or any pesticide chemical which is not recognized by the department as safe for use, added to a raw agricultural commodity, shall be deemed unsafe within the meaning of KRS 217.025 (1) (b), unless a tolerance for such pesticide chemical in or on the raw agricultural commodity has been prescribed under the federal act *or the federal environmental pesticide control act of 1972* and the quantity of such pesticide chemical in or on the raw agricultural commodity is within the tolerance so prescribed; or the pesticide chemical has been exempted from the requirement of a tolerance under provisions of the federal act *or the federal environmental pesticide control act of 1972.*

(3) A color additive shall with respect to any particular use (for which it is being used or intended to be used or is represented as suitable) in or on food or drugs or cosmetics, be deemed unsafe for the purposes of the application of KRS 217.025 (4), 217.055 (1) (d), or 217.085 (5), as the case may be, unless there is in effect, and such color additive and such use are in conformity with a regulation as provided under the federal act, or such color additive and such use conform to the terms of an exception under the federal act.

SB 273, AN ACT relating to mining.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

(1) Except as herein provided, all strip mining operations which commence operations pursuant to a permit issued on or after February 3, 1978, shall comply, and such permits shall contain terms requiring compliance, with the provisions of Sections 2, 3, 4, 5, 6, 7, 8, and 10 of this Act, except in those strip mining operations which affect two (2) acres or less and except with regard to the mining of clay, limestone, sand, gravel, fluorspar, stone and rock asphalt.

(2) On and after May 3, 1978, all strip mining operations shall comply with the provisions of Sections 2, 3, 4, 5, 6, 7, 8, and 10 of this Act, except in those strip mining operations which affect two (2) acres or less, except with regard to the mining of clay, limestone, sand, gravel, fluorspar, stone and rock asphalt.

SECTION 2. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:
The operator shall restore the land affected to a condition capable of supporting the uses which it was capable of supporting prior to any mining, or higher or better uses of which there is reasonable likelihood, so long as such use or uses do not present any actual or probable hazard to public health or safety or pose any actual or probable threat of water diminution or pollution, and the permit applicant's declared proposed land use following reclamation is not deemed to be impractical or unreasonable, inconsistent with applicable land use policies and plans, involves unreasonable delay in implementation, or is violative of federal, state, or local law.

SECTION 3. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:
Except as provided in Section 11(2)(a) through 11(2)(e) of this Act, the operator shall with respect to all strip mining operations backfill, compact, (where advisable to insure stability or to prevent leaching of toxic materials), and grade in order to restore the approximate original contour of the land with all highwalls, spoil piles, and depressions eliminated, (unless small depressions are needed in order to retain moisture to assist revegetation or as otherwise authorized pursuant to this chapter); provided, however, that in strip mining which is carried out at the same location over a substantial period of time where the operation transects the coal deposit, and the thickness of the coal deposits relative to the volume of the overburden is large and where the operator demonstrates that the overburden and other spoil and waste materials at a particular point in the permit area or otherwise available from the entire permit area is insufficient, giving due consideration to volumetric expansion, to restore the approximate original contour, the operator, at a minimum, shall backfill, grade, and compact, (where advisable), using all available overburden and other spoil and waste materials to attain the lowest practicable grade but not more than the angle of repose, to provide adequate drainage and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region; and, provided further, that in strip mining where the volume of overburden is large relative to the thickness of the coal deposit and where the operator demonstrates that due to volumetric expansion the amount of overburden and other spoil and waste materials removed in the course of the mining operation is more than sufficient to restore the approximate original contour, the operator shall after restoring the approximate contour, backfill, grade, and compact, (where advisable), the excess overburden and other spoil and waste materials to attain the lowest grade but not more than the angle of repose, and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region and that such overburden or spoil shall be shaped and graded in such a way as to prevent slides, erosion, and water pollution and is revegetated in accordance with the requirements of this chapter.

SECTION 4. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:
The operator shall remove the topsoil from the land in a separate layer, replace it on the backfill area, or if not utilized immediately, segregate it in a separate pile from other spoil and when the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, maintain a successful cover by quick growing plant or other means thereafter so that the topsoil is preserved from wind and water erosion, remains free of any contamination by other acid or toxic material, and is in a usable condition for sustaining vegetation when restored during reclamation, except if topsoil is of insufficient quantity or of poor quality for sustaining vegetation, or if other strata can be shown to be more suitable for vegetation requirements, then the operator shall remove, segregate, and preserve in a like manner such other strata which is best able to support vegetation. Or where topsoil is of insufficient quantity or of poor quality for sustaining vegetation, the operator may, with the approval of the department, employ the technology required to utilize alternative soil materials approved by the department or soil amendments necessary to sustain vegetation in accordance with the requirements of this Act.

SECTION 5. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:
The operator shall minimize disturbances to the prevailing hydrologic balance at the mine-site and in associated offsite areas and to the quality and quantity of water in surface and ground water systems both during and after strip mining operations and during reclamation by:

(1) Avoiding acid or other toxic mine drainage by such measures as, but not limited to:

(a) Preventing or removing water from contact with toxic producing deposits;

(b) Treating drainage to reduce toxic content which adversely affects downstream water upon being released to water courses; and

(c) Casing, sealing, or otherwise managing boreholes, shafts, and wells and keep acid or other toxic drainage from entering ground and surface waters;

(2) Conducting strip mining operations so as to prevent, to the extent possible using the best technology currently available, additional contributions of suspended solids to streamflow, or runoff outside the permit area, but in no event shall contributions be in excess of requirements set by applicable state or federal law;

(3) Constructing any siltation structures pursuant to Section 5(2) of this Act prior to commencement of strip mining operations, such structures to be certified by a qualified registered engineer to be constructed as designed and as approved in the reclamation plan;

(4) Cleaning out and removing temporary or large settling ponds or other siltation structures from drainways after disturbed areas are revegetated and stabilized, and depositing the silt and debris at a site and in a manner approved by the department;

(5) Restoring recharge capacity of the mined area to approximate premining conditions;

(6) Avoiding channel deepening or enlargement in operations requiring the discharge of water from mines; and

(7) Such other actions as the department may prescribe.

SECTION 6. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

The operator shall design, locate, construct, operate, maintain, enlarge, modify, and remove or abandon, in accordance with the standards and criteria developed pursuant to subsection (f) of Section 515 of Public Law 95-87, "Surface Mining Control and Reclamation Act of 1977," all existing and new coal mine waste piles consisting of mine wastes, tailings, coal processing wastes, or other liquid and solid wastes, and used either temporarily or permanently as dams or embankments.

SECTION 7. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

The operator shall:

(1) Provide adequate advance written notice to local governments and residents who might be affected by the use of such explosives by publication of the planned blasting schedule in a newspaper of general circulation in the locality and by mailing a copy of the proposed blasting schedule to every resident living within one-half mile of the proposed blasting site and by providing daily notice to resident/occupiers in such areas prior to any blasting;

(2) Maintain for a period of at least three (3) years and make available for public inspection upon request a log detailing the location of the blasts, the pattern and depth of the drill holes, the amount of explosives used per hole, and the order and length of delay in the blasts;

(3) Limit the type of explosives and detonating equipment, the size, the timing and frequency of blasts based upon the physical conditions of the site so as to prevent injury to persons, damage to public and private property outside the permit area, adverse impacts on any underground mine, and change in the course, channel, or availability of ground or surface water outside the permit area;

(4) Require that all blasting operations be conducted by trained and competent persons as certified by the department of mines and minerals; and

(5) Provide that upon the request of a resident or owner of a man-made dwelling or structure within one-half mile of any portion of the permitted area the applicant or permittee shall conduct a pre-blasting survey of such structures and submit the survey to the department and a copy to the resident or owner making the request. The area of the survey shall be decided by the department and shall include such provisions as the department shall promulgate. The department and the department of mines and minerals are authorized to enter into agreements whereby the department or the department of mines and minerals administers part or all of this section.

(6) Penalties for violations of this section are those set forth in KRS 350.990.

SECTION 8. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

The operator shall establish on the regraded areas, and all other lands affected, a diverse, effective, and permanent vegetative cover of the same seasonal variety native to the area of land to be affected and capable of self-regeneration and plant succession at least equal in extent of cover to the natural vegetation of the area; except, that introduced species may be used in the revegetation process where desirable and necessary to achieve the approved postmining land use plan.

SECTION 9. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

The operator shall place all excess spoil material resulting from strip mining and reclamation activities pursuant to Section 10(2) of this Act in the following manner:

(1) Spoil is transported and placed in a controlled manner in position for concurrent compaction and in such a way to assure mass stability and to prevent mass movement;

(2) The areas of disposal are within the bonded permit areas and all organic matter shall be removed immediately prior to spoil placement;

(3) Appropriate surface and internal drainage systems and diversion ditches are used so as to prevent spoil erosion and movement;

(4) The disposal area does not contain springs, natural water courses, or wet-weather seeps unless lateral drains are constructed from the wet area to the main underdrains in such a manner that filtration of the water into the spoil pile will be prevented;

(5) If placed on a slope, the spoil is placed upon the most moderate slope among those upon which, in the judgment of the department, the spoil could be placed in compliance with all the requirements of this Act and shall be placed, where possible, upon, or above, a natural terrace, bench, or berm, if such placement provides additional stability and prevents mass movement;

(6) Where the toe of the spoil rests on a downslope, a rock toe buttress of sufficient size to prevent mass movement is constructed;

(7) The final configuration is compatible with the natural drainage pattern and surroundings and suitable for intended uses;

(8) Design of the spoil disposal area is certified by a qualified registered professional engineer in conformance with professional standards; and

(9) All other provisions of this chapter are met.

SECTION 10. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

The following performance standards shall be applicable to steep-slope strip mining and shall be in addition to those general performance standards required by Sections 2, 3, 4, 5, 6, 7, and 8 of this Act; provided, however, that the provisions of this section shall not apply to those situations in which an operator is mining on flat or gently rolling terrain, on which an occasional steep slope is encountered through which the mining operation is to proceed, leaving a plain or predominantly flat area, or where an operator is in compliance with the provisions of Section 11(2) of this Act:

(1) The operator shall insure that when performing strip mining on steep slopes, debris, abandoned or disabled equipment, spoil material, or waste mineral matter not be placed on the downslope below the bench or mining cut; provided, that spoil material in excess of that required for the reconstruction of the approximate original contour under the provisions of Section 3 or Section 10(2) of this Act shall be permanently stored pursuant to Section 9 of this Act.

(2) The operator shall complete backfilling with spoil material and shall be required to cover completely the highwall and return the site to the approximate original contour, which material will maintain stability following mining and reclamation.

(3) The operator may not disturb land above the top of the highwall unless the department finds that the disturbance will facilitate compliance with the environmental protection standards of this subsection; provided, however, that the land disturbed above the highwall shall be limited to that amount necessary to facilitate compliance.

(4) For the purposes of this section, the term "steep slope" is any slope above twenty (20) degrees or such lesser slope as may be defined by the department, by regulation, after consideration of soil, climate, and other characteristics of the region.

SECTION 11. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

(1) If the area proposed to be mined contains prime farmland as defined in Public Law 95-87, "Surface Mining Control and Reclamation Act of 1977," then no permit shall be issued unless it complies with Section 510(d)(1) therein. Nothing in this subsection shall apply to any permit issued prior to August 3, 1977, or to any revisions or renewals thereof, or to any existing strip mining operations for which a permit was issued prior to August 3, 1977. Nothing herein shall be construed as authorizing the department to promulgate regulations more stringent than those promulgated pursuant to PL 95-87 relating to prime farmland.

(2) Where a strip mining operation will remove an entire coal seam or seams running through the upper fraction of a mountain, ridge, or hill by removing all of the overburden and creating a level plateau or a gently rolling contour with no highwalls remaining, the operation shall comply with the requirements of Section 11(2)(c) and Section 11(2)(d) of this Act without regard to the requirements of Section 3 of this Act or Section 10(2) and Section 10(3) of this Act with respect to lands from which overburden and the coal seam being mined have not been removed; provided, however, the department shall establish internal procedures pursuant to which it shall permit strip mining operations for the purposes set forth in Section 11(2)(b) of this Act.

(a) Where an applicant meets the requirements of Section 11(2)(b) and Section 11(2)(c) of this Act a permit without regard to the requirements to restore to approximate original contour set forth in Section 3 or Section 10(2) and Section 10(3) of this Act may be granted for the strip mining of coal where the mining operation will remove an entire coal seam or seams running through the upper fraction of a mountain, ridge, or hill, except as provided in Section 11(3)(d) of this Act, by removing all of the overburden and creating a level plateau or a gently rolling contour with no highwalls remaining and capable of supporting postmining uses in accord with the requirements of this subsection.

(b) In cases where an industrial, commercial, agricultural, residential, or public facility, including recreational facilities, use is proposed for the postmining use of the affected land, the department may grant a permit for a strip mining operation of the nature described in Section 11(2)(a) of this Act where:

1. After consultation with the appropriate land use planning agencies, if any, the proposed postmining land use is deemed by the department to constitute an equal or better economic or public use of the affected land as compared with premining use;

2. The applicant presents specific plans for the proposed postmining land use and appropriate assurances that the land use will be:

a. Compatible with adjacent land uses;

b. Obtainable according to data regarding expected need and market;

c. Assured of investment in necessary public facilities;

d. Supported by commitments from public agencies where appropriate;

e. Practicable with respect to private financial capability for completion of the proposed use;

f. Planned pursuant to a schedule attached to the reclamation plan so as to integrate the mining operation and reclamation with the postmining land use; and

g. Designed by a registered engineer in conformance with professional standards established to assure the stability, drainage, and configuration necessary for the intended use of the site;

3. The proposed use would be consistent with adjacent land uses and existing state and local land use plans; and

4. The department provides the governing body of the unit of general-purpose government in which the land is located, and any state or federal agency which the department in its discretion determines to have an interest in the proposed use, an opportunity of not more than thirty (30) days to review and comment on the proposed use; and

5. All other requirements of this chapter will be met.

(c) In granting any permit pursuant to this subsection the following requirements apply:

1. The toe of the lowest coal seam and the overburden associated with it are retained in place as a barrier to slides and erosion;

2. The reclaimed area is stable;

3. The resulting plateau or rolling contour drains inward from the outslopes except at specified points;

4. No damage will be done to natural watercourses;

5. Spoil will be placed on the mountaintop bench as is necessary to achieve the planned postmining land use; provided, that all excess spoil material not retained on the mountaintop shall be placed in accordance with the provisions of Section 9 of this Act; and

6. Insure stability of the spoil retained on the mountaintop and meet the other requirements of this chapter.

(d) The requirements of all regulations promulgated under this subsection are met.

(e) All permits granted under the provisions of this subsection shall be reviewed not more than three (3) years from the date of issuance of the permit, unless the applicant affirmatively demonstrates that the proposed development is proceeding in accordance with the terms of the approved schedule and reclamation plan.

(3)(a) The department shall adopt procedures pursuant to which it may permit variances for the purposes set forth in Section 11(3)(c) of this Act, provided that the watershed control of the area is improved; and further provided complete backfilling with spoil material shall be required to cover completely the highwall, which material will maintain stability following mining and reclamation.

(b) Where an applicant meets the requirements of Section 11(3)(c) of this Act, a variance from the requirement to restore the approximate original contour set forth in Section 10(2) of this Act may be granted for the strip mining of coal where the owner of the surface knowingly requests in writing, as a part of the permit application, that such a variance be granted so as to render the land, after reclamation, suitable for an industrial, commercial, residential, or public use, including recreational facilities, in accord with the further provisions of Section 11(3)(c) and Section 11(3)(d) of this Act.

(c) After consultation with the appropriate land use planning agencies, if any, the potential use of the affected land shall:

1. Be deemed by the department to constitute an equal or better economic or public use;

2. Be designed and certified by a qualified registered professional engineer in conformance with professional standards established to assure the stability, drainage, and configuration necessary for the intended use of the site; and

3. The watershed of the affected land be deemed by the department to be improved.

(d) In granting a variance pursuant to Section 11(3) of this Act, the department shall require that only such amount of spoil will be placed off the mine bench as is necessary to achieve the planned postmining land use, insure stability of the spoil retained on the bench, meet all other requirements of this chapter, and require all spoil placement off the mine bench to comply with Section 9 of this Act.

(e) The department shall promulgate specific regulations as it deems necessary, if any, to govern the granting of variances in accord with the provisions of this subsection and may impose such additional requirements as it deems to be necessary.

(f) All exceptions granted under the provisions of this subsection shall be reviewed not more than three (3) years from the date of issuance of the permit, unless the permittee affirmatively demonstrates that the proposed development is proceeding in accordance with the terms of the reclamation plan.

(4) Strip and underground coal mining operations in operation pursuant to a permit issued before August 4, 1977, issued to a person as defined in KRS 350.010(7) in existence prior to May 2, 1977, and operated by a person whose total annual production of coal from surface and underground coal mining operations does not exceed one hundred thousand (100,000) tons shall not be subject to the provisions set forth in Section 1 and Section 11(2) of this Act, except with reference to the provision of Section 10(1) of this Act, until January 1, 1979. The department shall certify qualified applicants pursuant to this subsection.

SECTION 12. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

If authorized in the approved strip mining and reclamation plan and permit, the operator may create permanent impoundments of water on mining sites as part of reclamation activities only when it is adequately demonstrated that:

(1) The size of the impoundment is adequate for its intended purposes;

(2) The impoundment dam construction will be so designed as to achieve necessary stability with an adequate margin of safety compatible with that of structures constructed under Public Law 83-566 (16 U.S.C. 1006);

(3) The quality of impounded water will be suitable on a permanent basis for its intended use and that discharges from the impoundment will not degrade the water quality below water quality standards established pursuant to applicable federal and state law in the receiving stream;

(4) The level of water will be reasonably stable;

(5) Final grading will provide adequate safety and access for proposed water users; and

(6) Such water impoundments will not result in the diminution of the quality or quantity of water utilized by adjacent or surrounding landowners for agricultural, industrial, recreational, or domestic uses.

SECTION 13. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

No employe of the state performing any function or duty under this chapter shall have a direct or indirect financial interest in any underground or strip coal mining operation. Whoever knowingly violates the provisions of this section is guilty of a Class A misdemeanor, and shall, upon conviction, be punished by a fine of not more than two thousand and five hundred dollars ($2,500), or by imprisonment of not more than one (1) year, or both.

Section 14. KRS 350.010 is amended to read as follows:

As used in this chapter unless the context requires otherwise:

(1) "Strip mining" means the breaking of the surface soil in order to facilitate or accomplish the extraction or removal of minerals, ores, or other solid matter; any activity or process constituting all or part of a process for the extraction or removal of minerals, ores, and other solid matter from its original location; and the preparation, washing, cleaning, or other treatment of minerals, ores, or other solid matter so as to make them suitable for commercial, industrial, or construction use; but shall not include *the extraction of coal by a land owner for his own noncommercial use from land owned or leased by him; the extraction of coal as an incidental part of federal, state or local government financed highway or other construction under regulations established by the department nor shall it include the surface effects or surface impacts of underground coal mining* [those aspects of deep mining not having significant effect on the surface, and shall not include excavation or grading when conducted solely in aid of on-site farming or construction];

(2) "Overburden" means all of the earth and other materials which lie above a natural deposit of coal and also means such earth and other material after removal from their natural state in the process of strip mining;

(3) "Area of land affected" means the area of land from which overburden is to be or has been removed and upon which the overburden is to be or has been deposited and shall include all lands affected by the construction of new roads or the improvement or use of existing roads other than public roads, to gain access and to haul coal;

(4) "*Operations* [Operation]" means all of the premises, facilities, roads and equipment used in the process of producing coal from a designated strip mine area or removing overburden for the purpose of determining the location, quality or quantity of a natural coal deposit *or the activity to facilitate or accomplish the extraction or the removal of coal*;

(5) "Method of operation" means the method or manner by which the cut or open pit is made, the overburden is placed or handled, water is controlled and other acts are performed by the operator in the

process of uncovering and removing the coal;

(6) "Operator" means any person, partnership or corporation engaged in strip mining who removes or intends to remove more than *two hundred fifty (250)* [one hundred (100)] tons of coal from the earth by strip mining within twelve (12) successive calendar months or who removes overburden for the purpose of determining the location, quality or quantity of a natural coal deposit;

(7) "Person" means any persons, partnership, [or] corporation, *association, society, joint stock company, firm, company or other business organization*;

(8) "Department" means the department for natural resources and environmental protection;

(9) "Secretary" means the secretary of the department for natural resources and environmental protection;

(10) "Reclamation" means the reconditioning of the area [of land] affected by strip mining under a plan approved by the *department* [division];

(11) "Degree" when used in this chapter shall mean from the horizontal, and in each case shall be subject to a tolerance of five percent (5%) of error;

(12) "Bench" means the ledge, shelf or terrace formed in the contour method of strip mining;

(13) "Fill bench" means that portion of the bench which is formed by depositing overburden beyond the cut section.

(14) "Approximate original contour" means that surface configuration achieved by backfilling and grading of the mined area so that the reclaimed area, including any terracing or access roads (when not necessary to support its approved postmining use), closely resembles the general surface configuration of the land prior to mining and blends into and complements the drainage pattern of the surrounding terrain, with all highwalls and spoil piles eliminated; water impoundments may be permitted where the department determines that they are in compliance with Section 12 of this Act.

Section 15. KRS 350.028 is amended to read as follows:

The department for natural resources and environmental protection shall have and exercise the following authority and powers:

(1) To adopt [in the manner prescribed in subsection (16) of KRS 224.033 and subsections (5) and (6) of KRS 224.045] rules and regulations pertaining to strip mining to accomplish the purposes of this chapter;

(2) To conduct investigations and hearings under provisions of this chapter and KRS chapter 224 or regulations adopted pursuant thereto.

(3) To issue after hearing, *suspension orders or* orders requiring an operator to adopt such remedial measures as are necessary to comply with this chapter and regulations adopted pursuant thereto;

(4) To issue after a hearing, a final order directing the *Kentucky bureau of surface mining reclamation and enforcement* [department] to revoke a permit, when the requirements set forth by the notice of noncompliance, order of suspension, or an order of the department requiring remedial measures have not been complied with according to the terms therein*; and*

(5) To adopt rules and regulations to allow the state to administer and enforce the initial regulation procedure of Section 502 of Public Law 95-87, "Surface Mining Control and Reclamation Act of 1977".

Section 16. KRS 350.085 is amended to read as follows:

(1) No application for a permit *and no operation* shall be approved *or allowed* by the department if there is found on the basis of the information set forth in the application that the requirements of this chapter or regulations will not be observed or that there is not probable cause to believe that the proposed method of operation, backfilling, grading or reclamation of the affected area can be carried out consistent with the purpose of this chapter;

(2) If the department finds that the overburden on any part of the area of land described in the application for a permit is such that experience in the commonwealth with a similar type of operation upon land with similar overburden shows that substantial deposition of sediment in stream beds, landslides or acid water pollution cannot feasibly be prevented, the department may delete such part of the land described in the application upon which such overburden exists;

(3) *Subject to valid existing rights no strip mining operation except those which existed on or before August 4, 1977 shall be permitted to be within three hundred (300) feet from any occupied dwelling unless waived by the owner thereof, nor within three hundred (300) feet of any public building, school, church, community, or institutional building, public park, or within one hundred (100) feet of a cemetery. Nor shall the department issue a permit if it* [If the department] finds that the operation will constitute a hazard to *or do physical damage to* a dwelling house, public building, school, church, cemetery, commercial or institutional building, public road, stream, lake or other public property. [,] The department shall delete such areas from the permit application *or operation* [before it can be approved];

(4) The department shall not give approval to strip mine any area which is within one hundred (100) feet of *the outside right-of-way line of any public road, except where mine access roads or haulage roads join*

such right-of-way line and except that the department may permit such roads to be relocated or the area affected to lie within one hundred (100) feet of such road, if after public notice and opportunity for public hearing in the locality a written finding is made that the interest of the public and the land owner affected thereby will be protected, [any public road, stream, lake or other public property] and shall not approve the application for a permit where the strip mining operation will adversely affect a wild river established pursuant to KRS chapter 146, or a state, national or interstate park unless adequate screening and other measures as approved by the department are incorporated into the permit application.

Section 17. KRS 350.090 is amended to read as follows:

(1) Under the provisions of this chapter and regulations adopted by the department, an operator shall prepare and carry out a method of operation, plan of grading and backfilling and a reclamation plan for the area of land affected by his operation. In developing a method of operation, and the plans of backfilling, grading and reclamation, all measures shall be taken to eliminate damages to members of the public, their real and personal property, public roads, streams and all other public property from soil erosion, rolling stones and overburden, water pollution and hazards dangerous to life and property. The plan shall be submitted to the department and the department shall notify the applicant by certified mail, return receipt requested or by registered mail within thirty (30) working days after receipt of the plan and complete application if it is or is not acceptable. If the plan is not acceptable, the department shall set forth the reasons for which the plan is not acceptable and it may propose modifications, delete areas or reject the entire plan. Should the applicant disagree with the decision of the department, he may, by written notice, request a hearing conducted by the department in the manner provided by KRS 224.083. The department shall notify the applicant by certified mail, return receipt requested or by registered mail within twenty (20) days after the hearing of its decision. Any person aggrieved by a final order of the department may appeal through the courts as set forth in KRS 224.085.

(2) [In addition to the method of operation, grading, backfilling and reclamation requirements of this chapter and regulations adopted pursuant thereto, the operator, consistent with the directives of subsection (1) above, shall be required to perform the following:

(a) Cover the face of the coal with compacted nonacid-bearing and nontoxic materials to a distance of at least four (4) feet above the seam being strip mined or by a permanent water impoundment;

(b) Bury under adequate fill all toxic materials, roof coal, pyritic coal or shale determined by the department to be acid producing, toxic, or creating a fire hazard;

(c) Seal off, as directed by regulations, any break through of acid water creating a fire hazard;

(d) Impound, drain or treat all runoff water so as to reduce soil erosion, damage to agricultural lands and pollution of streams and other waters;

(e) Remove or bury all metal, lumber, and other refuse resulting from the operation.

(3)] No operator shall throw, dump, pile or permit the dumping, piling or throwing or otherwise placing any overburden, stones, rocks, coal, particles of coal, earth, soil, dirt, debris, trees, wood, logs, or any other materials or substances of any kind or nature beyond or outside of the area of land which is under permit and for which bond has been posted under KRS 350.060 or place such materials herein described in such a way that normal erosion or slides brought about by natural physical causes will permit such materials to go beyond or outside of the area of land which is under permit and for which bond has been posted under KRS 350.060.

Section 18. KRS 350.093 is amended to read as follows:

(1) [On lands where the method of operation does not produce a bench (area strip mining), complete backfilling shall be required, beginning at or beyond the top of the highwall and sloped to the toe of the spoil bank at a maximum angle not to exceed the approximate original contour of the land with no depressions to accumulate water. Such backfilling shall eliminate all highwalls and spoil peaks. Whenever directed by the department, the operator shall construct in the final grading, such diversion ditches or terraces as will control the water runoff on long uninterrupted slopes. Additional restoration work may be required by the department according to regulations adopted by the department.

(2) On lands where the method of operation produces a bench (contour strip mining), terrace backfilling shall be required and performed as follows:

(a) All highwalls must be reduced or backfilled. The steepest slope of the reduced or backfilled highwall and of the outer slope of the fill bench shall be no greater than forty-five (45) degrees from the horizontal; provided, however, if the highwall is composed of solid rock and sufficient soil is not available to backfill or cover the solid rock suitable to establish vegetative cover, the department, by regulation, may make modifications to the requirements of this section;

(b) The table portion of the restored area shall be a terrace;

(c) Whenever excess spoil is placed in the head-of-the-hollow fills, it shall be compacted under regulations promulgated by the department;

(d) Ridge fills shall not exceed a depth of ten (10) feet;

(e) The restored area shall have a minimum depth of four (4) feet of fill over the floor of the pit from which the coal has been removed;

(f) There shall be no depressions to accumulate water but lateral drainage ditches connecting to natural or constructed waterways shall be constructed whenever directed by the department;

(g)] Additional restoration work may be required by the *department* [division] according to regulations adopted by the department;

[(h) In addition to the backfilling and grading requirements above, the operator's method of operation on steep slopes shall be regulated and controlled according to regulations adopted by the department. Such regulations shall limit bench widths, shall limit the amount of overburden to be placed beyond the solid bench to forty percent (40%) or less of the material disturbed except where the mineral is recovered by the auger method of mining only and without blasting, may prohibit any overburden from being placed beyond the solid bench on precipitous slopes as defined by the department, or may require any measure whatsoever to accomplish the purpose of this chapter.

(3) An operator may propose alternative plans other than backfilling where a water impoundment is desired, if such restoration will be consistent with the purpose of this chapter. Such plans are to be submitted to the department, and if such plans are approved by the department and complied with within the time limits as may be determined by the department as being reasonable for carrying out such plans, the backfilling requirements of this chapter may be modified by the department.]

(2) [(4)] As determined by regulations of the department, time limits shall be established requiring backfilling, grading and planting to be kept current. All backfilling and grading shall be completed before necessary equipment is moved from the operation.

(3) [(5)] If the operator or other person desires to conduct drift mining upon the premises or use the openings for haulageways or other lawful purposes, the operator may designate locations to be used for such purposes at which places it will not be necessary to backfill as herein provided for until such drift mining or other use is completed, during which time the bond on file for that portion of the operation shall not be released. That portion of such locations shall be described and designated on the map attached thereto.

(4) [(6)] When the backfilling and grading have been completed and approved by the department and the soil ph level required by department regulations has been satisfied, the secretary sall release the bond which was filed for that portion of such operation in its full amount less three hundred dollars ($300) per acre, which shall be retained by the department until such time as the planting and revegetation is done according to law and approved by the department, at which time the secretary shall release the bond in the remaining amount of three hundred dollars ($300) per acre.

Section 19. KRS 350.095 is amended to read as follows:

After the operation has been backfilled, graded and approved by the department, the operator shall prepare the soil and plant *vegetation* [trees, shrubs, grasses and legumes] upon the area of the land affected in order to provide a suitable vegetative cover. The seed or plant mixtures, quantities, method of planting, type and amount of lime or fertilizer, and any other measures necessary to provide a suitable vegetative cover shall be defined by regulations of the department.

Section 20. KRS 350.130 is amended to read as follows:

(1) If any of the requirements of this chapter or rules or regulations adopted pursuant thereto or the orders of the department have not been complied with within the time limits set by the department or by this chapter, the department shall cause a notice of noncompliance to be served upon the operator, or where found necessary, the secretary shall *after hearing (except as provided in KRS 224.071)* order the suspension of a permit *or operation.* Such notice or order shall be handed to the *person in charge of the operation, and the* operator in person or served by certified mail, return receipt requested or by registered mail addressed to the permanent address shown on the application for a permit *or if no address is shown on the application, then to the address known to the department.* The notice of noncompliance or order of suspension shall specify in what respects the operator has failed to comply with this chapter or the regulations or orders of the department. If the operator has not reached an agreement with the department or has not complied with the requirements set forth in the notice of noncompliance or order of suspension within time limits set therein, the permit may be revoked *or the operation terminated, after hearing,* by order of the department and the performance bond, *if any,* shall then be forfeited to the department.

(2) When a bond is forfeited pursuant to the provisions of this chapter, the secretary shall give notice to the attorney general, who shall collect the forfeiture.

(3) An operator *or person* whose mining permit *or operation* has been revoked, [or] suspended, *or terminated* shall not be eligible to receive another permit *or begin another operation* or to have suspended permits *or operations* reinstated until he shall have complied with all the requirements of this chapter in respect to all permits issued him, provided, further, that no operator *or person* shall be eligible to receive

another permit *or begin another operation* who has forfeited any bond unless the land for which the bond was forfeited has been reclaimed without cost to the state or the operator *or person* has paid such sum as the department finds is adequate to reclaim such lands. The department shall not issue any additional permits to *or allow future operations by* any operator *or person* who has repeatedly been in noncompliance or violation of this chapter, or who has had permits revoked *or operations terminated* on more than three (3) occasions. [The department shall issue regulations concerning repeated noncompliance by any operator.]

Section 21. KRS 350.133 is amended to read as follows:

Nothing in this chapter shall prohibit *the mountaintop* [or change present regulations regarding mountain-top] removal method of strip mining coal *under the conditions set forth in this chapter or regulations promulgated pursuant thereto* [or the mining of multiple seams of coal, where a lower bench has been created].

Section 22. KRS 350.151 is amended to read as follows:

(1) The department for natural resources and environmental protection shall promulgate rules and regulations for the reclamation of land disturbed or removed by *operations* [activities] resulting from or incident to a mine as defined in KRS 352.010(1)(s). *Such regulations shall recognize the distinct differences between the surface effects of underground mining and strip mining, and shall be promulgated pursuant to this section only, and shall be enforced as provided in KRS 350.130 and 350.990.* Those activities *may* [shall] include, but not be limited to, the construction of new roads or the improvement or use of existing roads to gain access to the site of such activities and all lands affected by haulage, excavations, workings, impoundments, dams, ventilation shafts, entryways, refuse banks, dumps, stockpiles, overburden piles, spoil banks, culm banks, tailings, holes or depressions, repair areas, storage areas, processing areas, shipping areas and other areas upon which are sited structures, facilities, or other property or materials on the surface *but said regulations shall not be more stringent than those applied to strip mining.*

(2) The operator shall file with the department a bond payable to the Commonwealth of Kentucky with surety satisfactory to the department in the penal sum to be determined by the department on the recommendation of the secretary of not less than five hundred dollars ($500) nor more than three thousand dollars ($3,000) for each acre or fraction thereof of the area of land affected, with a minimum bond of five thousand dollars ($5,000) conditioned upon the faithful performance of the requirements set forth in this section and of the rules and regulations of the department. The department shall accept, in lieu of the surety provided herein, the deposit by the operator of United States government securities, cash, or its equivalent in a sum equal to the principal amount of the required bond.

Section 23. KRS 350.060 is amended to read as follows:

(1) No operator shall engage in strip mining without having first obtained from the department a permit designating the area of land affected by the operation. *Permits* [The permit] shall authorize the operator to engage in strip mining upon the area of land described in his application for a period of *not less than two (2) years notwithstanding* [one (1) year from] the date of [its] issuance. *No mining shall be permitted beyond the time period obligations of the initial or extended bond coverage*;

(2) An operator desiring a permit shall file an application which shall state:

(a) The location and area of land to be affected by the operation, with a description of access to the area from the nearest public highways;

(b) The owner or owners of the surface of the area of land to be affected by the permit and the owner or owners of all surface area within five hundred (500) feet of any part of the affected area;

(c) The owner or owners of the coal to be mined;

(d) The source of the applicant's legal right to mine the coal on the land affected by the permit;

(e) The permanent and temporary post-office addresses of the applicant;

(f) Whether the applicant or any person, partnership or corporation associated with the applicant holds or has held any other permits under this chapter, and an identification of such permits;

(g) Whether or not the applicant is in compliance with subsection (3) of KRS 350.130 and whether or not every officer, partner, director or any individual owning of record or beneficially (alone or with associates) if known, ten percent (10%) or more of any class of stock of the applicant, is subject to any of the provisions of subsection (3) of KRS 350.130 and he shall so certify;

(3) The application for a permit shall be accompanied by *five (5)* [two (2)] copies of a United States geological survey topographic map *or such other map acceptable to the department* on which the operator has indicated the location of the operation, the course which would be taken by drainage from the operation to the stream or streams to which such drainage would normally flow, the name of the applicant and date, and the name of the person who located the operation on the map;

(4) The application for a permit shall be accompanied by *five (5)* [two (2)] copies of an enlarged United States geological survey topographic map *or such other map acceptable to the department* meeting the

requirements of the subsections below. The map shall:

(a) Be prepared and certified by a professional engineer, registered under the provisions of KRS chapter 322. The certification shall be in the form as provided in subsection (5) below;

(b) Identify the area to correspond with the application;

(c) Show adjacent deep mining and the boundaries of surface properties and names of owners on the affected area and within five hundred (500) feet of any part of the affected area;

(d) Be of a scale of not less than four hundred (400) feet to the inch and not to exceed six hundred and sixty (660) feet to the inch;

(e) Show the names and locations of all streams, creeks, or other bodies of public water, roads, buildings, cemeteries, oil and gas wells, and utility lines on the area of land affected and within five hundred (500) feet of such area;

(f) Show by appropriate markings the boundaries of the area of land affected, the cropline of the seam or deposit of coal to be mined, and the total number of acres involved in the area of land affected;

(g) Show the date on which the map was prepared, the north point and the quadrangle name;

(h) Show the drainage plan on and away from the area of land affected. Such plan shall indicate the directional flow of water, constructed drainways, natural waterways used for drainage, and the streams or tributaries receiving the discharge;

(5) The certification of the maps by the professional engineer shall read as follows: "I, the undersigned, hereby certify that this map is correct, and shows to the best of my knowledge and belief all the information required by the strip mining laws of this state." The certification shall be signed and notarized. The department may reject any map as incomplete if its accuracy is not so attested;

(6) The application for a permit shall be accompanied by a transportation plan which shall set forth the portions of the state primary road system, if any, over which the applicant proposes to transport minerals extracted in the mining operation. The transportation plan shall specify the legal weight limits for each portion of any such highway or bridge over which the applicant proposes to transport minerals. The transportation plan shall include any proposal by the applicant to obtain a special permit pursuant to the provisions of KRS 189.271 to exceed the weight limits on any highway or bridge. The transportation plan shall contain a certification by a duly authorized official of the department of transportation attesting the accuracy of the transportation plan in regard to the locations and identities of highways and bridges on the state primary road system and the accuracy of the specifications of weight limits on such highways and bridges.

(7) In addition to the information and maps required above, each application for a permit shall be accompanied by detailed plans or proposals showing the method of operation, the manner, time and distance for backfilling, grading work and a reclamation plan for the affected area, which proposals shall meet the requirements of this chapter and rules and regulations adopted pursuant thereto.

(8) Each application shall also be accompanied by a statement of consent to have strip mining conducted upon the area of land described in the application for a permit. The statement of consent shall be signed by each holder of a freehold interest in such land. Each signature shall be notarized. No permit shall be issued if the application therefor is not accompanied by the statement of consent. This statement of consent shall not be required for coal mined under the provisions of KRS chapters 351 and 352.

(9) A basic fee of one hundred and fifty dollars ($150) plus thirty-five dollars ($35.00) for each acre or fraction thereof of the area of land to be affected by the operation shall be paid before the permit required herein shall be issued. The operator shall file with the department a bond payable to the Commonwealth of Kentucky with surety satisfactory to the department in the penal sum to be determined by the department on the recommendation of the secretary of not less than five hundred dollars ($500) nor more than three thousand dollars ($3,000) for each acre or fraction thereof of the area of land affected, with a minimum bond of five thousand dollars ($5,000), conditioned upon the faithful performance of the requirements set forth in this chapter and of the rules and regulations of the department. In determining the amount of the bond within the above limits, the department shall take into consideration the character and nature of the overburden, the future suitable use of the land involved and the cost of backfilling, grading and reclamation to be required. In a particular instance where the circumstances are such as to warrant an exception, the department, in its discretion, may reduce the amount of the bond for a particular operation to less than the required minimum.

(10) The department shall promulgate rules and regulations setting forth operation requirements for the extraction of coal for commercial purposes where the strip mining operation affects two (2) acres or less. Such regulations shall not be more stringent than those imposed on strip mining operations affecting more than two (2) acres. All performance, procedural, and notice requirements for strip mining operations which affect two (2) acres or less shall be promulgated by regulation pursuant to this subsection, except the enforcement provisions of KRS 350.130, the penalty provisions of KRS 350.990, the permitting requirements in subsection (1) of this section, and the bonding requirements set forth in subsection (9) of this section.

(11)(a) Any valid permit issued pursuant to this chapter shall carry with it the right of successive renewal upon expiration with respect to areas within the boundaries of the existing permit. The holders of the permit may apply for renewal and such renewal shall be issued (provided that on application for renewal the

burden shall be on the opponents of renewal), and the public notice requirements of this chapter shall not apply unless it is established that and written findings by the department are made that:

1. The terms and conditions of the existing permit are not being satisfactorily met;

2. The present strip coal mining and reclamation operation is not in compliance with the environmental protection standards of this chapter;

3. The renewal requested substantially jeopardizes the operator's continuing responsibility on existing permit areas;

4. The operator has not provided evidence that the performance bond in effect for any renewal requested in such application as well as any additional bond the department might require; or

5. Any additional revised or updated information required by the department has not been provided. Prior to the approval of any renewal of permit the department shall provide notice to the appropriate public authorities.

(b) If an application for renewal of a valid permit includes a proposal to extend the mining operation beyond the boundaries authorized in the existing permit, the portion of the application for renewal of a valid permit which addresses any new land areas shall be subject to the full standards applicable to new applications under this chapter;

(c) Any permit renewal shall be for a term not to exceed the period of the original permit. Application for permit renewal shall be made not later than thirty (30) working days prior to the expiration of the valid permit.

Section 24. KRS 350.070 is amended to read as follows:

The department may increase or reduce the area of land affected by an operation under a permit on application by an operator, but an increase shall not extend the period for which an original permit was issued. An operator may, at any time *during the term* [within one (1) year from the date of issuance] of the permit, apply to the department for an amendment of the permit so as to increase or reduce the acreage affected by it. The operator shall file an application and map in the same form and with the same content as required for an original application under this chapter and shall pay a basic fee of one hundred and fifty dollars ($150), plus a fee of thirty-five dollars ($35.00) for each acre or fraction of acre for the increase requested, and shall file with the department a supplemental bond in the amount to be determined under the provisions of KRS 350.060 for each acre or fraction of an acre of the increase approved. If the department approves a reduction in the acreage covered by the original or supplemental permit, it shall release the bond for each acre reduced, but in no case shall the bond be reduced below five thousand dollars ($5,000), except as provided in subsection (7) of KRS 350.060. If the department approves a reduction in acreage covered by the original or supplemental permit, it shall transfer the acreage fee for each acre reduced to acreage fees in subsequent permit applications by the operator.

Section 25. KRS 224.037 is amended to read as follows:

The department is hereby designated as the water pollution agency for this state and for any city, county, or district, or authority within this state for all purposes of the Water Pollution Control Act (Public Law 80-845 approved June 30, 1948), as amended; as air pollution agency for this state for all purposes of the Federal Air Quality Act (Public Law 90-148, approved November 21, 1948), as amended, and as solid waste agency for this state for all purposes of the Federal Solid Waste Disposal Act (Public Law 89-272, approved October 20, 1965), as amended, *and as the surface mining agency for this state for all purposes of the federal surface mining control and reclamation act (Public Law 95-87, approved August 3, 1977), as amended.* The department may take all action necessary or appropriate to secure to this state and all cities, counties, districts, and authorities within this state the benefits of such federal acts.

SECTION 26. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

Where the issuance of an injunction by any court of competent jurisdiction enjoins the enforcement of the provisions contained in this Act, which are the same as the Initial Regulatory Procedures of Section 502 of Public Law 95-87, "Surface Mining Control and Reclamation Act of 1977," or where this Act is held to be invalid, the remaining provisions of this chapter shall not be affected thereby.

Section 27. KRS 350.135 is amended to read as follows:

(1) Where one operator succeeds another at any uncompleted operation, either by sale, assignment, lease or otherwise, the department may release the first operator from all liability under this chapter as to that particular operation: Provided, however, That *the successor operator has* [both operators have] been issued a permit and *has* [have] otherwise complied with the requirements of this chapter, and the successor operator assumes as part of his obligation under this chapter, all liability for the reclamation of the area of land affected by the former operator.

(2) A successor in interest to a permittee who applies for a new permit within thirty (30) days of succeeding to such interest and who is able to obtain the bond coverage of the original permittee may continue strip mining and reclamation operations according to the approved mining and reclamation plan of the original permittee until such successor's application is granted or denied.

Section 28. KRS 350.220, Regulation of use of explosives, is repealed.

Section 29. Whereas, the U.S. government requires certain performance standards for strip mining and reclamation in the states to be complied with by February 3, 1978 and by May 3, 1978, an emergency is declared to exist and this Act shall become effective on May 3, 1978.

The Committee Amendment No. 1 to **SB 273** is as follows:

Amend printed copy of **SB 273,** page 3, after line 6, by adding:

"(f) Procedures for the assumption of the small operator assistance program pursuant to the Surface Mining Control and Reclamation Act of 1977 (PL 95-87). The Department shall assume and implement that program and apply for and administer funds as may be provided pursuant to that Act."

The Committee Amendment No. 2 to **SB 273** is as follows:

Amend printed copy of **SB 273,** page 47, after line 3, by adding the following:

"SECTION 26. A NEW SECTION OF KRS CHAPTER 350 IS CREATED TO READ AS FOLLOWS:

(1) The provisions of this section and regulations promulgated pursuant thereto (except with regard to the mining of clay, limestone, sand, gravel, fluorspar, stone, and rock asphalt) shall apply to the regulation of all surface coal mining and reclamation operations in the Commonwealth in the event that the Commonwealth receives from the United States department of interior and pursuant to the surface mining control and reclamation act of 1977 (PL 95-87) approval of a permanent state regulatory program, and the Commonwealth has promulgated regulations pursuant to this section.

(2) The department for natural resources and environmental protection is hereby authorized and directed to prepare, develop and promulgate a comprehensive permanent regulatory program for the implementation of the surface mining control and reclamation act of 1977 (PL 95-87) for the purpose of accepting and administering primary enforcement responsibilities pursuant to that Act. The implementation of this section shall contain procedures similar to the surface mining control and reclamation act of 1977 (PL 95-87) and shall require surface coal mining operation performance standards no more stringent than provided for in that Act. Nothing herein shall be construed to empower the department to adopt a regulatory program in conflict with the policy and purposes of the surface mining control and reclamation act of 1977 (PL 95-87). To that end, the department for natural resources and environmental protection shall include in its permanent regulatory program:

(a) Environmental protection performance standards to prevent or minimize the adverse environmental effects of surface coal mining and reclamation operations on the land and water resources of the Commonwealth.

(b) A procedure for designating as being unsuitable for mining certain lands because of their topographical, geological, hydrological, climatological, biological, or chemical characteristics or historical, cultural, scientific or aesthetic values.

(c) Procedures for the allowance of those persons having a valid legal interest which is or may be adversely affected to have the opportunity to be heard at every significant or critical part of the administrative and judicial process.

(d) Procedures for the administrative and judicial review of all actions of the department to administer and enforce the provisions of this Act.

(e) Plans and procedures for the reclamation and restoration of land and water resources affected by mining which have been abandoned or inadequately reclaimed to the standards imposed by this section and for which no bond is held or legal obligation to reclaim continues. Such plan shall include provisions for the imposition of liens for necessary reclamation expenditures made on private property.

(f) Procedures for the assumption of the small operator assistance program pursuant to the surface mining control and reclamation act of 1977 (PL 95-87). The department shall assume and implement that program and apply for and administer funds as may be provided pursuant to that Act.

(3) In addition to any other authority, power and duty vested in it by law, the department shall have and exercise broad authority, power and duty to:

(a) Require those persons who wish to engage in surface coal mining and reclamation operations to submit application for a permit from the department to conduct such operations, and to include in that application all information required by the department pertaining to that operation.

(b) Issue, deny, modify or suspend under such conditions as the department may prescribe, permits to conduct surface coal mining and reclamation operations within the Commonwealth.

(c) Enter and inspect any permitted surface coal mining and reclamation operation or any known or suspected unpermitted mining operation for the purpose of ascertaining compliance with any provision of this section or of the permit.

(d) Order the cessation of mining activities, and if necessary impose affirmative abatement obligations, upon the operator when, upon inspection, the department determines that this section or any permit condition is being or has been violated so as to constitute an imminent and inordinate peril to the welfare of the Commonwealth.

(e) Order an operator to comply with the requirements of this section or his permit if inspection reveals a violation of the conditions of his permit or of any provision of this section.

(f) Order an operator to appear and show cause why his permit should not be revoked and his bond forfeited if the department determines that the operator or the permitted operation has a pattern of violations of this section or permit conditions, and has wilfully violated this section or permit conditions or a pattern of violations exists and that such violations are caused by the permittees' unwarranted failure to comply with this section or permit conditions.

(g) Require, increase, release or decrease, under such conditions as the department may prescribe reclamation performance bonds and cause the forfeiture and collection of those bonds where the permittee has abandoned the operation or for which the permit under which the bond was given has been revoked or has expired without the required reclamation.

(h) To administratively impose, in lieu of those civil penalties provided for in KRS 350.990, civil penalties of up to $5,000 per day for violations of permit conditions, this section, or any orders of the department and enforce the administrative assessment of such penalties by initiating civil action in the Franklin circuit court or in any court having jurisdiction of the defendant.

(i) Conduct hearings and make investigations of any matter relating to the regulation of surface coal mining and reclamation operations.

(j) Provide for variances or exceptions from or in addition to mining performance standards, recognizing the specific characteristics inherent in:

(a) steep slope mining

(b) mountaintop removal

(c) relatively low acreage disturbance or annual coal production

(d) prime farmland mining as defined by the United States department of agriculture, and to provide for other variances where land uses and watersheds will be improved

(e) post mining uses different from and as beneficial as the pre-mining uses

(k) Receive and expend funds or aid from whatever source to accomplish the purposes of this Act.

(l) Propose and promulgate regulations to accomplish the purposes of this section.

(4) The department shall not promulgate regulations which are inconsistent with the surface mining control and reclamation act of 1977 (PL 95-87).

(5) Any person who violates a provision of this section or the regulations promulgated pursuant thereto shall be subject to those penalties and remedies set forth in KRS 350.990 except as provided for in (h) herein.

Section 27. For the purposes of regulations promulgated under the provisions of Section 28 of this Act, the interim joint committee on agriculture and natural resources shall have the same authority and responsibility as the administrative regulations review subcommittee has under KRS Chapter 13. Following the regulations review by the interim committee the same shall be reviewed by the administrative regulations review subcommittee for the purposes of KRS Chapter 13.

Section 28. Section 26 and 27 of this Act shall become effective June 1, 1979."

And by renumbering all subsequent sections.

SB 281, AN ACT relating to mining.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 350.020 is amended to read as follows:

The general assembly finds *that the Commonwealth is the leading producer of coal and that the production of coal in Kentucky contributes significantly to the nation's energy needs. The general assembly further finds* that the unregulated strip mining of coal causes soil erosion, damage from rolling stones and overburden, landslides, stream pollution, the accumulation of stagnant water and the seepage of contaminated water, increases the likelihood of floods, destroys the value of land for agricultural purposes, destroys aesthetic values, counteracts efforts for the conservation of soil, water and other natural resources, destroys or impairs the property rights of citizens, creates fire hazards, and in general creates hazards dangerous to life and property, so as to constitute an imminent and inordinate peril to the welfare of the Commonwealth. The general assembly further finds that lands that have been subjected to strip mining and have not been reclaimed and rehabilitated in accordance with modern standards constitute the aforementioned perils to the welfare of the Commonwealth. The general assembly further finds that there are wide variations in the circumstances and conditions surrounding and arising out of the strip mining of coal due primarily to difference in topographical and geological conditions, and by reason thereof it is necessary, in order to provide the most effective, beneficial and equitable solution to the problem, that a broad discretion be vested in the authority designated to administer and enforce the regulatory provisions enacted by the general assembly. Therefore, it is the purpose of this chapter to provide such regulation and control of the strip mining of coal as to minimize or prevent its injurious effects on the people and resources of the Commonwealth. To that end, the [division and the] department *is* [are] directed to rigidly enforce this chapter and to adopt whatever regulations are found necessary to accomplish the purpose of this chapter.

Section 2. KRS 350.035 is amended to read as follows:

There is established within the department a bureau of surface mining reclamation and enforcement which shall be headed by a commissioner appointed by the secretary with the approval of the governor as required by KRS 12.050. The secretary shall divide the bureau into a division of permits, division of standards and specifications, division of operations and enforcement, division of orphan land reclamation, and any other offices or divisions as the secretary may deem necessary to perform the functions, powers and duties of the bureau, subject to the provisions of KRS Chapter 12. [The director of the division of reclamation shall be appointed by the commissioner of environmental protection in accordance with KRS 12.050.]

Section 3. KRS 350.050 is amended to read as follows:

The department for natural resources and environmental protection under the supervision of the secretary of the department for natural resources and environmental protection shall have and exercise the following authority and powers:

(1) To exercise general supervision and administration and enforcement of this chapter and all rules and regulations and orders promulgated thereunder;

(2) To encourage and conduct investigations, research, experiments and demonstrations, and to collect and disseminate information relating to strip mining and reclamation of lands and waters affected by strip mining;

(3) To adopt, without hearing, *internal procedures* [rules and regulations] with respect to the filing of reports, the issuance of permits and other matters of procedure and administration;

(4) To examine and pass upon all plans and specifications submitted by the operator for the method of operation, backfilling, grading and for the reclamation of the area of land affected by his operation;

(5) To make investigations or inspections which may be deemed necessary to insure compliance with any provision of this chapter;

(6) To order, through personnel of the department, the suspension of any permit for failure to comply with any of the provisions of this chapter or any regulations adopted pursuant thereto;

(7) To order, through personnel of the department, the stopping of any operation that is started without first having secured a permit as required by this chapter.

Section 4. KRS 350.060 is amended to read as follows:

(1) No operator shall engage in strip mining without having first obtained from the department a permit designating the area of land affected by the operation. The permit shall authorize the operator to engage in strip mining upon the area of land described in his application for a period of one (1) year from the date of its issuance;

(2) An operator desiring a permit shall file an application which shall state:

(a) The location and area of land to be affected by the operation, with a description of access to the area from the nearest public highways;

(b) The owner or owners of the surface of the area of land to be affected by the permit and the owner or owners of all surface area within five hundred (500) feet of any part of the affected area;

(c) The owner or owners of the coal to be mined;

(d) The source of the applicant's legal right to mine the coal on the land affected by the permit;

(3) The application for a permit shall be accompanied by two (2) copies of a United States geological survey topographic map on which the operator has indicated the location of the operation, the course which would be taken by drainage from the operation to the stream or streams to which such drainage would normally flow, the name of the applicant and date, and the name of the person who located the operation on the map;

(4) The application for a permit shall be accompanied by two (2) copies of an enlarged United States geological survey topographic map meeting the requirements of the subsections below. The map shall:

(a) Be prepared and certified by a professional engineer, registered under the provisions of KRS chapter 322. The certification shall be in the form as provided in subsection (5) below;

(b) Identify the area to correspond with the application;

(c) Show adjacent deep mining and the boundaries of surface properties and names of owners on the affected area and within five hundred (500) feet of any part of the affected area;

(g) Show the date on which the map was prepared, the north point and the quadrangle name;

(h) Show the drainage plan on and away from the area of land affected. Such plan shall indicate the directional flow of water, constructed drainways, natural waterways used for drainage, and the streams or tributaries receiving the discharge;

(5) The certification of the maps by the professional engineer shall read as follows: "I, the undersigned, hereby certify that this map is correct, and shows to the best of my knowledge and belief all the information required by the strip mining laws of this state." The certification shall be signed and notarized. The department may reject any map as incomplete if its accuracy is not so attested;

(6) The application for a permit shall be accompanied by a transportation plan which shall set forth the portions of the state primary road system, if any, over which the applicant proposes to transport minerals extracted in the mining operation. The transportation plan shall specify the legal weight limits for each portion of any such highway or bridge over which the applicant proposes to transport minerals. The transportation plan shall include any proposal by the applicant to obtain a special permit pursuant to the provisions of KRS 189.271 to exceed the weight limits on any highway or bridge. The transportation plan shall contain a certification by a duly authorized official of the department of transportation attesting the accuracy of the transportation plan in regard to the locations and identities of highways and bridges on the state primary road system and the accuracy of the specifications of weight limits on such highways and bridges.

(7) In addition to the information and maps required above, each application for a permit shall be accompanied by detailed plans or proposals showing the method of operation, the manner, time and distance for backfilling, grading work and a reclamation plan for the affected area, which proposals shall meet the requirements of this chapter and rules and regulations adopted pursuant thereto.

(8) Each application shall also be accompanied by a statement of consent to have strip mining conducted upon the area of land described in the application for a permit. The statement of consent shall be signed by each holder of a freehold interest in such land. Each signature shall be notarized. No permit shall be issued if the application therefor is not accompanied by the statement of consent. This statement of consent shall not be required for coal mined under the provisions of KRS chapters 351 and 352.

(9) A basic fee *set by regulation, and bearing a reasonable relationship to the cost of processing the permit application but not to exceed two hundred and fifty dollars ($250)* [of one hundred and fifty dollars ($150)] plus *a fee set by regulation but not to exceed fifty dollars ($50.00)* [thirty-five dollars ($35.00)] for each acre or fraction thereof of the area of land to be affected by the operation shall be paid before the permit required herein shall be issued. The operator shall file with the department a bond payable to the Commonwealth of Kentucky with surety satisfactory to the department in the penal sum to be determined by the department on the recommendation of the secretary of not less than five hundred dollars ($500) nor more than three thousand dollars ($3,000) for each acre or fraction thereof of the area of land affected, with a

minimum bond of five thousand dollars ($5,000), conditioned upon the faithful performance of the requirements set forth in this chapter and of the rules and regulations of the department. In determining the amount of the bond within the above limits, the department shall take into consideration the character and nature of the overburden, the future suitable use of the land involved and the cost of backfilling, grading and reclamation to be required. In a particular instance where the circumstances are such as to warrant an exception, the department, in its discretion, may reduce the amount of the bond for a particular operation to less than the required minimum.

Section 5. KRS 350.070 is amended to read as follows:

The department may increase or reduce the area of land affected by an operation under a permit on application by an operator, but an increase shall not extend the period for which an original permit was issued. An operator may, at any time within one (1) year from the date of issuance of the permit, apply to the department for an amendment of the permit so as to increase or reduce the acreage affected by it. The operator shall file an application and map in the same form and with the same content as required for an original application under this chapter and shall pay a basic fee *set by regulation and bearing a reasonable relationship to the cost of processing the permit application but not to exceed two hundred and fifty dollars ($250)* [of one hundred and fifty dollars ($150)], plus a fee *set by regulation but not to exceed fifty dollars ($50.00)* [of thirty-five dollars ($35.00)] for each acre or fraction of acre for the increase requested, and shall file with the department a supplemental bond in the amount to be determined under the provisions of KRS 350.060 for each acre or fraction of an acre of the increase approved. If the department approves a reduction in the acreage covered by the original or supplemental permit, it shall release the bond for each acre reduced, but in no case shall the bond be reduced below five thousand dollars ($5,000), except as provided in subsection (7) of KRS 350.060. If the department approves a reduction in acreage covered by the original or supplemental permit, it shall transfer the acreage fee for each acre reduced to acreage fees in subsequent permit applications by the operator. by the operator.

Section 6. KRS 350.113 is amended to read as follows:

(1) When the planting of a permit area is completed, the operator shall file a planting report with the department on a form to be prescribed and furnished by the department, giving the following information:

(a) Identification of the operation;
(b) The type of planting or seeding, including mixtures and amounts;
(c) The date of planting or seeding;
(d) The area of land planted;
(e) Such other relevant information as the *department* [director] may require;

(2) All planting reports shall be certified by the operator;

(3) Inspection and evaluation for vegetative cover shall be made as soon as it is possible to determine if a satisfactory stand has been established. In no instance shall this vegetative cover check be made until just prior to or after the completion of the first growing season. If the department determines that a satisfactory vegetative cover has been established, it shall then release the remaining bond held on the area reclaimed.

Section 7. KRS 350.150 is amended to read as follows:

(1) In the reclamation of land affected by strip mining for which it has funds available, the department may avail itself of any services which may be provided by other state agencies or by agencies of the federal government, and may compensate them for such services. The department may also receive any federal funds, state funds or any other funds for the reclamation of land affected by strip mining. The department may cause the reclamation work to be done by its own employes or by employes of other governmental agencies, soil conservation districts, or through contracts with qualified persons. Such contracts shall be awarded to the lowest responsible bidder upon competitive bids after reasonable advertisement. The department and any other agency and any contractor under a contract with the department shall have the right of access to the land affected to carry out such reclamation.

(2) Any funds available to the *department* [commission] and any public works program (both funds and services) may be used and expended to reclaim and rehabilitate any lands that have been subjected to strip mining that have not been reclaimed and rehabilitated in accordance with standards set by this chapter or regulations thereunder and which are not covered by bond to guarantee such reclamation.

(3) A person or organization, having qualifications acceptable to the department, may post bond or a cash deposit, in a sum determined by the department, and assume the liability for carrying out the reclamation plan approved by the department in areas where the mining operation and any necessary grading and backfilling have been completed. The department shall then release the bond posted by the operator for such area.

Section 8. KRS 350.154 is amended to read as follows:

The *department* [division of reclamation] shall have the power to backfill, grade, plant and perform other acts of restoration and reclamation, or contract for the performance of such restoration work, on any lands acquired under KRS 350.152 to 350.163 and 350.240, to the extent and subject to such conditions as state or federal funds are appropriated and available therefor.

Section 9. KRS 350.163 is amended to read as follows:

(1) The department is authorized and empowered to receive and accept from the Commonwealth or any of its agencies and from federal agencies appropriations or grants to accomplish the purposes of *this chapter* [KRS 350.152 to 350.163 and 350.240], and to receive and accept aid or contributions from any source of either money, property, labor or any other things of value, to accomplish the purposes of *this chapter* [KRS 350.152 to 350.163 and 350.240].

(2) All funds available or paid to the department under *this chapter* [KRS 350.152 to 350.163 and 350.240], shall be placed in the state treasury and credited pursuant to the terms of the appropriation, grant, aid or contribution.

Section 10. KRS 350.250 is amended to read as follows:

Any citizen of this Commonwealth having knowledge that any of the provisions of this chapter or regulations adopted thereunder are wilfully and deliberately not being enforced by any public officer or employe, whose duty it is to enforce such provisions of this chapter and regulations thereunder, may bring such failure to enforce the law to the attention of such public officer or employe. To provide against unreasonable and irresponsible demands being made, all such demands to enforce the law must be in writing, under oath, with facts set forth specifically stating the nature of the failure to enforce the law. *Any person who wilfully and knowingly states* [The stating of] false facts and charges in such affidavit shall *be* [constitute perjury and shall] subject [the affiant] to penalties provided under the law *for* [of] perjury. If such public officer or employe neglects or refuses for any unreasonable time after demand to enforce such provision, any such citizen shall have the right to bring an action of mandamus in the circuit court of the county in which the operation which relates to the alleged lack of enforcement is being conducted. The court, if satisfied that any provision of this chapter or regulation thereunder is not being enforced, *shall* [may] make an appropriate order compelling the public officer or employe, whose duty it is to enforce such provision, to perform his duties, and upon failure to do so such public officer or employe shall be held in contempt of court and shall be subject to the penalties provided by the laws of the Commonwealth in such cases.

Section 11. KRS 350.990 is amended to read as follows:

Such penalties shall be recoverable in an action brought in the name of the Commonwealth of Kentucky by the department's office of general counsel, or upon the secretary's request, by the attorney general. *The Franklin Circuit Court shall hold concurrent jurisdiction and venue of all civil and injunctive actions instituted by the department or by the attorney general on its behalf for the enforcement of the provisions of this chapter or the orders, rules, and regulations of the department promulgated pursuant thereto.* [in the Franklin Circuit Court or in the circuit court having jurisdiction of the defendant, and] All sums recovered shall be placed in the state treasury.

(2) *Any person who engages in strip mining without first securing a permit, as provided in KRS 350.060, or any person who engages in activities incident to a mine, as defined in KRS 352.010(1)(s) pursuant to KRS 350.151 without such authorization as may be required by the department shall be liable to a civil penalty for damages to the Commonwealth of not less than five thousand dollars ($5,000) nor more than twenty-five thousand dollars ($25,000) and in addition, may be enjoined from continuing such violations as hereinafter provided. Each day shall constitute a separate violation. However, the penalties provided for in subsection (1) of this section shall apply in lieu of the penalties provided for in this subsection where an operator through inadvertence has exceeded the boundaries of the permit in effect at that time.*

(3) It shall be the duty of the department's office of general counsel, or upon the secretary's request of the attorney general to bring an action for the recovery of the penalties herein provided for and to bring an action for a restraining order, temporary or permanent injunction, against any operator or other person violating or threatening to violate any of the provisions of this chapter or violating or threatening to violate any order or determination promulgated pursuant to the provisions of this chapter. *The Franklin Circuit Court*

shall hold concurrent jurisdiction and venue of all civil and injunctive actions instituted by the department or by the attorney general on its behalf for the enforcement of the provisions of this chapter or the orders, rules, and regulations of the department promulgated pursuant thereto.

Section 13. If any provision of this Act or the applicability thereof to any person or circumstances is held invalid, the remainder of this Act and the application of such provision to other persons or circumstances shall not be affected thereby.

The Committee Amendment No. 1 to **SB 281** is as follows:

Amend printed copy of **SB 281,** page 19, lines 1 through 8, by deleting lines 1 through 8 in their entirety;

and on line 9, by renumbering Section 13 as Section 12.

SB 304, AN ACT relating to blasting.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 351.330 is amended to read as follows:

(1) Blasting of explosives for use in the neighborhood of any public highway, stream of water, dwelling house, public building, school, church, commercial or institutional building, pipeline, or utility shall be done in accordance with the provisions of this section, and rules and regulations promulgated by the department.

(2) Where necessary in a blasting operation, the department may require that the operator submit a blasting plan to the department for approval.

(3) In all blasting operations, except as hereinafter otherwise provided, the maximum peak particle velocity of the ground motion in any direction shall not exceed two inches per second at the immediate location of any dwelling house, public building, school, church, commercial or institutional building and the particle velocity at such location immediately after a period of one second following the peak particle velocity produced by any charge shall not continuously exceed one-half inch per second.

(4) Blasting operations without instrumentation will be considered as being within the limits set forth in this subsection if such blasting operations are conducted in accordance with rules and regulations of the department establishing the maximum amount of explosives to be used in a single charge and in a single subcharge within specified distances from any location provided by subsection (1). No more than 40,000 pounds of explosives may be used in any charge except with the approval of the commissioner. Regulations promulgated by the department pursuant to this subsection shall be in such terms that compliance therewith will assure compliance with the provisions of subsection (3).

(5) No two consecutive subcharges containing the maximum permitted by the department pursuant to this subsection shall have a detonation time separated by less than eight milliseconds, except that if the amount of explosive used in any subcharge is less than maximum permitted by the department pursuant to subsection (4), the time delay between detonation times may be decreased in the same ratio.

(6) Any blasting operation may be conducted without reference to any maximum amount or period provided by or pursuant to subsection (4) if the operator of such blasting operation demonstrates by instrumentation that maximum particle velocity of the ground motion in any direction does not exceed the limits provided in subsection (3).

(7) Instruments for determining particle velocity as set forth in this subsection shall be limited to such specific types of devices as shall have been expressly approved by the department and the commissioner or his duly authorized agent may enter upon any premises for the purpose of conducting or supervising any necessary instrumentations provided by KRS 351.315 to 351.375.

(8) When blasting operations are contemplated which would result in ground vibrations that would have a particle velocity in any direction in excess of 2 inches per second at the immediate location of any dwelling house, public building, school, church, commercial or institutional building, blasting operations may proceed after receiving written consent from the property owner or owners affected.

(9) When blasting operations, other than those conducted at a fixed site as a part of any industry or business operated at such site, are to be conducted within the vicinity of a pipeline or public utility, the blaster or person in charge of the blasting operations shall take due precautionary measures for the protection of the pipeline or utility, and shall give adequate notice to the owner or his agent that such blasting operations are intended. The blaster shall be subject to regulations promulgated by the department concerning such blasting operation.

(10) Blasting operations near streams shall be prohibited in all cases where the effect of the blasting is liable to change the course or channel of any stream without first obtaining a permit from the department which has been approved by the division of water in the department for natural resources and environmental protection.

(11) Blasting operations shall not be conducted within eight hundred feet of any public highway, unless due precautionary measures are taken to safeguard the public.

(12) Mudcapping in blasting operations shall be permitted only where it would endanger the safety of the workers to drill the rock or material to be blasted. If mudcapping is necessary, no more than ten pounds of explosives shall be used for each charge.

(13) When the use of detonating cord would cause severe air blast the department may cause all trunk lines to be covered by 5 to 6 inches of loose earth.

(14) In blasting operations, flying rocks shall not be allowed to fall greater than one-half the distance between the blast and a dwelling house, public building, school, church, commercial or institutional building. Protective material shall be used to insure this limit.

(15) When a blast is about to be fired, ample warning shall be given to allow all persons to retreat to a safe place, and care shall be taken to ascertain that all persons are in the clear. Each operator shall follow a definite plan of warning signals that can be clearly seen or heard by anyone in the blasting area. The operator shall inform all employes at the operation as to the established procedure.

(16) No persons shall use explosives in such manner that safety to persons or property is threatened.

(17) The two (2) inch per second maximum peak particle velocity as specified in subsections three (3) and eight (8) of this section shall be construed as the threshold below which blasting damage is unlikely to occur. However, the department shall have the authority to promulgate regulations requiring more restrictive levels of maximum peak particle velocity when necessary to maintain consistency with federal statutes or regulations.

Section 2. KRS 351.335 is amended to read as follows:

(1) The department shall have the authority for promulgating regulations concerning the manufacture, transportation, sale, storage, or use of explosives and unassembled components of explosives *including, but not limited to, airblasts, pre-blast surveys, and blasting schedules,* and the maintenance of such explosives which has a direct bearing on safety to life and property, and any other rules and regulations necessary to effectuate the provisions of KRS 351.315 to 351.375 *or which are consistent with the provisions of the federal surface mining control and reclamation act of 1977, and amendments thereto, pertaining to blasting or explosives, or any rule or regulation promulgated thereunder pertaining to blasting or explosives.* No portion of KRS 351.315 to 351.375 shall apply in any manner to the manufacture, transportation, sale, storage, possession, or use of:

(a) Loaded ammunition for use in small arms or other weapons; or

(6) Require reports from the executive officer of each institution it deems necessary for the effectual performance of its duties.

(7) Publish annually a report of the educational and financial affairs of the institutions and disseminate other information relating to higher education.

Review proposals and make recommendations to the governor regarding the establishment of new state-supported community colleges and new four-year colleges. Provided, nothing in KRS 164.010, 164.020, 164.125, and 164.290 to 164.295 shall be construed to grant the council on public higher education authority to disestablish or eliminate any college of law which became a part of the state system of higher education through merger with a state college.

(9) Prescribe the curricula for teacher education.

(10) Elect a chairman annually from the voting membership and appoint an executive director and such staff as may be needed and fix their compensation without limitation of the provisions of KRS chapter 18 and KRS 64.640 subject to the approval of the commissioner of personnel and the commissioner of the executive department for finance and administration.

(1) The secretary-treasurer of the board shall notify every licensee of the date of the expiration of his license and the amount of the fee required for its renewal for one (1) year. Such notice shall be mailed at least one (1) month in advance of the expiration date. Renewals may be effected at any time during June by the payment of a fee not exceeding *twenty* [ten] dollars *($20)* [($10.00)]. The failure of any licensee to renew his license annually in June shall not deprive him of the right of renewal, but the fee to be paid for the renewal of a license after June shall be increased ten per cent (10%) for each month or fraction of a month that payment of renewal is delayed. But the maximum fee for delayed renewal shall not exceed twice the normal renewal fee. Any person who fails to renew his license within one (1) year after expiration shall furnish the board with satisfactory evidence that he is of good character and reputation and has continued to uphold the ethics of the profession.
(2) All persons who are required to pay renewal fees to the board [as licensed engineers] shall not be required to pay such fees during the time such persons are actively serving in the armed forces of the United States. Any person who has previously paid any renewal fee covering a period during which he was actively serving in the armed forces of the United States shall, upon filing with the board a copy of his discharge, be granted a renewal license without the payment of any fee. The free renewal shall be for as many license years as were served by the licensee in the armed forces and which were covered in whole or in part by the previous payment of a renewal fee.

Section 10. KRS 322.420 is amended to read as follows:
(1) All applications for licensing and registration as a land surveyor shall be made upon forms to be provided by the board and shall be signed and sworn to by the applicant. In addition to such other information as the board may require, all applications shall contain a statement of the applicant's educational attainments and record of experience. References shall be furnished therein to not less than five persons possessing direct personal knowledge of the experience and work done by the applicant, at least three of whom shall be registered land surveyors. Applications shall be filed with the secretary to the board and shall be accompanied by an application fee, to be fixed by the board, in an amount not to exceed *$75* [$50]. In the event that the board shall, for good cause, deny the application, the fee accompanying the same shall be retained by the board to cover the cost of investigating and processing the same.

(2) [Licenses for land surveyors shall expire on the last day of June of each year. All certificates shall be renewed upon the payment to the board, not to exceed the sum of $10. Any person previously licensed who shall fail to obtain a renewal of his license on or prior to July 1st shall be automatically suspended from the further practice of land surveying. Any licensed land surveyor whose license has expired or who has been suspended from the practice by action of the board may be reinstated upon such conditions as the board may by regulation prescribe, including the payment of such additional fees as may be provided in such regulations.

(3)] All fees paid to and collected by the board under the provisions of this section shall be deposited in a depository designated by the board and disbursed only at the direction of the board. The officer or employe of the board who shall be designated to collect and disburse the funds represented by such fees shall be required to execute a bond, with corporate surety, in an amount to be determined by the board and reasonably calculated to cover the aggregate of such fees for a period of one year."

(2) The agency shall be evaluated for need and performance. In evaluating need, it must be deomonstrated that the benefits to the public clearly outweigh the burden which regulation imposes and the burden of proof is on the agency. The following criteria shall be considered in evaluating need:

(a) Would the absence of regulation significantly harm or endanger the public health, safety or welfare?

(b) Is there a reasonable relationship between the exercise of the state's police power and the protection of the public health, safety or welfare?

(c) Is there another less restrictive method of regulation available which could adequately protect the public?

(d) Does the regulation have the effect of directly or indirectly increasing the costs of any goods or services involved, and if so, to what degree?

(e) Is the increase in cost more harmful to the public than the harm which could result from the absence of regulation?

(f) Are all facets of the regulatory process designed solely for the purpose of, and have as their primary effect, the protection of the public?

(3) If it is determined that a regulatory function is not needed, the evaluation report shall recommend that the respective agency be allowed to terminate. If, however, it is determined that a regulatory function is needed, the function will be additionally evaluated on its effectiveness and efficiency in executing its regulatory responsibilities. This evaluation shall include but not be limited to the following criteria:

(a) Has the agency permitted qualified applicants to serve the public?

(b) Has the agency supported affirmative action requirements by licensing minorities and women?

(c) Has the agency operated for the benefit of its licensees as opposed to the public interest?

(d) Has the agency sought criticism aimed at improvements from the public and from its licensees?

(e) Has the agency recommended statutory changes that would benefit the public, as opposed to those it regulates?

(f) Has the agency encouraged participation by the public in rule- and decision-making, as opposed to participation by the person its regulates?

(g) Have complaints from the public been handled efficiently?

(4) All agencies being reviewed and evaluated shall cooperate with the Legislative Research Commission and shall supply any and all information required and requested by the Legislative Research Commission to conduct its review.

(5) No agency under review shall expend public funds for the purpose of influencing its evaluation, except for funds expended in the process of generating information and other documentation required and requested by the Legislative Research Commission.

SECTION 3. A NEW SECTION OF KRS CHAPTER 335A IS CREATED TO READ AS FOLLOWS:

(1) The Legislative Research Commission shall have completed its evaluation report on an agency one (1) year prior to its scheduled termination date. The report shall include the findings of the evaluation and recommendations as to the termination, continuation or continuation with modification of the agency. If continuation or continuation with modification is recommended, appropriate legislation shall be included with the report. This legislation shall be prefiled for the next regular session of the General Assembly.

(2) The life of any agency continued or continued with modification shall not exceed six (6) years. Any newly created agency as defined by this Act shall have a life not to exceed six (6) years and shall be reviewed and evaluated as to need and performance as provided in Sections 2 and 3 of this Act. Continuation of the life of an agency, with or without modification, shall not be deemed to give continued effect to any administrative regulation adopted by the agency prior to such continuation. The regulations of each agency that is continued, with or without modification, shall expire on the termination date specified in Section 1 of the Act unless the agency resubmits such regulations for review and filing in accordance with KRS Chapter 13.

Section 3. KRS 56.640 is amended to read as follows:

(1) If a state agency *or a utility* acquires real property for public use, it shall make fair and reasonable relocation payments to displaced persons and businesses as required by KRS 56.610 to 56.760, 416.140, and 416.470, for:

(a) actual reasonable expenses in moving himself, his family, business, farm operation, or other personal property;

(b) actual direct losses of tangible personal property as a result of moving or discontinuing a business or farm operation, but not to exceed an amount equal to the reasonable expenses that would have been required to relocate such property, as determined by the state agency *or utility*; and

(c) actual reasonable expenses in searching for a replacement business or farm.

(2) Any displaced person eligible for payments under subsection (1) of this section who is displaced from a dwelling and who elects to accept the payments authorized by this subsection in lieu of the payments authorized by subsection (1) of this section may receive a moving expense allowance, determined according to a schedule established by the state agency *or utility* and a dislocation allowance, such moving expense and dislocation allowances not to exceed the maximum amount of such allowances required by the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and any amendments thereto subsequently adopted.

(3) Any displaced person eligible for payments under subsection (1) of this section who is displaced from his place of business or from his farm operation and who elects to accept the payment authorized by this subsection in lieu of the payment authorized by subsection (1) of this section, may receive a fixed payment in an amount equal to the average annual net earnings of the business or farm operation, except that such payment shall be in the amount required by the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and any amendments thereto subsequently adopted. In the case of a business no payment shall be made under this subsection unless the state agency *or utility* is satisfied that the business cannot be relocated without a substantial loss of its existing patronage, and is not a part of a commercial enterprise having at least one other establishment not being acquired by the state, which is engaged in the same or similar business. For purposes of this subsection, the term "average annual net earning" means one-half of any net earnings of the business or farm operation, before federal, state, and local income taxes, during the two taxable years immediately preceding the taxable year in which such business or farm operation moves from the real property acquired for such project, or during such other period as such agency *or utility* determines to be more equitable for establishing such earnings, and includes any compensation paid by the business or farm operation to the owner, his spouse, or his dependents during such period.

Section 4. KRS 56.650 is amended to read as follows:

(1) In addition to payments otherwise authorized by KRS 56.610 to 56.760, 416.140, and 416.470, the state agency *or the utility* shall make an additional payment, not in excess of the maximum amount of such payment required by the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and any amendments thereto subsequently adopted, to any displaced person who is displaced from a dwelling actually owned and occupied by such displaced person for not less than one hundred and eighty days prior to the initiation of negotiations for the acquisition of the property. Such additional payment shall include the following elements:

(a) The amount, if any, which when added to the compensation for the dwelling acquired by the state agency *or utility* equals the reasonable cost of a comparable replacement dwelling which is a decent, safe, and sanitary dwelling adequate to accommodate such displaced person, reasonably accessible to public services and places of employment and available on the private market. All determinations required to carry out this paragraph shall be determined by regulations issued pursuant to KRS 56.690.

(b) The amount, if any, which will compensate such displaced person for any increased interest costs which such person is required to pay for financing the acquisition of any such comparable replacement dwelling. Such amount shall be paid only if the dwelling acquired was encumbered by a bona fide mortgage which was a valid lien on such dwelling for not less than one hundred and eighty days prior to the initiation of negotiations for the acquisition of such dwelling. Such amount shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the mortgage on the acquired dwelling, over the remainder term of the mortgage on the acquired dwelling, reduced to discounted present value. The discount rate shall be determined by regulations issued pursuant to KRS 56.690.

(c) Reasonable expenses incurred by such displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses.

(2) The additional payment authorized by this section shall be made only to such a displaced person who purchases and occupies a replacement dwelling which is decent, safe, and sanitary not later than the end of the one-year period beginning on the date on which he receives final payment of all costs of the acquired dwelling, or on the date on which he moves from the acquired dwelling, whichever is the later date.

Section 5. KRS 56.660 is amended to read as follows:

In addition to amounts otherwise authorized by KRS 56.610 to 56.760, 416.140, and 416.470, a state agency *or utility* shall make a payment to or for any displaced person displaced from any dwelling not eligible to receive a payment under KRS 56.640 which dwelling was actually and lawfully occupied by such displaced person for not less than ninety days prior to the initiation of negotiations for acquisition of such dwelling. Such payment shall be either:

(1) the amount necessary to enable such displaced person to lease or rent for a period not to exceed four years, a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and public and commercial facilities, and reasonably accessible to his place of employment, but not to exceed the maximum amount required by the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and any amendments thereto subsequently adopted, or

(2) The amount necessary to enable such person to make a downpayment (including incidental expenses described in KRS 56.650 (1) (c)), the purchase of a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and public and commercial facilities, in the amount and on the conditions as required by the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and any amendments thereto subsequently adopted.

Section 6. KRS 56.670 is amended to read as follows:

(1) Whenever the acquisition of real property for a program or project undertaken by a state agency *or utility* will result in the displacement of any person on or after June 16, 1972, such agency *or utility* shall provide a relocation assistance advisory program for displaced persons which shall offer the services prescribed in subsection (2) of this section. If the state agency *or utility* determines that any person occupying property immediately adjacent to the real property acquired is caused substantial economic injury because of the acquisition, it may offer such person relocation advisory services under such program.

(2) Each relocation assistance program required by subsection (1) shall include such measures, facilities, or services as may be necessary or appropriate in order to determine the needs of displaced persons, business concerns, and nonprofit organizations for relocation assistance; to assist owners of displaced businesses and farm operations in obtaining and becoming established in suitable business locations or replacement farms; to supply information concerning programs of the federal, state and local governments offering assistance to displaced persons and business concerns; to assist in minimizing hardships to displaced persons in adjusting to relocation; and to secure, to the greatest extent practicable, the coordination of relocation activities with other project activities and other planned or proposed governmental actions in the community or nearby areas which may affect the carrying out of the relocation program.

Section 7. KRS 56.680 is amended to read as follows:

Whenever the acquisition of real property for a program or project undertaken by a state agency *or utility* will result in the displacement of any person on or after June 16, 1972, such agency *or utility* shall assure that, within a reasonable period of time, prior to displacement there will be available, in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and individuals displaced, decent, safe and sanitary dwellings equal in number to the number of and available to such displaced persons who require such dwellings and reasonably accessible to their places of employment; except that regulations issued pursuant to KRS 56.690 may prescribe situations when these assurances may be waived.

Section 8. KRS 56.690 is amended to read as follows:

(1) The executive department for finance and administration shall adopt such rules and regulations as may be necessary to assure:

(a) That the payments and assistance authorized by KRS 56.610 to 56.760, 416.140, and 416.470 shall be administered in a manner which is fair and reasonable, and as uniform as practicable;

(b) That a displaced person who makes proper application for a payment authorized for such person by KRS 56.610 to 56.760, 416.140, and 416.470 shall be paid promptly after a move or, in hardship cases, be paid in advance; and

(c) That any person aggrieved by a determination as to eligibility for a payment authorized by KRS 56.610 to 56.760, 416.140, and 416.470, or the amount of a payment, may have his application reviewed by the head of the state agency *or by an officer of the utility.*

(2) The executive department for finance and administration may prescribe such other regulations and procedures, consistent with the provisions of KRS 56.610 to 56.760, 416.140, and 416.470, as it deems necessary or appropriate to carry out KRS 56.610 to 56.760, 416.140, and 416.470.

SB 301, AN ACT relating to solid waste.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 109 IS CREATED TO READ AS FOLLOWS:

The general assembly of the Commonwealth of Kentucky hereby finds, determines and declares, as follows:

(1) That an ever-increasing volume of solid waste within the Commonwealth is being generated as a result of increasing economic and commercial activity, continuing technological progress and changes in methods of manufacturing, packaging and marketing of consumer products, which results in additional solid wastes discarded by the users of such products;

(2) That the continued economic and population growth of the Commonwealth has required increased industrial and commercial expansion and has made necessary the demolition of obsolete structures, the construction of new structures, the provision of highways and other avenues of transportation and the construction and installation of public works which, together with pre-existing commercial, industrial and agricultural operations, have resulted in the generation of further volumes of solid wastes;

(3) That the handling of solid wastes has been primarily carried out through the dumping of such wastes on open soil and in landfills, which in some cases are inimical to the public health, safety and welfare;

(4) That by the enactment by the Congress of the United States of the Resource Conservation and Recovery Act of 1976 (Public Law 94-580), the collection, sanitary disposal and recovery of solid wastes has been determined to be a matter of nationwide importance, recognizing that the management of solid wastes should continue to be primarily the function of state, regional and local agencies; and that pursuant to such federal law, the Commonwealth has taken and will take certain actions in respect to the planning and implementation of solid waste plans within the guidelines of time requirements set forth in such federal law;

(5) That as a result of the conditions described in the foregoing findings, problems of solid waste collection, management and treatment and resource recovery activities in connection therewith have become a matter of state-wide concern necessitating action by the general assembly to (a) enable responsible planning and management agencies to be created to define solid waste management requirements, with all of the foregoing subject to regulation by the department for natural resources and environmental protection, and (b) assist those units of government primarily responsible for the management of solid waste and the acquisition, financing and operation of facilities to dispose of same to fulfill their functions in a responsible and proper manner with primary emphasis on the regionalization of such functions; and

(6) That it is the intent of the general assembly of the Commonwealth of Kentucky that the primary responsibility for adequate solid waste collection, management, treatment, disposal and resource recovery shall rest with counties, or combinations of cities and counties, subject to rules, regulations, criteria and requirements promulgated by the department for natural resources and environmental protection and subject to approval by such department of the implementation of solid waste collection, treatment, disposal, and resource recovery plans, all for the purpose of effectuating the safe and sanitary management, use and handling of solid waste, the protection of the health, welfare and safety of the citizens and inhabitants of the Commonwealth and for making the most efficient use of all resources for the benefit of the citizens and inhabitants of the Commonwealth.

(7) That the general assembly recognizes that the generation of solid waste is inevitable, but that much of it is unnecesary and should be discouraged; however, where solid waste does exist, it should be considered to the extent possible as a valuable resource, and be made use of wherever and whenever desirable and economically justifiable; therefore, it shall be the policy of the Commonwealth to, above all things, encourage resource conservation and preservation of our natural resources before such waste contributes in a needless fashion to the volumes of solid waste and litter produced by our society, but in dealing with existing solid waste, materials recovery from the solid waste stream is deemed to be the most environmentally sound alternative for handling waste. Energy recovery should be practiced as a preferable alternative to simple disposal.

(8) It is not the intent of this Act to prohibit or discourage the participation of the private sector in any aspect of solid waste management. Moreover, it is preferable for solid waste management functions to be performed by the private sector when such is in the best interests of the public and conforms with the policies and provisions set forth in this Act.

(9) It is the intent of the general asssembly that this Act provide counties with three (3) alternative approaches to the development and implementation of solid waste management plans. With the approval of the department, a single county in conjunction with the cities in that county may function as a solid waste management area as provided in Section 8 of this Act, or counties may elect to operate as multi-county areas in which they may agree to function pursuant to the terms of a contract as provided in Section 9 of this Act, or they may elect to operate as a district pursuant to Sections 10— 13 of this Act.

SECTION 4. A NEW SECTION OF KRS CHAPTER 109 IS CREATED TO READ AS FOLLOWS:

(1) The department shall promulgate rules, regulations, guidelines and criteria for cities, and counties in creating solid waste management areas and planning for the management and recovery of solid waste, consistent with the statewide plan.

(3) Any county or group of counties, or combination of cities and counties acting in accordance with the state comprehensive plan shall apply to the department for designation as a solid waste management area. Upon receipt of such application, the department shall either approve the creation of an area for solid waste management purposes or shall disapprove such application, and in the event of disapproval shall state in writing the reasons for such disapproval.

(4) Counties and cities are expressly authorized in addition to the powers enumerated in KRS Chapter 65 to contract with one another in order to regionalize solid waste management to the maximum extent practicable.

(5) In the event a solid waste management plan is prepared and submitted to and approved by the department by an area development district created pursuant to KRS Sections 147A.050 to 147A.120, inclusive, which includes any entire county or city, such county or city shall be deemed by the filing of such area development district plan to have complied with the provisions of this section.

SECTION 6. A NEW SECTION OF KRS CHAPTER 109 IS CREATED TO READ AS FOLLOWS:

(1) In addition to all other powers enumerated in Chapter 67 and other sections of the Kentucky Revised Statutes, counties, acting by and through their fiscal courts, may plan, initiate, acquire, construct and maintain solid waste management facilities and promulgate rules and regulations with respect thereto in accordance with this Act.

It is hereby determined and declared that in the implementation, acquisition, financing and maintenance of solid waste management facilities, and in respect of enforcement of use thereof, counties will be performing state functions duly delegated thereto for the public welfare. In such regard, the right of counties to condemn land necessary for the acquisition of solid waste management facilities pursuant to the Eminent Domain Act of Kentucky and to exercise the police power in respect thereto is confirmed. Any county may contract with third parties for the management by public or private means of solid waste within the county and may, as a condition of said contract, require that all solid waste generated within any such county and collected under the terms of said contract be conveyed to and handled by solid waste management facilities acquired pursuant to this Act, subject to the provision of subsection (3) of this section.

(2) No solid waste management facility shall be acquired and constructed until the construction thereof has been approved in writing by the department. Permits for sanitary landfills shall be issued only in accordance with the policy set forth in Section 1(7) of this Act. The department shall not allow the operation of any component of a solid waste management system in an area served by an approved solid waste management plan where the same would interfere with the successful implementation of the plan. Any operation or installation contrary to these provisions shall constitute a public nuisance and shall be abated by an injunction upon proper application by anyone aggrieved including the solid waste management area or the department. This section shall not be construed to prohibit any materials recovery operations unless it is established that such operation would jeopardize a city, county, or district's ability to meet financial obligations incurred in the maintenance, operation, or amortization of capital acquisition costs for a solid waste management facility.

(3) Any county undertaking the planning, implementation, construction, installation, acquisition and financing of a solid waste management facility pursuant to this Act shall have the authority set forth in Chapter 58 of the Kentucky Revised Statutes in respect of the financing of such solid waste management facility including the authority to promulgate, enforce and collect reasonable rates, rentals and charges for the use of such solid waste management facility and may require the use of such solid waste management facility by all persons, firms and governmental entities situated within the geographical boundaries thereof; provided, however, that in the case of any such action by any county such mandatory use of any solid waste management facility shall not be applicable to any city situated within the geographical boundaries of any such county which owns and operates a municipal solid waste management facility, and which complies with the intent and purposes herein provided, other than a sanitary landfill upon the effective date of this Act.

(4) Bonds authorized to be issued by any county pursuant to the authority of this Act for the financing of solid waste management facilities may be sold at either private or public sale as may in the sound discretion of the county be in the best interests of the county.

(5) Any county undertaking a solid waste management facility pursuant to the provisions of this Act may contract with any firm, person, corporation or governmental entity outside the geographical boundaries of such county for the provision of solid waste management services. In connection with the operation of such solid waste management facility, any such county may enter into contracts with any firm, person, corporation or governmental entity for any term of years for operation and maintenance of such facility.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 109 IS CREATED TO READ AS FOLLOWS:

The general assembly of the Commonwealth of Kentucky hereby finds, determines and declares, as follows:

(1) That an ever-increasing volume of solid waste within the Commonwealth is being generated as a result of increasing economic and commercial activity, continuing technological progress and changes in methods of manufacturing, packaging and marketing of consumer products, which results in additional solid wastes discarded by the users of such products;

(2) That the continued economic and population growth of the Commonwealth has required increased industrial and commercial expansion and has made necessary the demolition of obsolete structures, the construction of new structures, the provision of highways and other avenues of transportation and the construction and installation of public works which, together with pre-existing commercial, industrial and agricultural operations, have resulted in the generation of further volumes of solid wastes;

(3) That the handling of solid wastes has been primarily carried out through the dumping of such wastes on open soil and in landfills, which in some cases are inimical to the public health, safety and welfare;

(4) That by the enactment by the Congress of the United States of the Resource Conservation and Recovery Act of 1976 (Public Law 94-580), the collection, sanitary disposal and recovery of solid wastes has been determined to be a matter of nationwide importance, recognizing that the management of solid wastes should continue to be primarily the function of state, regional and local agencies; and that pursuant to such federal law, the Commonwealth has taken and will take certain actions in respect to the planning and implementation of solid waste plans within the guidelines of time requirements set forth in such federal law;

(5) That as a result of the conditions described in the foregoing findings, problems of solid waste collection, management and treatment and resource recovery activities in connection therewith have become a matter of state-wide concern necessitating action by the general assembly to (a) enable responsible planning and management agencies to be created to define solid waste management requirements, with all of the foregoing subject to regulation by the department for natural resources and environmental protection, and (b) assist those units of government primarily responsible for the management of solid waste and the acquisition, financing and operation of facilities to dispose of same to fulfill their functions in a responsible and proper manner with primary emphasis on the regionalization of such functions; and

(6) That it is the intent of the general assembly of the Commonwealth of Kentucky that the primary responsibility for adequate solid waste collection, management, treatment, disposal and resource recovery shall rest with counties, or combinations of cities and counties, subject to rules, regulations, criteria and requirements promulgated by the department for natural resources and environmental protection and subject to approval by such department of the implementation of solid waste collection, treatment, disposal, and resource recovery plans, all for the purpose of effectuating the safe and sanitary management, use and handling of solid waste, the protection of the health, welfare and safety of the citizens and inhabitants of the Commonwealth and for making the most efficient use of all resources for the benefit of the citizens and inhabitants of the Commonwealth.

(7) That the general assembly recognizes that the generation of solid waste is inevitable, but that much of it is unnecesary and should be discouraged; however, where solid waste does exist, it should be considered to the extent possible as a valuable resource, and be made use of wherever and whenever desirable and economically justifiable; therefore, it shall be the policy of the Commonwealth to, above all things, encourage resource conservation and preservation of our natural resources before such waste contributes in a needless fashion to the volumes of solid waste and litter produced by our society, but in dealing with existing solid waste, materials recovery from the solid waste stream is deemed to be the most environmentally sound alternative for handling waste.

(8) It is not the intent of this Act to prohibit or discourage the participation of the private sector in any aspect of solid waste management. Moreover, it is preferable for solid waste management functions to be performed by the private sector when such is in the best interests of the public and conforms with the policies and provisions set forth in this Act.

(9) It is the intent of the general asssembly that this Act provide counties with three (3) alternative approaches to the development and implementation of solid waste management plans. With the approval of the department, a single county in conjunction with the cities in that county may function as a solid waste management area as provided in Section 8 of this Act, or counties may elect to operate as multi-county areas in which they may agree to function pursuant to the terms of a contract as provided in Section 9 of this Act, or they may elect to operate as a district pursuant to Sections 10— 13 of this Act.

Section 1. KRS 81.160 is amended to read as follows:

(1) Whenever a [second-class] city *other than a city of the first class* desires to annex *all or part of a* [any] city of the second, third, [or] fourth, *fifth or sixth* class, *or unincorporated territory,* the legislative body

of the city proposing to annex shall pass an ordinance or resolution designating the city *or unincorporated territory* proposed to be annexed, declaring it desirable to annex the city *or unincorporated territory* and providing that the question of annexation shall be submitted to the qualified voters of the city *or unincorporated territory* to be annexed at the next regular election. Amend printed copy of Committee Substitute to **SB 252,** page 6, by inserting after line 26 the following language:

"Section 4. KRS 528.010 is amended to read as follows:

The following definitions apply in this chapter unless the context otherwise requires:

(1) "Advancing gambling activity" — A person "advances gambling activity" when, acting other than as a player, he engages in conduct that materially aids any form of gambling activity. Such conduct includes but is not limited to conduct directed toward the establishment of the particular game, contest, scheme, device or activity involved; toward the acquisition or maintenance of premises, paraphernalia, equipment or apparatus therefor; toward the solicitation or inducement of persons to participate therein; toward the actual conduct of the playing phases thereof; toward the arrangement of any of its financial or recording phases or toward any other phase of its operation. A person who gambles at a social game of chance on equal terms with other participants does not otherwise advance gambling activity by performing acts, without remuneration or fee, directed toward the arrangement or facilitation of the game as inviting persons to play, permitting the use of premises therefor and supplying equipment used therein.

(2) "Bookmaking" means advancing gambling activity by unlawfully accepting bets upon the outcome of future contingent events from members of the public as a business.

(3) "Gambling" means staking or risking something of value upon the outcome of a contest, game, gaming scheme or gaming device which is based upon an element of chance, in accord with an agreement or understanding that someone will receive something of value in the event of a certain outcome.

(4) "Gambling device" means:

(a) Any so-called slot machine or any other machine or mechanical device an essential part of which is a drum or reel with insignia thereon, and which when operated may deliver, as a result of the application of an element of chance, any money or property, or by the operation of which a person may become entitled to receive, as the result of the application of an element of chance, any money or property; or

(b) Any other machine or any mechanical or other device (including but not limited to roulette wheels, gambling tables and similar devices) designed and manufactured primarily for use in connection with gambling and which when operated may deliver, as the result of the application of an element of chance, any money or property, or by the operation of which a person may become entitled to receive, as the result of the application of an element of chance, any money or property.

(c) But, the following are not to be considered gambling devices within this definition:

1. Devices dispensing or selling combination or French pools on licensed, regular racetracks during races on said tracks.

2. Electro-mechanical pinball machines specially designed, constructed, set up and kept to be played for amusement only; provided any such pinball machine shall be made to receive and react *only* to the deposit of *coins* [one five or ten cent coin] and no more during the course of a game; provided the ultimate and only award given directly or indirectly to any player for the attainment of a winning score or combination on any such pinball machine shall be the right to play one or more additional games immediately on the same device at no further cost; provided the maximum number of free games that can be won, registered, or accumulated at one time in operation of any such pinball machine shall not exceed thirty free games; provided any such pinball machine shall be made to discharge accumulated free games only by reactivating the playing mechanism once for each game released; and provided any such pinball machine shall be made and kept with no meter or system to preserve a record of free games played, awarded or discharged. Nonetheless, a pinball machine shall be a gambling device if a person gives or promises to give money, tokens, merchandise, premiums or property of any kind for scores, combinations or free games obtained in playing such pinball machine in which such person has an interest as owner, operator, keeper or otherwise.

(5) "Lottery and gift enterprise" means:

(a) A gambling scheme in which:

1. The players pay or agree to pay something of value for chances, represented and differentiated by numbers or by combinations of numbers or by some other media, one or more of which are to be designated the winning ones; and

2. The winning chances are to be determined by a drawing or by some other method based upon the element of chance; and

3. The holders of the winning chances are to receive something of value.

(b) A gift enterprise or referral sales plan which meets the elements of a lottery listed in subsection (5)(a) is to be considered a lottery under this chapter.

(6) "Mutuel" or "the numbers games" means a form of lottery in which the winning chances or plays are not determined upon the basis of a drawing or other act on the part of persons conducting or connected with the scheme, but upon the basis of the outcome or outcomes of a future contingent event or events otherwise unrelated to the particular scheme.

(7) "Player" means a person who engages in any form of gambling solely as a contestant or bettor, without receiving or becoming entitled to receive any profit therefrom other than personal gambling winnings, and without otherwise rendering any material assistance to the establishment, conduct or operation of the particular gambling activity. A person who engages in "bookmaking" as defined in subsection (2) is not a "player." The status of a "player" shall be a defense to any prosecution under this chapter.

(8) "Profiting from gambling activity" — A person "profits from gambling activity" when, other than as a player, he accepts or receives or agrees to accept or receive money or other property pursuant to an agreement or understanding with any person whereby he participates or is to participate in the proceeds of gambling activity.

(9) "Something of value" means any money or property, any token, object or article exchangeable for money or property, or any form of credit or promise directly or indirectly contemplating transfer of money or property or of any interest therein, or involving extension of a service, entertainment or a privilege of playing at a game or scheme without charge."

(2) The *state fire marshal or his employe or appointee* [commissioner] may, *without delay or advance notice and* at all reasonable hours of the day or night, enter in or upon any property to make an inspection or investigation for the purpose of preventing fire loss or determining the origin of any fire, but this subsection shall apply to the interior of private, occupied dwellings only when a fire has occurred therein or when the officer has reason to believe that unsafe fire conditions exist in the building.

(3) No person shall obstruct, hinder or delay such an officer in the performance of his duty.

Section 9. KRS 227.280 is amended to read as follows:

(1) The [commissioner, the] fire marshal or any deputy fire marshal may subpoena witnesses, administer oaths, require the production of books, papers, accounts, documents and other records or materials of an evidentiary nature and may examine witnesses in any investigation, hearing, action or proceeding authorized under *this Act* [KRS 227.200 to 227.400].

[commissioner, the] fire marshal or any deputy fire marshal or performs any contemptuous or contumacious act after being summoned to appear in connection with an investigation, hearing, action or proceeding authorized under *this Act* [KRS 227.200 to 227.400, the commissioner], the fire marshal or any deputy fire marshal, as the case may be, shall certify the facts to the circuit court of the county in which the offense was committed. That court shall have jurisdiction to hear, try and punish such persons as in other cases of contempt.

(4) The same fees shall be paid for the service of process, the taking of depositions and for the services of stenographers as is provided for like services in circuit court.

Section 10. KRS 227.300 is amended to read as follows:

(1) The commissioner shall promulgate reasonable rules and regulations based *on* [upon] good engineering practice and principles as embodied in recognized standards of fire prevention and protection, providing for a reasonable degree of safety for human life against the exigencies of fire and panic, and insuring as far as is practicable against fire loss. Such rules and regulations shall be known as the standards of safety.

(2) In making such rules and regulations the commissioner shall establish minimum fire prevention and protection requirements, including but not limited to requirements for design, construction, installation, operation, storage, handling, maintenance or use of the following: structural requirements for the various types of construction; building restrictions within congested districts; exit facilities from structures; fire alarm systems and fire extinguishing systems; fire emergency drills; *maximum occupancy loads and other requirements for buildings of public assembly;* flue and chimney construction; heating devices; *boilers and pressure vessels;* electrical wiring and equipment; air conditioning, ventilating and other duct systems; refrigeration systems; flammable liquids, oil and gas wells; garages, repair and service shops; application of flammable finishes, [explosives,] acetylene, liquefied petroleum gas and similar products; calcium carbide and acetylene generators; dry cleaning and dyeing plants; flammable motion picture film; combustible fibres; airports and airport buildings; hazardous chemicals; rubbish; open flame devices; parking of vehicles; dust explosions; lightning protection; and other special fire hazards.

(3) For the purpose of integrating the need for safety from hazards of fire with the other safety needs of infants or preschool children under institutional care, the commissioner shall allow persons who own, manage or are employed by institutions which provide care or education for infants or preschool children to participate in drafting the standards of safety as they apply to such institutions. Such participation shall be by representation of professional associations relating to infant and preschool care, and by representation from other individuals licensed to provide infant and preschool care, on a committee chaired by the state fire marshal or his designate. Such participation shall occur prior to the publication of proposed regulations in the administrative register pursuant to KRS 13.085 and 13.096, but shall not limit any individual's right to use those procedures set forth in KRS Chapter 13 concerning comment on or protest of proposed regulations. All professional associations relating to infant and preschool care shall be notified by the commissioner when the drafting of standards of safety relating to such institutions is commenced and all such professional associations shall be regularly notified of the time and place of any meetings conducted by authorized employes of the department for the purpose of drafting such standards.

(4) The commissioner shall publish guidelines relating to the standards of safety as they apply to day care and preschool child care centers and nurseries, which shall indicate the items inspectors from the office of the state fire marshal will be looking for when they conduct inspections pursuant to the standards of safety. Such guidelines shall be made available to persons who own, operate or manage such centers or nurseries, and shall be designed to enable said persons to anticipate and comply with the requirements of the standards of safety.

Section 11. KRS 227.320 is amended to read as follows:

The authorities of any county, city or other political subdivision *shall* [may] adopt and enforce the standards of safety promulgated by the commissioner [of insurance by its respective police force], and may enter upon private property to enforce required fire lane open space in parking lots containing space for ten (10) or more vehicles. Whenever the commissioner, by rules and regulations prescribes a standard of safety from fire loss, such rules and regulations shall establish a minimum requirement concerning the matters covered thereby and shall be so construed in relation to any local rules and regulations.

Section 12. KRS 227.330 is amended to read as follows:

(1) Whenever the *state fire marshal, or any deputy state fire marshal* [commissioner] finds that any property is not safe as to fire loss, under the terms and conditions of *this Act* [KRS 227.200 to 227.400] and under the regulations promulgated *thereunder*, or that the practices or methods of *construction or* operation, or processes *or materials* employed or used in connection therewith do not afford adequate protection from *fire* loss, under *this Act* [KRS 227.200 to 227.400] or under such regulations, he shall order that additions, improvements, *repairs* or changes be made and such equipment be provided *or action taken* as will reasonably

render the property safe.

(2) *Orders and notices of the state fire marshal shall be effective only when in writing signed by him or by his authority.* [Before any such order is made a hearing shall be held in accordance with the provisions of KRS 304.2-320, 304.2-330, and 304.2-360.]

(4) Except as provided by KRS 227.340, an order or notice may be given by delivery to the person to be ordered or notified or his agent or by mailing it, postage prepaid, addressed to him at his principal place of business or residence as last of record in the fire marshal's office.

(5) Except as provided in subsection (6) of this section, before any order issued under subsection (1) of this section is enforceable, notice and opportunity for a hearing shall be provided the owner or his agent in accordance with subsection (4) of this section and Sections 13, 18, 19 and 20 of this Act.

(6) Whenever the state fire marshal or any deputy state fire marshal designated by him for that purpose finds that a violation or violations of the provisions of this Act or any regulations adopted thereunder render any property especially susceptible to fire loss, and there is present such hazard to human life or limb that the public safety imperatively requires emergency action, a fire inspector or other state fire marshal employe may be authorized in writing by the state fire marshal to summarily order that property to be closed to the public or vacated by its occupants until such violation is corrected; provided, however, that the authorizing official incorporates findings to that effect in a written summary order, provides notice of such summary order to the owner or his agent in accordance with subsection (4) of this section within twenty-four (24) hours, and provides the owner an opportunity for a hearing upon his request in accordance with Sections 19 and 20 of this Act within seventy-two (72) hours of the receipt of his request for a hearing by the fire marshal. The fire marshal or his designee shall make his order covering matters involved in the hearing on a summary order and give a copy of the order to each party involved within forty-eight (48) hours of the conclusion of the hearing.

(7) Notwithstanding the above upon receipt of notice of a summary order issued under subsection (6) of this section, an owner or agent may seek a temporary restraining order prohibiting its enforcement in the circuit court within whose jurisdiction the property is located. The court shall review the summary order, and may prohibit its enforcement.

(8) Appeals from any order issued or action taken under this section may be taken in the manner prescribed by Section 21 of this Act.

Section 13. KRS 227.340 is amended to read as follows:

Whenever the *state fire marshal, his deputy,* [commissioner] or other officer has reason to believe that a fire hazard should be corrected and he is unable to determine after a diligent search the owner of any property to be affected, he shall post notice of a hearing concerning such hazard in a conspicuous place on or near such property and shall publish such notice pursuant to KRS chapter 424 in the county in which the property is located. The hearing shall be held in accordance with KRS 227.330 at the time and place specified in the notice as if such notice had been served on the owner.

Section 14. KRS 227.350 is amended to read as follows:

The *state fire marshal* [commissioner] shall keep a permanent record of all *summary orders,* orders, rules and regulations. Each such *summary order,* order, rule or regulation, shall be admissible in any prosecution for the violation of any of its provisions. Provisions of *a summary order or* an order, rule or regulation shall be presumed to be lawful and to fix a reasonable and proper requirement and standard of safety from fire loss.

Section 15. KRS 227.360 is amended to read as follows:

If any owner fails to comply with *a summary order or* an order of the *state fire marshal, his authorized designee or a fire inspector* [commissioner], or with an order as modified on appeal, the *state fire marshal* [commissioner] may cause the property to be repaired, or removed if repair is not feasible, or all fire hazard conditions remedied, at the expense of the owner. Such expense may be enforced against any property of such owner, and the *state fire marshal* [commissioner] and those employed by him to do the work or who furnish materials or equipment therefor, shall have a lien for such expense on the real estate property involved.

Section 16. KRS 227.990 is amended to read as follows:

Any person who violates any provision of *this chapter* [KRS 227.200 to 227.400] or any provision of a lawful order, rule or regulation made under the provisions of *this chapter* [KRS 227.200 to 227.400], or who induces another to violate any provisions of *this Act* [KRS 227.200 to 227.400] or of any lawful order, rule or regulation made thereunder, *upon conviction thereof* shall be fined not less than *twenty-five dollars ($25.00)* [ten dollars ($10.00)] nor more than *one thousand dollars ($1,000)* [five hundred dollars ($500)], or confined in the county jail for not more than sixty (60) days, or both. Each day such violations exist shall, in the discretion of the courts, be considered as a separate offense.

SECTION 17. A NEW SECTION OF KRS 227.330 TO 227.340 IS CREATED TO READ AS FOLLOWS:

(1) Any person who wilfully violates any rule, regulation, summary order or order of the state fire marshal shall be subject to suspension or revocation of certificate of authority, occupancy, or other license or permit, or administrative fine not exceeding one thousand dollars ($1,000) in lieu of such suspension or revocation, for violation of the provision to which such rule, regulation, or order relates, after notice and hearing in accordance with the housing board's appeals procedures in KRS Chapter 198B.

(2) It shall be the duty of the state fire marshal, or upon the commissioner's request, of the attorney general, to bring an action to enforce any proper order made or action taken by the fire marshal or on his authority, or for the recovery of the penalties herein provided, and to bring an action for a restraining order, temporary or permanent injunction, as the state fire marshal deems necessary for the prevention or correction of a condition constituting or threatening to constitute a violation of this Act or regulations adopted thereunder. In any such action for a restraining order, temporary or permanent injunction, allegations in a verified complaint or affidavit by the state fire marshal deputy or employe that the respondent is in violation of specified fire prevention and protection laws or regulations and such violation or violations present such hazard to human life or limb that the public safety imperatively requires emergency action, shall be sufficient under Rule 65 of the Kentucky Rules of Civil Procedure to show that the applicant's rights are being or will be violated and he will suffer immediate and irreparable injury, loss or damage, before notice can be served and a hearing had thereon or pending a final judgment in the action.

(3) All actions for enforcement, recovery of administrative fines and injunctive relief for violations of this Act shall be brought in the name of the Commonwealth of Kentucky by the state fire marshal, or upon the commissioner's request by the attorney general, in the circuit court within which the property involved is located.

(4) If the fire marshal has reason to believe that any person has violated any provision of this Act, for which criminal penalties are provided and in his opinion prosecution would be in order, he shall give the information relative thereto to the appropriate county attorney, commonwealth attorney or to the attorney general. The county attorney, commonwealth attorney or attorney general shall promptly institute such action or proceedings against such person as in his opinion the information may require or justify.

(1) The fire marshal or any other person duly authorized in writing by the fire marshal, shall preside at the hearing and shall expedite the hearing and all procedures involved therein, and shall have the same powers as the fire marshal in relation to the entire matter except the order on the hearing, if not prepared by the fire marshal, shall be approved in writing by the fire marshal.

(2) Any party to the hearing shall have the right to appear in person and by counsel, to be present during the giving of all evidence, to have a reasonable opportunity to inspect all documentary and other evidence and to examine and cross-examine witnesses, to present evidence in support of his interest and to have subpoenas issued by the fire marshal to compel attendance of witnesses and production of evidence in his behalf. Testimony may be taken orally or by deposition, and any party shall have such right of introducing

evidence by interrogatories or deposition as may obtain in a circuit court.

(3) Upon good cause shown, the fire marshal shall permit to become a party to the hearing by intervention, if timely, only such persons, not original parties thereto, whose pecuniary interests are to be directly and immediately affected by the fire marshal's order made upon the hearing.

(4) Formal rules of pleading or evidence need not be observed at any hearing so long as procedural due process is afforded all parties, and so long as said hearing is conducted in accordance with the rules and regulations of the department.

(5) The hearing shall be public, unless the fire marshal, or his authorized designee, determines that a private hearing would be in the public interest, in which case and only with the consent of all parties to the hearing, the hearing shall be private.

(6) The fire marshal shall cause a full stenographic record of the proceedings to be made. If transcribed, a copy of such record shall be part of the fire marshal's record of the hearing; and a copy shall be furnished to any other party to the hearing, at the request and expense of such other party. If no such record is transcribed, the fire marshal shall prepare a summary record of the proceedings and evidence.

(7) The validity of any hearing held in accordance with the notice thereof, or waiver of notice, shall not be affected by the failure of any person to attend or remain in attendance.

(8) The fire marshal or his authorized designee may adjourn any hearing from time to time and from place to place without other notice of the adjourned hearing than announcement thereof at the hearing.

SECTION 20. A NEW SECTION OF KRS 227.330 TO 227.340 IS CREATED TO READ AS FOLLOWS:

(3) The order shall contain those statements required by KRS 227.330(3).

(4) The order may affirm, modify or rescind action theretofore taken or may constitute taking of new action within the scope of the notice of the hearing.

(5) An order prepared by the fire marshal's designee and approved in writing by the fire marshal shall be considered the fire marshal's order.

(3) The appeal shall be granted as a matter of right, and shall be taken to the circuit court within which the property is located, or before the housing board established in KRS Chapter 198B.

(4) The appeal shall be taken by filing in the court a verified petition setting forth the grounds for appeal, together with a bond with good and sufficient sureties to be approved by the court, conditioned to pay all costs which may be assessed against the appellant or petitioner in such proceedings, and by serving a copy of the petition on the fire marshal.

(5) Upon receiving the petition on appeal, the fire marshal shall forthwith prepare an official record certified by him which shall contain a copy of all proceedings and orders appealed from and the transcript of testimony and evidence or summary record thereof made as provided in Section 19 of this Act. Within thirty (30) days after the petition was served upon him the fire marshal shall file such official records with the court.

(6) Upon filing of the petition on appeal the court shall have full jurisdiction of the proceeding. Such filing shall not stay the enforcement of the fire marshal's order or action appealed from unless so stayed by order of the court in which the appeal is pending.

(7) A case shall be set down by the court for as early a day as possible for a hearing and shall in all respects be expedited as a declaratory judgment suit. No new or additional evidence shall be introduced in the circuit court except as to fraud or misconduct of some party engaged in the administration of this chapter and affecting the order appealed from, but the court shall otherwise hear the case upon the record as attested by the fire marshal and shall in all respects dispose of the appeal in a summary manner. Its review shall be limited to determining whether or not:

(a) The fire marshal acted within or in excess of his powers;

(b) Legal or procedural due process was afforded the appellant; and

(c) If questions of fact are in issue, whether or not any substantial evidence supports the order appealed from.

(8) After such a hearing, the court shall enter a judgment sustaining or setting aside the order of the fire marshal appealed from or, in its discretion, the court may remand the case to the fire marshal for the purpose of taking additional testimony or other proceedings.

(9) From the judgment of the circuit court the fire marshal or other party to the appeal may appeal to the Kentucky Court of Appeals in the same manner as provided in civil cases.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 367 IS CREATED TO READ AS FOLLOWS:

The general assembly finds and declares that the sale and offering for sale of recreation and retirement use land, the sale of which is often premised upon future completion of improvements by the subdivider, affects a great number of the citizens of this state and that regulation of such promised improvements in recreation and retirement use land is essential.

SECTION 2. A NEW SECTION OF KRS CHAPTER 367 IS CREATED TO READ AS FOLLOWS:

Unless the context otherwise requires, the following terms shall mean:

(1) "Recreational and retirement use" land shall mean that land which is sold and promoted with primary emphasis on the land's value for recreational purposes or for retirement purposes. In order to carry out the purposes of this Act, the attorney general may by regulations further define the term "Recreational and Retirement Use" of land;

(2) "Offer" includes every inducement, solicitation, or attempt to encourage a person to acquire an interest in land;

(3) "Person" means an individual, corporation, government, or governmental subdivision or agency, business trust, estate, partnership, unincorporated association, two (2) or more of any of the foregoing having a joint or common interest or any other legal or commercial entity;

SECTION 3. A NEW SECTION OF KRS CHAPTER 367 IS CREATED TO READ AS FOLLOWS:

(1) In the sale or offering for sale of any subdivision which is primarily directed toward recreational or retirement use, in the sale of which any improvements are advertised but not completed, the subdivider shall furnish a bond payable to the attorney general in an amount equal to the costs of all such improvements, included but not limited to roads, lakes, golf courses, and stables which are so advertised prior to the sale of any such land or property. Such bond shall remain in effect until the advertised improvements are made and if not completed within a time deemed reasonable by the attorney general shall, after hearing, be forfeited to the attorney general for the use and benefit of the purchasers of the property. Upon completion of the promised improvements and production of a verified statement to this effect the subdivider may petition the commission for release of the bond.

(2) If the land or property offered for sale by the subdivider is located outside of the Commonwealth of Kentucky and is sold both to Kentucky residents and residents of other jurisdictions, the attorney general may accept a bond as described in subsection (1) of this section equal to the pro rata share of improvements for that property that is reasonably anticipated to be sold to Kentucky residents.

(3) In lieu of the bonding requirements appearing in subsection (1) of this section, a subdivider may, with the approval of the commission, place in an approved escrow account fifty percent (50%) of receipts of sales of such subdivided lots until the amount necessary to make the improvements has been accumulated or the improvements advertised by the subdivider made. If the improvements are not made within a reasonable time as determined by the attorney general, such escrow account, after hearing, shall revert to the benefit of the subdivision purchasers.

SECTION 4. A NEW SECTION OF KRS CHAPTER 367 IS CREATED TO READ AS FOLLOWS:

It shall be unlawful for any subdivider to offer for sale recreational or retirement use land in which the improvements as described in Section 3(1) of this Act have not been made unless the provisions of all of Section 3 of this Act have been met.

(1) Persons offering for sale recreational and retirement use land as defined in this Act shall register with the attorney general. The attorney general, after ascertaining that the applicant has complied with Section 3 of this Act, shall issue a registration number to the person, which must appear in any advertising engaged in by the registrant to promote recreational and retirement use land sales in Kentucky.

(2) The attorney general may charge each registrant a fee not to exceed ten dollars ($10.00), plus such additional fees as the attorney general finds necessary to cover any extraordinary investigational costs necessary to investigate the registrant pursuant to this Act.

SECTION 6. A NEW SECTION OF KRS CHAPTER 367 IS CREATED TO READ AS FOLLOWS:

The attorney general shall promulgate rules and regulations which will ensure an adequate disclosure to the purchaser of recreational and retirement use land the probable costs of any necessary maintenance of improvements of such land which may accrue in the future, including but not limited to the costs of taxes, assessments, belonging to an association, costs of inflation, and repairs or improvements. Such disclosure shall be made both orally and in writing prior to the sale of such land.

Whenever the attorney general has reason to believe that any person is offering recreational and retirement use land for sale in violation of this Act or any rules or regulations issued by the attorney general pursuant to Section 6 of this Act, and that proceedings would be in the public interest, he may move in the name of the Commonwealth in a circuit court for a restraining order or temporary or permanen injunction to prohibit such offer. The action may be brought in the circuit court in the county in which such person resides or has his principal place of business or in the circuit court of the county in which the unlawful offer or sale has been or is about to be committed, or in the county in which the land is situated.

such material factors relating to his ability to pay in such form as the Supreme Court prescribes.
